HOSE REELS

REAL

Fig B-2054

Made entirely of steel with riveted joint. The patented flexible joint is water tight. Stamped steel ends on drum. Steel and brass joint, asbestos packed. Nozzle clamp at top will hold nozzle at angle for sprinkling, also holds nozzle when not in use. Black enameled frame and drum, green enameled wheels and standards.

Portable reel that can be connected to the faucet and as much or as little hose unreeled as needed without first unreeling the entire hose. Water runs through the hose on the reel.

Each

No. B-2054—30 in. high, 23 in wide, 19 in deep, 1¼x⅝ in. frame stock, holds 125 ft. of ¾ in. hose or 100 ft of ⅞ in. hose; no hose included in price; weight each 23 lbs.....$5 50

One in a carton

Note—A piece of hose about 3 ft. long with couplings, should be ordered with reel to connect it to faucet

Fig. B-2055

STEEL

*HOSE RACKS

BOWES

For Unlined Linen Hose, with Cover

Fig B-2057

Racks consist of a tubular arm on which eyeletted pins are slidably mounted. The opposite ends of the pins are designed to fit in a channel parallel to the tubular arm, thus supporting the folded hose. This gives a positive support, the pressure is equal on both arms, prevents pinching of the hose and absolutely holds it in place until the hose is withdrawn at the open end, the pins remaining on the extension arm. Cover which protects the hose is formed from one piece of heavy sheet steel, firmly joined to malleable iron back.

Finished in aluminum or gold bronze.

Note—We can furnish semi-automatic racks of same type as above. Prices on application

Packed: 1 Doz. to carton.
Weight. 36 lbs. per doz.

"QUARTERBACK"

America's Realistic Football Game

"Simple enough for children — Yet scientific for older folks."

This fact gives every store a much larger field for sales on this game than on any other game of its kind. "Quarterback" is the only game which SATISFIES the most exacting football fan and retails at the moderate price of two dollars.

Sell your customers a real game and they will send you other purchasers. When people get a good thing they remember where they bought it. For a big Christmas business—display QUARTERBACK in a prominent position and you will sell them—at a profit

Per dozen	$12.00	15.00	18.75

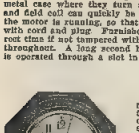
One-half dozen in a box.

ELECTRIC CLOCKS

ELM CITY

The regular electric vibrations are utilized in electric clocks by a simple, dependable, synchronous motor which operates a dependable clock movement. All moving parts of the motor are sealed in a metal case where they turn silently in an oil bath, insuring quiet operation and long life. Motor and field coil can quickly be detached when necessary. All setting and starting is from the dial while the motor is running, so that position of clock does not have to be disturbed. Completely equipped with cord and plug. Furnished from stock for 110-120 volts, 60 cycles. Fully guaranteed to keep correct time if not tampered with. The movements in the clocks are high grade, slow moving cut gears throughout. A long second hand indicates continuous operation of clocks. An automatic starting lever is operated through a slot in the dial.

WALL



Lavina

Width 8⅝ in. Dial 6¼ in. Convex crystal, large sweep second hand, front starting lever and sealed motor. Green or white deco lacquered.

Never Before Has

STROBEL-WILKEN TOY SERVICE

Been So Necessary

TOY buying has always been a man sized job. The well rounded toy department must have literally thousands of separate items, made by hundreds of different manufacturers. It's never been a simple task to keep all this in mind, and now on top of that, come modern conditions with their radical change in buying routine.

Here's where STROBEL-WILKEN TOY SERVICE steps in with its specialized facilities and experienced organization to help you ***make a hard job easier.*** It places the cream of America's Toy Industry at your fingertips and offers a highly developed type of ***personal*** service that saves hours of your time and relieves your mind of many tiresome details. And all at no additional cost, for you ALWAYS get guaranteed factory prices.

Special Note to Manufacturers

Next year the Strobel-Wilken Co., Inc., will be in a position to give a few more good toy lines national sales representation. If you would like to hear what we have done for others and what we can do for you, get in touch with us without delay.

We extend our best wishes to all for A Merry Christmas and a Happy New Year

ELECTRIC FANS

ROBBINS & MYERS

8-INCH NON-OSCILLATING

Alternating and Direct Current

Commutating type fan. Its motor has drawn steel frame mounted on cast iron base having felt strip on bottom of flange. The motors having universal windings, the fans are suitable for operation on A.C. or D.C. current. Has single speed switch mounted in base. Equipped with hinge joint having wing screw for vertical adjustment and mounting in wall bracket position. Finished in semi-gloss baked black enamel. Has four 8 in. steel blades, satin black finish. Complete with cord and separable plug.

A.C. or D.C. current, 25 to 60 cycles, 100 to 120 volts.

No. 8590. ... . Each $6.50

Alternating Current Only

Induction motor, shaded pole type, drawn steel frame, mounted on cast iron base having felt strip on bottom of flange. Single speed toggle switch mounted in the rear head. Has hinge joint having wing screw for vertical adjustment and mounting in wall bracket position. Finished in semi-gloss baked black enamel. Four 8 in. steel blades, satin black finish. Complete with cord and separable plug.

A.C. current only, 60 cycle, 100 to 120 volts.

No. 8004..... ....Each $5.00

One in a Carton

10-INCH OSCILLATING

Alternating and Direct Current

Universal motor suitable for A.C. or D.C. current, with a speed control by means of a regulating switch. The oscillating gear mechanism is integral with the rear head bracket and fully enclosed within a removable end cover. Has a single oscillating sweep making 5½ complete oscillations per minute over 75 degrees. The fan can be made non-oscillating by setting the outer end of the connecting rod and crank pin to the center of the propeller plate. Three speeds, felt covered base, hinge joint for vertical adjustment and wall mounting. Drawn steel frame. Highly finished in semi-gloss baked black enamel. Four 10 in. steel blades, satin black finish. Complete with 8 ft cord and separable plug.

A.C. or D.C. current, 25 to 60 cycle, 110 to 120 volts.

No. 8630 . . . . . Each $27.00

Alternating Current Only

Same as above, except furnished with an induction motor of shaded pole type for alternating current only.

A.C. current only, 60 cycle, 100 to 120 volts.

No. 8633.....Each $27.00

One in a Carton

10-INCH NON-OSCILLATING

Alternating Current Only

A new art fan that meets the modern demand for style and beauty in equipment for use in home or office. The beautiful dark statuary bronze finish is durable and harmonizes with home and office furnishings at every kind. The rigid guard construction and the complete protection which it affords makes it the safest fan for home use ever offered. In addition as a hot weather fan it is especially suitable for heat circulation in front of radiator in winter, as can be operated on the floor with safety. Has a powerful 60 cycle A.C. motor of the silent running induction type which can be operated near a radio set without interference. The blades are designed to move a good volume of air. The motor frame and guard are of drawn steel construction, the low ornamental base is cast iron. All parts, including blades, are finished in the same color—dark statuary bronze. Complete with cord and separable plug.

A.C. current only, 60 cycle, 110 volts.

No. 8900B.....Each $14.00

One in a Carton

Drawn steel frame, mounted on cast iron base with felt strip on bottom of flange, finished in semi-gloss baked black enamel, four 10 in. steel blades, satin black finish. Has swivel hinge joint, having wing screw adjustment for mounting in wall bracket position and adjustable to any angle vertically or horizontally. With 8 ft. cord and separable plug. Single speed toggle switch mounted in the base. Especially suited for mounting on the walls up out of the way in hospitals and hotel sleeping rooms where quiet operation and the amount of breeze a fan of this size produces and control of its direction are desired.

A.C. current only, 60 cycle, 100 to 120 volts

No. 8104 ..... Each $11.00

Same as above, except entire fan is finished in a beautiful golden green and is equipped with 8 ft. green silk cord and separable plug.

A.C. current only, 60 cycle, 100 to 120 volts.

No. 8104G.....Each $11.00

One in a Carton

12-INCH NON-OSCILLATING

Drawn steel frame, cast iron felt covered base, finished in semi-gloss baked black enamel. Four 12 in. brass blades, lacquered. Swivel joint hinge for wall bracket mounting and vertical or horizontal adjustment. Four-point, three-speed switch. With 8 ft. cord and separable plug.

ELECTRIC FANS

ROBBINS AND MYERS PORTABLE WALL

9 In. Alternating Current and Universal

A wall fan which can be moved from room to room instantly and with ease in home, office or hotel. Through a simple arrangement of a bracket and an inconspicuous wall receptacle fan can be shifted from place to place by simply lifting it out of one receptacle and dropping it into another. A universal swivel joint allows easy adjustment vertically or horizontally for any desired air direction. A novel spring suspension feature gives quiet operation and permits mounting on the thinnest wall. The compact powerful motor, furnished in either 110 volt universal or alternating current induction type, silently drives blades that produce a good volume of breeze. Soundless, efficient operation particularly adapts this fan for use in hotel sleeping rooms. Finished in soft sage green color lacquer. Has four blades, drawn steel motor frame. Complete with cord and separable plug.

"Biddy" juice extractor and drink mixer shown below, also fits the wall receptacle used for this portable fan.

A.C. current only, 60 cycle, 110 volts.

No. 6180.....Each $7.50

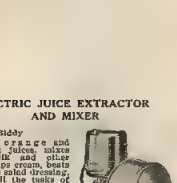
A.C. or D.C. current, 25 to 60 cycle, 110 volts.

No. 6101.....Each $8.50

One in a Carton

ELECTRIC JUICE EXTRACTOR AND MIXER

Biddy



Extracts orange and other fruit juices, mixes malted milk and other drinks, whips cream, beats eggs, mixes salad dressing, performs all the tasks of both the juice reamer and mixing device. Fits in the same wall bracket as the wall fan shown above. Constructed throughout to a high quality standard. The motor is of the universal type for 110 volts A.C. or D.C. The juice reamer is back geared to operate at about 850 R.P.M., while the beater and mixer operate at approximately 10,000 R.P.M.

Overall length, including glass and bracket as mounted on wall is 14 in. Weight 6 lbs. Furnished complete with wall bracket, glass, and 10 ft. of cord and separable plug. The motor frame and bracket are finished in a beautiful green lacquer, the extractor bowl and reamer are of polished aluminum.

Biddy.....Each $14.95

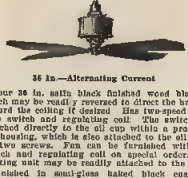
CEILING FANS



36 In.—Alternating Current

Four 36 in. satin black finished wood blades, which may be readily reversed to direct the breeze toward the ceiling if desired. Has two-speed pull type switch and regulating coil. The switch is attached directly to the oil cup within a protecting housing, which is also attached to the oil cup by two screws. Fan can be furnished without switch and regulating coil on special order. A lighting unit may be readily attached to the fan.

Finished in semi-gloss baked black enamel. Regularly supplied with ceiling canopy, wood screw hook, and insulating hanger, but without hanger pipe. ¾ in. iron pipe or conduit is required for this fan.

A.C. current only, 60 cycle, 100 to 120 volts.

No. 6706.....Each $48.00

52 In.—Alternating Current

Four 52 in. selected grade hardwood blades, polished mahogany finish. Has three-speed pull switch attached directly to the oil cup and protected by a separate switch housing, attached to the oil cup by two screws. Both the switch and switch-housing may be readily removed for attaching a lighting unit. Blades may be reversed to direct breeze toward ceiling if desired. The regulating coil is mounted on top of motor, with a removable cover, and is readily accessible and easily removed. Finished in semi-gloss baked black enamel. Regularly supplied with ceiling canopy, wood screw hook, and insulating hanger, but without hanger pipe. ¾ in. iron pipe or conduit is required for this fan.

A.C. current only, 60 cycle, 100 to 120 volts.

No. 6684.....Each $48.00

54 In.—Direct Current

Same as above, except is for direct current only and has four 54 in. wood blades.

D.C. current only, 100 to 120 volts.

No. 6602.....Each $46.00

ELECTRIC FANS

ROBBINS AND MYERS PORTABLE WALL

8 In. Alternating Current and Universal

A wall fan which can be moved from room to room instantly and with ease in home, office or hotel. Through a simple arrangement of a bracket and an inconspicuous wall receptacle fan can be shifted from place to place by simply lifting it out of one receptacle and dropping it into another. A universal swivel joint allows easy adjustment vertically or horizontally for any desired air direction. A novel spring suspension feature gives quiet operation and permits mounting on the thinnest wall. The compact powerful motor, furnished in either 110 volt universal or alternating current induction type, silently drives blades that produce a good volume of breeze. Soundless, efficient operation particularly adapts this fan for use in hotel sleeping rooms. Finished in soft sage-green color lacquer. Has four blades, drawn steel motor frame. Complete with cord and separable plug.

"Biddy" juice extractor and drink mixer shown below, also fits the wall receptacle used for this portable fan.

A.C. current only, 60 cycle, 110 volts.

No. 6100.....Each $7.50

A.C. or D.C. current, 25 to 60 cycle, 110 volts.

No. 6101.....Each $8.50

One in a Carton

ELECTRIC JUICE EXTRACTOR AND MIXER

Biddy

Extracts orange and other fruit juices, mixes malted milk and other drinks, whips cream, beats eggs, mixes salad dressing, performs all the tasks of both the juice reamer and mixing device. Fits to the same wall bracket as the wall fan shown above. Constructed throughout to a high quality standard. The motor is of the universal type for 110 volts A.C. or D.C. The juice reamer is back geared to operate at about 850 R.P.M., while the beater and mixer operate at approximately 10,000 R.P.M.

Overall length, including glass and brackets as mounted on wall is 14 in. Weight 5 lbs. Furnished complete with wall bracket, glass, and 10 ft. of cord and separable plug. The motor frame and bracket are finished in a beautiful green lacquer, the extractor bowl and reamer are of polished aluminum.

STEP STOOLS

RICH

A necessity in every home, serves as a step ladder and stool.

Folds perfectly when not in use—will not collapse when in use.

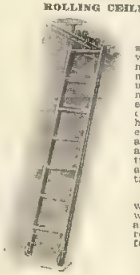
Made of selected stock, rodded, finished in natural wood.

Each

No. 84—Height 22½ in., top measures 7x18 in.; wt. each 6 lbs. $.

*STORE LADDERS

ROLLING CEILING LADDERS



For use with unusually high shelving where side ladders will not meet the requirements. Self-adjusting upper fixtures of malleable iron, provided with four steel-cased wheels with hard fibre tread, an equipment that operates easily, noiselessly, and cannot jump the track. Floor wheels also have durable fibre tread.

Double track applied with ceiling brackets which may be spaced as desired. Brackets regularly furnished for two foot spacing.

Each

No. 85—Oak ladder; complete with fixtures; **without track**; up to 12 ft., wt. per ft. 4 lbs. $50.00

Per foot

No. 11L—Track for No. 85 ladder, complete with brackets, wt per ft. 1¾ lbs. $0 60

Note—If distance from floor to ceiling exceed 12 feet, add $3.00 to the price of the ladder for each additional foot or fractional part.

Illustrating Detail of Trolley and Track

Illustrating in Detail Bottom of Ladder

(*) Not in stock, will ship from factory.

*STORE LADDERS

ROLLING BENT SIDE LADDERS

Intended for use where projection of base shelf is too great for a straight ladder.

The top fixture is self-adjusting with a perfect bearing on the track, allowing the ladder to roll easily whether perpendicular or at an angle, to pass over uneven places in the floor and to be placed close to the shelving when not in use, taking up practically no floor space. Wheels of laminated fibre, reinforced with steel and with brass bushings as bearings, treads over inthe turned fir stained rolling. Certified malleable iron frames give ultimate strength, combined with light weight.

The two large floor wheels are rubber tired, making the ladder perfectly noiseless and easy running.

Track regularly furnished in four, six, eight and ten-foot lengths. Brackets regularly furnished for three foot spacing.

Each

No. 86—Oak ladder, complete with fixtures, **without track**; up to 10 ft., wt. per ft. 4½ lbs. $50.00

Per foot

No. 11L—Track for No. 85 ladder; complete with brackets; wt. per ft. ¾ lb. $0.25

Note—If distance from floor to center of track exceeds 10 feet, add $3.00 to the price of the ladder for each additional foot or fractional part.

The Newest Lighters all Widely Advertised

"Automatic" and "Wind-Dodger" Models by Clark and by Ronson

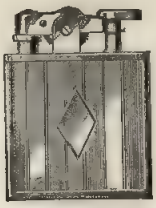
Illustrations of the Clark Lighters are slightly reduced; Ronson Lighters are shown actual size.

The Ronson always lights

JUNIOR SIZE RONSON

Some men and all ladies prefer this smaller size Ronson. It is highly nickeled, has black Morocco leather panels and Morocco leather inset in handle. Works just as perfectly as the larger size.

2K18261 PRICE **$7.00**



CHROMIUM ENGINE TURNED

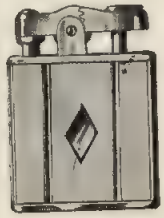
Ronson Automatic Lighter, richly engine turned and finished in everlasting, diamond-like chromium. (Initials cannot be engraved—the metal is too hard.)

2K18262 PRICE **$9.10**

MOTHER OF PEARL RONSON

The most beautiful of the new lighters, this Ronson Automatic Lighter is of black and white genuine mother of pearl, with chromium plated fittings. Standard compact size, most comfortable of all to carry. Works perfectly, always lights.

2K18246 PRICE **$12.75**



ENAMELED IN COLORS COMPACT RONSON

Known as the world's greatest lighter." The Ronson always lights. A flip and it's lit. Release—and it's out. The new Ronson above is especially attractive in its new colored enamel and brilliant chromium trim.

2K18247 PRICE **$9.25**

FAMOUS RONSONS

Press the Ronson and it lights, release it and it goes out. Ronson holds all records for "sure-fire." Covered in your choice of Black Morocco or Alligator grain leather, with highly nickeled metal parts. Each has shield suitable for engraving.

2K18258 Black Morocco. . . . **$7.00**
2K18259 Alligator **9.80**

Ronson's New Combination Cigarette Case and Lighter

Both in One Handsome Thin Model

THE NEW RONSON LYTACASE

Handsome Engine Turned Model Chromium Plated

Just out!! The new Ronson Lytacase, an article of finest jeweler craftsmanship offering smart, double-duty service to the smoker. The Lytacase combines a Ronson De-Light—the world's greatest lighter—and the handsome thin model cigarette case with monogram shield. It is genuine chromium plated with fine engine turning. A trim, thin model, only 4¼ inches in height, measuring only 1⅝x4 inches. Easy to refill, most convenient of all to use! Comes in a handsome plush lined gift case.

2K18248 PRICE. **$14.20**

NEW MODEL RONSON

Extremely handsome—made of two-tone leather, dark and light brown, separated by highly nickeled bands. An extremely flat model, extra long—a beauty. Famous automatic "sure-fire" Ronson.

2K18260 PRICE. **$9.10**

Famous Clark "Wind-Dodgers"—They light in the wind

CLARK LIGHTER

Alligator Covered

Richly gold finished; covered in genuine Alligator. Famous "Sure-Shot" Clark Lighter.

2K18250 PRICE **$6.75**

CLARK "WIND-DODGER" Platinum Finish

Built like a piece of jewelry, as are all other Clark Lighters, with this added feature—has the exclusive patented Clark "Wind-Dodger" top.

2K18252 Price **$10.50**

GENUINE REPTILE Clark "Wind-Dodger"

Men who smoke out-of-doors appreciate the Clark "Wind-Dodger." It lights every time, everywhere. Exquisitely made and covered in real Reptile skin.

2K18253 Price **$10.50**

CLARK "WIND-DODGER" Genuine Alligator

Covered with genuine Alligator skin, the metal parts being gold filled and richly burnished. This Clark "Wind-Dodger" is the most popular of all.

2K18254 Price **$10.50**

SOLID STERLING SILVER Clark Lighter

If you are seeking a gift of exceptional character, one that will stand out from all the rest it will be wise to make this lighter your choice.

2K18251 PRICE. **$21.00**

a Brand New low priced *quality* washer *by* ABC

. . . at the lowest price an ABC has ever been offered

This advertisement is addressed to the dealer who is interested in "Good News"—the most important washing machine news in years. A brand new ABC quality washer—the "Liberty"—at the lowest price at which an ABC Washer has ever been offered. A washer "built up to a standard . . . not down to a price."

Never before has this new unit been a part of the ABC Line. The "Liberty" is a brand new washer designed for 1932 and is not a minature cheap, inferior washer, but a big full size sturdy, ABC quality washer that will stand the gaff and not be a service problem. A washer that opens up a big new source of sure profits for the progressive dealer.

ABC dealers are happy because the decision of ABC to enter the "price field" again enables them to sell the complete ABC line exclusively from the price washer to the pair of them all, the ABC Spinner 77. ABC dealers realize they are now in a position to capitalize on the "price" market and in addition sell a line which includes an ABC Washer for every class of buyer—in every price range. Write or write for details.

ALTORFER BROS. COMPANY

PEORIA (Est. 1909) ILLINOIS

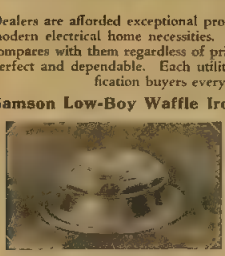
Samson Low-Boy Waffle Iron



This chromium plated waffle iron has won the approval of the fastidious housewife. It bakes golden brown waffles quickly and exactly as you like them. The Samson patented spider unit (composed of concentric circles of nichrome wire) assures thoroughness in baking without scorching. Waffles are easily removed due to the die cast grids, which are generously large and equipped with overdrip groove. Heat indicator tells when to bake. The iron has inlaid heat proof china top with decoration. Height 4 in. diam. 11 in. with grids 8¾ in. diam. 110 volts A.C., 660 watts.

No. 128. Samson Low-Boy Waffle Iron. List price, $8.95. Each, 5.40. Less 2%. Net.

5.29

Samson Egg Cooker

This fine egg cooker is automatic in operation, a new feature in this type of appliance. Lid "pops up" when eggs are cooked as you want them and its maximum capacity is four eggs. **The Samson is the first thermostatically controlled egg cooker known.**

It is finished in glistening chromium. The design is attention-arresting—appealing—modern—every detail from the smart jet black bakelite handles to the shining sanitary inside vitreous porcelain cup, bespeaks the table appliance of sheer beauty. The handy lift rack is of highly polished aluminum nichrome heat unit, non-scratching rubberoid feet, bakelite connector plug and rayon cord. 110 volts, A.C. 250 watts.

No. 187. Samson Panel-Matic Egg Cooker. List Price, $6.95. Each, 3.85. Less 2%, Net.

Unconditionally GUARANTEED Latest Designs Quality Built

Samson Automatic Waffle Iron

The Aristocrat Among Appliances

The lowboy design of the new Samson Panel-Matic has an air of true distinction and magnificence impossible to duplicate. This waffle iron with its brilliant chromium panels, its smart Bakelite handles—is the aristocrat among appliances.

The new Panel-Matic adjustable automatic is almost human in its workings. All you have to do is pour the batter! The Panel-Matic, like some careful chef, gives them individual attention.

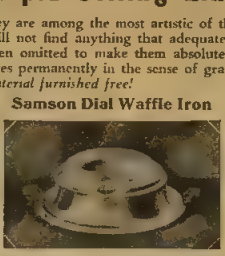
A waffle left in the Panel-Matic can't burn. Thermostat automatically takes care of this.

Perfectly simple to use. The red light goes out to tell you it's time to pour batter. Pour the batter and the light goes on. The jewel goes out to tell you that the waffle is done. The extra heavy thermostat carries the current easily and quickly. Samson Spider Heat Unit. Generous size grid and overdrip groove. Black Bakelite handles. Height overall, 4". Diameter, 11". Diameter of grid, 8¾". 110 volts A.C only. 660 watts. Bakelite connector and attachment plugs and 6 ft. rayon heater cord.

No. 129. Samson Panel Matic Waffle Iron. List price, $9.95. Each, 6.50, less 2%. Net.

6.37

Samson Dial Waffle Iron



Here's a big volume number to increase your waffle iron business. It's a quality iron equipped with a heat indicator which like a silent retinol warns the housewife that it's time to pour the batter. No waiting with a Samson. You get a quicker heat up with the Samson patented spider unit. Waffles lift out easily because of the greaseless die cast grids.

Sparkling Chromium finish, splendidly designed Bakelite handles and the modern lowboy design are distinguishing features of this popularly priced waffle iron. Generous size grids with overdrip groove. Black Bakelite handles. Height overall, 8¾", diameter of grid, 8¾", and full diameter, 11". 110 volts A.C., 660 watts. Bakelite connector, attachment plug and 6 ft. rayon cord

No. 127. Samson Dial Waffle Iron. List price, $7.95. Each, 4.80. Less 2%. Net.

4.70

Samson Percolator Set

Combines smartness with utility and is a good, salable item. Think of it—a china electric set—the newest thing out! Resists heat to excessive temperatures without cracking or breaking. **Its fittings and tray are in lustrous chromium.** Percolates coffee 1 to 1½ minutes after current is turned on and has capacity for seven cups. Sugar and creamer match the percolator in ivory glaze with hand painted floral decoration. Percolator has non-scratching rubberoid feet and Bakelite connector and attachment plugs with rayon cord for use on A.C. 450 watts.

No. 165. Samson Percolator Set. List price, $17.95. Set complete, 11.75, less 2%. Net.

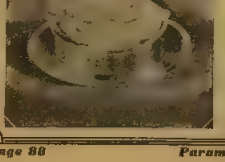
No. 155W. Samson Percolator Only. List 8.95. Less 2%. Net

5.83

SAMSON Combination Hot Dish

We offer here one of the Samson special combination dishes consisting of casserole and chromium plated frame and tray. The Samson heat-proof process makes this article especially immune to excessive degrees of temperature and permits the housewife to serve food "piping hot." This combination may be used as an au Gratin dish, tray for sandwiches or beverages, also for other purposes which will suggest themselves. Height overall, 4½ in. Diameter of dish, 8 in., and tray diameter of 11½ in. Ivory glaze finish hand decorated floral design to match other Samson appliances.



No. 158. Samson Combination Dish. List Price $4.95. Each 3.25. Less 2%. Net..

3.18

SAMSON Hot Pie Server

Here is another of Samson's peerless heat-proof china dishes—a pie server of exceptional merit. It is made of china treated by Samson improved process which renders it immune to excessive temperatures without injurious effects. Its finish is ivory glaze with attractive floral decoration that matches other Samson appliances. Frame is in a beautiful pierced design and finished in lustrous chromium. Diameter of dish, 9 inches. It's offered at an astonishingly low price for ware of this high quality.

No. 157. Samson Pie Server List Price, $3.95 Each, 2.60. Less 2%. Net

FAIRBANKS

For Farm or Other Light Service

Levers are of cast iron, of heavy cross section and trussed with wrought iron rods to successfully resist deflection. They are hung at the four corners from special corner stands bolted to the foundation. Each corner stand is provided with adjustable eye bolt, thus allowing levers to be hung level and to properly adjust themselves under the load without binding.

Each pivot is hammer-forged and ground to a special taper, thus assuring a firm, final fit. It is then precisely finished to gauge for correct multiplication. Pivots are of large section and long bearing length, to insure great strength and long life

Bearings which carry the platform and rest upon the lever pivots are fitted with hardened steels, giving perfect bearing contact and long wear. Loops and links carefully forged from wrought iron, bearing loops having steels welded in where the pivots rest.

Lever system and parts are adapted to wagon weighing for installation in a manner most economical and efficient for that service. Platform plank rests on two main I-beams and a center sill, which are in turn supported on four bearing channels, two at each end of the scale. The center sill is given additional support at its center by an I-beam bolted to the bottom of the main I-beams.

For outdoor weighing with any of these scales a substantial wood beam box is usually supplied but for office weighing a short iron pillar outfit is preferable. A full capacity type registering beam may be used instead of the full capacity plain beam. On special order they may be equipped with extension levers to increase the distance from the edge of platform to beam rod to suit a required special beam location.

Nos.	Capacity Tons	Size of Platform	Height of Platform to Top of Beam	Weight Each Lbs.	Each

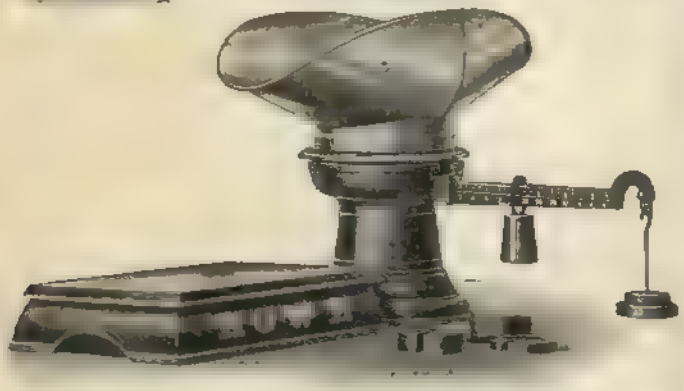
PLATFORM COUNTER SCALES

HOWE



Capacity 240 Pounds; Platform 10x14 Inches

Recommended for almost universal use. Built strong and sturdy, yet sufficiently light to be easily carried about. It lends itself equally well to the market, to the farm, to the store, or to the home. The housewife can verify the weight of groceries, the farmer will find it almost indispensable, while in the store it can be used for weighing any commodity desired. Indicates weight up to 240 pounds on the platform, or 5½ pounds in the scoop. With the double beam scale, the side bar will be used to tare out the weight of box pail, or other container, thus leaving the net weight of the material indicated on the beam.

Graduations: Single Beam: Upper row of figures, for round platform, ½ oz. to 5½ pounds; lower row of figures, for square platform, 4 ozs. to 44 pounds. Double Beam: Front bar same as above; rear or tare bar, for round platform, ⅛ oz. to 5 pounds.

"Scene-in-Action" Electric Lamps

NEW—FASCINATING—REALISTIC

A new and original means of endowing beautiful pictures with color, life and movement. All Scene-in-Action creations are illuminated from behind, and even without motion would attract by their arresting beauty. The action, furnished by an amazingly simple but effective device, gives a sparkle of animation and beauty to the scene which increases its attractiveness to an unusual degree. Scene-in-Action products are the most novel and very latest means of attaining electrical beauty. They improve and beautify the radio or decorate the mantel. The softly colored rays make them useful as night lights. The small bulb permits their constant use day and night at a trifling cost. Manufactured of the highest grade non-inflammable materials obtainable. Every one is assembled, thoroughly inspected and tested before it is packed. Each model in separate container. Instruction sheet for complete assembly is enclosed with each unit.

Forest Fire. This design is very realistic in color and action. You see a dense northern forest, stately pines, a hunter's cabin, a raging fire traveling at a terrific rate of speed, apparently destroying everything in its path, black smoke clouds rolling skyward. Size 5½x9½ inches. Has concealed incense burner in top. Completely wired with socket, cord and plug.

No. 29C51. Each.... 3.43

Marine. This design depicts two most realistic scenes of ocean beauty. The view above shows a ship at sea, sails full, waves breaking against its prow. On the opposite side you see a jagged island of rocks, breakers pounding its sides, with a grim lighthouse towering above. Size 5½x9½ inches. A concealed incense burner in the top Completely wired with socket, cord and plug.

No. 29C52. Each.... 3.43

Niagara Falls. A true colorful reproduction of the great Niagara Falls brought to your home. You see the river peacefully travelling its course, Goat Island in its prominence dividing the two greatest Falls in the world—the American and Canadian Niagara. When the lamp is lighted you see this majestic body of water surging to the rocks below, the rising spray with its rainbow hues glistening in a summer sun. Size 5½x9½ inches. A concealed incense burner in the top. Completely wired with socket, cord and plug. Each in carton

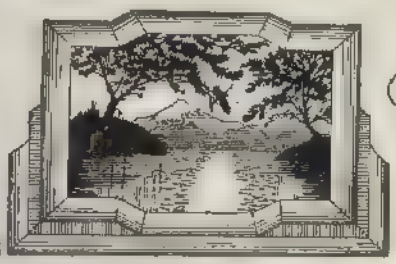
No. 29C53. Each.... 3.43

Moonlight. This can truly be interpreted as "a masterpiece." When lighted, its special color effects produce an array of colors which might have been blended by Nocturn himself. It never becomes tiresome; its hypnotic effect satisfies the most skeptical. Concealed incense burner in top. Completely wired with socket, cord and plug. Size 5½x9½ inches.

No. 29C62. Each.... 3.43

Colonial Fountain. Beautiful in design and color, the Colonial Fountain's gentle spray never fails to command intense interest. Continuously spouts a gentle stream of phosphorescent water which, as it again descends, is transformed into rainbow hues of mist. A colonial court backed by stately columns surrounds the fountain. Encased in a beautiful metal frame, finished in pewter. Size 10½x9¼ inches. Complete with bulb switch, silk cord and plug

No. 29C63. Each..... 4.41



Japanese Twilight. One of the most fascinating home lighting effects ever created. Turn the switch and behold a softly lighted scene depicting the waters of a hidden lake as seen through the eyes of an artist traveling in the Orient. Silver beams of a full Japanese moon are reflected by the rippling water. Encased in a beautiful white metal frame finished in antique silver. Size 13¾x9 inches. Complete with bulb, switch, cord and plug

No. 29C64. Each..... 4.41

The Serenader. This design is created from beautifully molded white metal, finished in antique bronze, set off by a panel of ground-edged glass. It pictures a dreamer's castle in the air with a pool of glistening water. When lighted it gives forth a blend of colors never before produced. Size 13x11 inches. Complete with switch, silk cord and plug.

No. 29C65. Each..... 4.41

Schoenhut's Circus Toys

The popularity of "Schoenhut's Humpty Dumpty Circus Toys" in every family has frequently brought the request for a smaller size of the same toys so that they could be given to real small children just beyond the infant age. We have, therefore, decided to make the most popular animals in a smaller size, and naturally have reduced the figures and accessories in proportion and are now offering a line of sets with these reduced parts. These toys are unbreakable. Jointed wooden animals and figures. Packed each set in lithographed box.

Set of 5 pieces, packed in box measuring 11x8½x2½ inches.

No. F38N106. Each **$2.20**

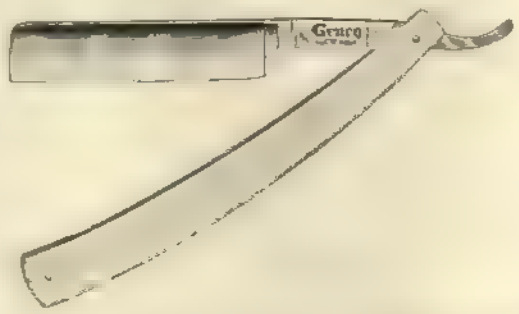
Blade is ground full concave. Razor has a highly polished back, blade and tang crocused. Handle is made of flat vulcanized black rubber

Per dozen

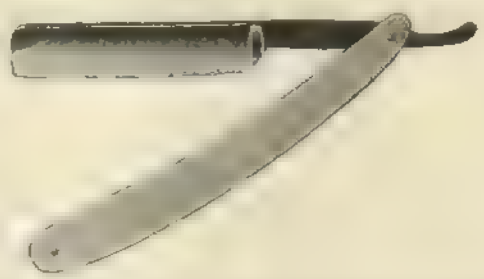
No. 35—⅝ in. round point blade; weight per dozen 1¾ lbs. $36 00



A well balanced razor forged with an oval tang; blade is ground full concave and highly polished. Handle is made of imitation ivory with beveled edge and square ends

Per dozen

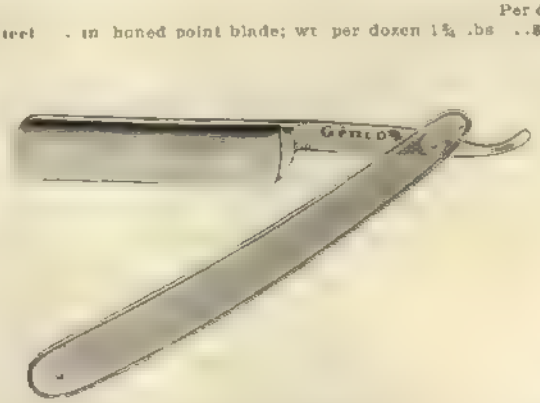
Master Barber—½ in. square point blade; wt. per dozen 1¾ lbs $60 00



The blade of this razor is ground extra concave and highly polished; back and tang finished dark gun metal. Its wide bevel is specially stiffened and will hold an extremely fine edge. Handle is flat imitation ivory

Per dozen

Fluid Steel ... in honed point blade; wt per dozen 1¾ lbs ..$90 00



Has heavy gold plated back and tang. The blade is ground extra full concave and is flat beveled. Transparent amber handle.

Per dozen

Gold Seal—⅝ in. round point blade; weight per dozen 1¾ lbs. $63 00

All above, one in a box; one-half dozen in a carton.

GUANO DISTRIBUTORS

SIMPLEX

The cheapest, lightest, most simply constructed and easily operated sower on the market. Works perfectly and gives absolute satisfaction.

Feed is easily changed by means of a hand lever, and, when necessary, can be cut entirely off without stopping the horse. Oak handles, balance North Carolina pine.

21x7 inch hopper, 6 inches long at bottom, and 20 inches long at top

*Simplex Guano Distributor—12 inch wood wheel with steel tire, capacity 1 bushel; shipping weight each 45 pounds.....Each $12.00

AYERS IMPROVED GUANO SOWERS

This machine is well suited for sowing guano in any quantity up to 1000 pounds per acre, and ridging the land where the row is laid off for either peanuts, cotton or tobacco. It is well made, light and strong and is easily drawn by one mule.

No. 55—Size of discs inches.	16	18
Each	$20 00	21.50

Note—Same machine with 20 inch wheel in front and 20 inch discs behind.....Each $24.00

This machine is a modification of the old No. 11 Sower and is designed to do the same work. Opens the row, distributes the guano any quantity to 1000 pounds per acre, and ridges ready for planting. Machine is much lighter than the old No. 11 and draws much easier

No. 11—Size of discs, inches.....	16	18
Each	$28.00	29.00

COTTON PLANTERS

COX

This is the genuine original Cox Cotton Planter.

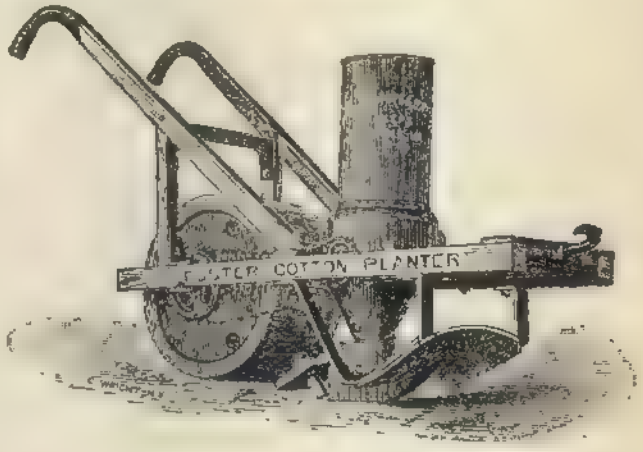
Durable, light to handle, will open, plant and cover seed. Also rolls the soil as it goes, a great saving in labor over the usual way of planting.

Seeds are also planted without rolling just as they come from the gin.

Recent patented improvements have increased the popularity of this planter and it is a leader in its field.

*Cox Cotton Planter—Shipping weight each 100 pounds.. .....Each $20.00

*FOSTER



In the manner of depositing and the saving in seed, the condition in which it leaves the soil, and the ease and facility with which the young cotton is brought to a stand, it pays for itself the first season over other cotton planters. A planter that will drop unrubbed seed with perfect regularity.

A planter that will give a good stand in dry weather and other unfavorable conditions.

With the exception of the small amount of wood (and this is seasoned oak) used in the handles and frame, it is made entirely of iron and steel combined in a manner to make it light, strong and durable, and with reasonable care will last almost indefinitely.

Foster 1911 Improved—Weight 137 pounds..Each $33 00

* Not carried in stock; for factory shipment only.

SPREADER CLAMPS

FOR WHEEL SETS

PLANT SETTERS

MASTERS

Automatic

A practical tool for transplanting all kinds of plants, tobacco, tomatoes, sweet potatoes, peppers, eggplant, etc.

Each plant is set, watered and covered in one operation without any stooping. Makes transplanting easy, pleasant work and is much faster than the hand method

Does perfect work and every plant will grow, no resetting to be done.

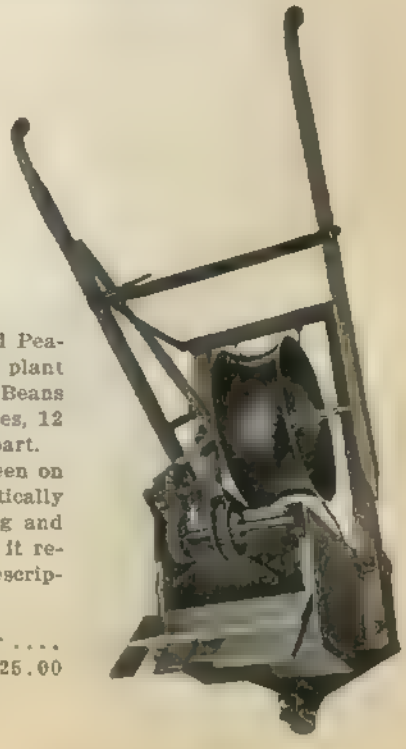
The water valve and the jaws are operated by just a slight tilting of the handle. This makes the controls automatic. Easier to operate and a little faster than old model No. 5 which was operated by a thumb button to release the water and a wire lever to open jaws to let plant out into the ground.

No. 10—Reinforced with several brass fittings, length over all 30 inches; holds about 2 gallons of water—sufficient for 100 to 175 plants; weight each 4½ pounds .....Each $9.00

Six in a carton

PEANUT PLANTERS

AYERS CUP CHAIN



This is the Standard Peanut Planter and will plant equally as well Corn, Beans or Peas to drill 8 inches, 12 inches or 16 inches apart.

This machine has been on the market with practically no changes for so long and is so well known that it requires no further description.

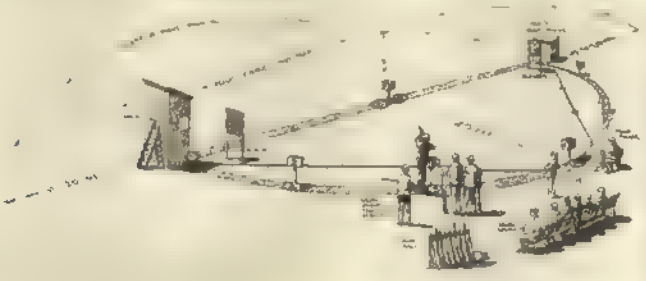
Ayers—Peanut Planter .... Each $25.00

SKEET

THE NEW GAME OF TRAPSHOOTING

Layout of Skeet Grounds

Skeet requires two Skeet Traps—A piece of waste land over which to shoot—An auto to take you, your friends and the Skeet Traps there. Skeet, like golf, is a game of sporty chances. Full of hunkers and hazards. Skeet gives the shooter problems in wing shooting the same as he actually encounters in hunting



In setting up a field of Skeet shooting [illegible] used. First shooter's station [illegible] from [illegible]. This gives the shooter a so-called "[illegible]" shot as is known on the score card. As [illegible] shooter has made [illegible] get in [illegible] from trap [illegible] shot is known as the "incoming" because of its coming towards the shooter and is recorded on the score card as IL. Two shots are [illegible] by each shooter [illegible] to station 2. As each [illegible] station 2, target is released from [illegible] house on right [illegible] from trap 7. He then moves on to station [illegible] and must [illegible] progress shooter goes to each station [illegible] and shoots at [illegible] from both traps. [illegible] be [illegible] shots at the [illegible] stations of the program. Now [illegible] be [illegible] from station 2, [illegible] 7. In shooting doubles 2 shells are [illegible] the [illegible] and both targets are released at the same time. The shooter shoots at the [illegible] target first and [illegible] with the second barrel. In all cases [illegible] shot at the [illegible] and to count as a hit, the [illegible] must be broken [illegible] 4 [illegible] the [illegible], the shooter [illegible] a proper shot with [illegible] may be taken from [illegible] trap. [illegible] by hoops [illegible] shooter [illegible] the contest in [illegible] up his score.

SKEET MEANS INCREASED SALES OF SHELLS, TARGETS AND TRAPS—PUSH IT!

Score sheets for Skeet in lots of twenty-five can be had by sending 10c in stamps to:

NATIONAL SKEET SHOOTING ASSN.,
108 Mass. Avenue, Boston, Mass.

SKEET RULES AND REGULATIONS

Approved by the N. S. S. A., Jan. 1, 1935.

(As published by Hunting & Fishing and National Sportsman Magazine.)

1—**Loaded Guns on the Field.** No loaded gun shall be allowed on the field except in the hands of a shooter when in position to shoot.

2—**Number of Shells in the Gun.** During the shooting of single targets the shooter shall put but one shell in his gun at a time. More than two shells shall not be put in his gun at any time. (See ground rule.)

3—**The Shooting Position.** The shooter shall not raise his gun to his shoulder to shoot until the target is seen in the air. When ready to shoot he shall take his position at the shooting station with his gun in an informal field position. This position shall be defined as one in which the referee, standing at least ten feet directly to the side of the shooter from which he shoots, can see some part of the stock of the gun below or behind any part of the shooter's arm; and that, in which no part of the stock of the gun shall be closer to the shoulder of the shooter than the width of the referee's hand. The shooter shall then order a target which shall be released by the puller any time after the order is heard within an indefinite period not to exceed three seconds. The referee shall delay and test the shooting position of any shooter about whom he is in question, and shall count any target as lost when the shooter's position is not according to rule when the target appears.

4—**Shooting at Irregular Targets.** No shooter may shoot at any broken target or at any target which varies noticeably from the prescribed line of flight, or a target thrown before the order is given. If the shooter shoots at such a target he shall be required to shoot over again and shall abide by the results of his second shot.

5—**Dead and Lost Targets.** Before declaring a target dead, the referee shall see the piece broken from the target. "Dusted" targets shall not be counted as hits.

6—**Shooting Bounds.** To get the most out of Skeet, all targets should be shot at when nearly over station 8. No hits shall be counted when made after the target from Trap 1 has reached a point over the front of station 7 traphouse, or after the target from the trap at station 7 has reached a point over the front of station 1 traphouse. When the shooting is done from station 8 no hits shall be counted that are made after the target passes over the station marker.

7—**Position at Station 8.** When shooting from station 8, the shooter must stand near enough to the station marker so that his forward hand will be over the station.

8—**The Shooting of Doubles.** Unless the shooter about to shoot a double announces to the referee that he will shoot at the incoming target of the double first, and the outgoing target second, the outgoing target shall be shot at first and the incoming target second.

9—**Proof Doubles.**

A—In case of gun failure after the first shot at any double, the shooter shall be given a proof double. The result of his shot at the original double shall be added to the result of his **second** shot on the proof double.

Proof Doubles—Continued.

B—If the trap throws a broken target on the **first** or outgoing shot of any double, the shooter shall be given a proof double which alone will determine his score.

C—If the trap throws a broken target for the **second** or incoming shot of any double, the shooter shall be given a proof double which alone will determine his score—with the proviso, that if he shot at the outgoing target of the original double the result of that shot shall be added to the result of his **second** shot of the proof double.

D—If the shooter breaks both targets of any double with his first shot, he shall be given a proof double. He shall be credited with a hit (on the outgoing target) and the results of his second shot only of the proof double shall be counted in his score.

E—If the shooter breaks the wrong or incoming target with his first shot at any double, he shall be given a lost bird on the outgoing target and he shall be given a proof double. The results of the second shot **only** of the proof double shall be counted in his score.

Note: In all proof doubles, the shooter shall shoot two shots under regular double conditions. Should the targets of any double not be thrown together, the set must be shot over. The referee shall decide when this is necessary.

10—**Lost Targets.** Any shooter who neglects to have his gun ready when ordering a target is not entitled to another shot. However, in case of misfire or failure of the gun to operate through no fault of the shooter, he is entitled to another shot. A regular target that is not shot at after being ordered by the shooter for other reasons than gun or ammunition failure, or for any reason being deemed adequate by the referee, shall be scored as a loss and the shooter shall proceed with the next shot in the regular program.

11—**Exposed Traps.** When exposed traps are used the trapboys shall be at least 50 ft. from the traps and in a position at right angles to the line drawn between the two traps before the order to pull the traps is given. The shooter shall not load his gun until everything, including the trapboys, have left the danger zone. No trapboys shall approach either trap until the shooter has fired both shots from any station. Both the referee and the shooter shall be responsible for enforcing this rule.

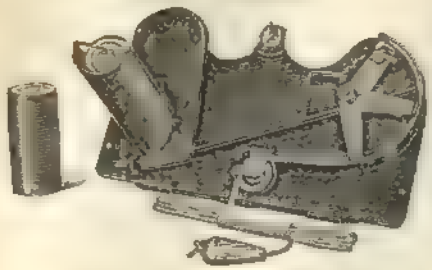
12—**Shooting in Turn.** No shooter shall order any target or shoot at any targets except when it is his turn, and except when he is in proper position.

13—**The Optional Shot.** The optional shot may be taken anywhere in the program but must be announced as such before the shot is made.

14—**Official Scores.** No scores shall be recognized as official unless the grounds are laid out according to specifications and targets are regulation, and unless these rules are adhered to.

TARGET TRAPS

PETERS DUNROCK



Portable Repeating, All Steel

Automatic light weight, compact, folds up and slides under your car seat. Nothing to break or wear out. Can be regulated to throw fast or slow, up to 43 bats in 16 seconds. Can be adjusted for vertical or horizontal flight. Flight of birds from 38 to 55 yards.

Black Baked Enamel Finish

Each

Dunrock Trap—Shipping weight 17 lbs. $35 00

Per box

Dunrock Targets—[illegible] box; weight per box 45 lbs. $15 00

WESTERN PRACTICE

For Skeet and Practice Shooting

Instantly adjusted to all angles and to all elevations. The carrier delivers the target with a steady uniform speed. Light in weight, staunchly built, easily installed and readily removed. Used on the most prominent skeet clubs. Malleable iron arm and elevation adjustment lever; steel carrier.

Each

Western Practice—Shipping weight 19 lbs. $25 50

WESTERN AUTOMATIC

The simplest, most durable and efficient throwing machine on the market. Frame best grade iron frame, no bolts to work loosen. Base steel arm, cold rolled steel shaft, [illegible] mainspring, diamond high grade [illegible] or chain. Non-oscillating carrier, [illegible] velocity at all angles. Pipe connections [illegible] for ¾ in. pipe. All parts [illegible] engageable. The adjustments [illegible] simple positive and easily made. Trap can be used for either single or double targets. All standard targets may be used.

Green Finish

Each

Automatic—Single throw, weight boxed 132 lbs. $135 00

Automatic—Double throw, weight boxed 13[illegible] lbs. 150 00

WHITE FLYER TARGETS

A clean cut saucer shaped disc with its ebony black surface encircled with a white band, making it a clear, [illegible] mark to shoot at. They are strong enough to withstand ordinary handling without breaking.

Per container

No. 270—4¼ in. diameter, 135 targets in a carton, 2 cartons (270 targets) in a container; weight per container 62 lbs. $7 20

LUBRICATING OILS

THREE-IN-ONE OIL

Nos. 1 to 8 — No. 1C — No. 3C

Cleans, Polishes and Lubricates

A thin oil for the mechanism. Prevents rust on all metal parts.

Per dozen

No. 1—1 oz. bottle; 2 dozen in a box, weight 6 lbs. $2 40

No. 3—3 oz. bottles, 1 dozen in a box; weight 7 lbs. 7 20

No. 8—8 oz. bottles; 1 dozen in a box; weight 17 lbs. 14 55

No. 1C—1 oz. "Oil-Right" handy can, 1 dozen in a box, weight 1½ lbs. 3 60

No. 3C—3 oz. handy can; 1 dozen in a box, weight 4 lbs. 7 20

REM GUN OIL

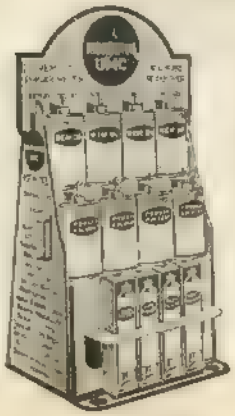
Rem oil is all oil. Will not gum or stick, it lubricates, cleans and polishes. For guns, rifles, revolvers, fishing reels, magnetos, sewing machines, typewriters, etc.

Per dozen

No. 3R—3 oz. handy cans [illegible] top, weight per carton 4½ lbs. $7 20

One dozen in a carton

REM ASSORTMENT



Consists of 3 dozen cans of Rem oil, 1 dozen tubes of rust remover and 1 dozen tubes of gun grease.

Complete with display stand.

Each

No. 1000—Size of stand 18⅜ in. high, 11⅛ in. wide, 7⅛ in. deep; attractive [illegible] weight [illegible] packed [illegible] lbs. $31 20

(*) Not in stock: will ship from factory.

GUN GREASE

REMINGTON

Protects all metal from rust and corrosion. Made from pure materials. Not affected by climatic conditions.

Per dozen

No. 5—In 5 in. long collapsible tubes, weight per dozen 2½ lbs. $3 60

One dozen in a carton

NITRO POWDER SOLVENT

HOPPE

For cleaning high power rifles, shot guns, revolvers and fire arms of all kinds.

Removes and prevents rust and corroding, removes metal fouling and leading.

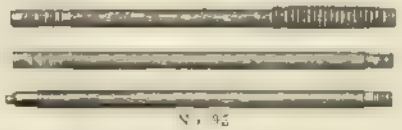
Per dozen

No. 8—2 oz. bottles, weight per carton 3 lbs. $9 00

One dozen in a carton

CLEANING IMPLEMENTS

EUREKA SHOT GUN CLEANING RODS



No. 92

No. 202E — No. 212E — No. 232E

Jointed Birch Rod, Brass Trimmed

Complete with one No. 202E red wool swab, one No. 212E steel wire brush and one No. 232E slotted wiper. Each joint is 12¾ in. long, entire length 37 in.

Per dozen

No. 85—For 12, 16 and 20 gauge guns, complete as described. $10 50

One in an envelope, one dozen in a box.

EUREKA IMPLEMENTS ONLY

12, 16 and 20 gauge

Per dozen

No. 202E—Wool swabs only. $2 40

No. 212E—Wire brushes only. 2 25

No. 232E—Slotted wipers only. 1 50

Three dozen in a box.

TOMLINSON SHOT GUN CLEANERS

Brass Wire Gauze Sides

Guaranteed to remove all lead, rust spots and foreign matter from breech to muzzle. Has a bearing surface of 4 in.; will not injure the finest barrel.

Per dozen

Tomlinson—For 12, 16 and 20 gauge shot guns, will fit No. 5 [illegible] rod with one extra pair of sides [illegible] per dozen 2¼ lbs. $7 95

One dozen in a carton

Note—When ordering cleaning implements be sure to mention gauge.

SMITH & WESSON REVOLVERS

SAFETY HAMMERLESS

Double action; jointed frame; automatic ejector; black rubber stock.

The safety lever and trigger must act in unison; impossible to discharge this arm otherwise than deliberately.

Blued or Nickel Plated

.32 Caliber, 5 Shot

Chambered for 32 S. & W. C. F. cartridges

State caliber of revolver

A Glossary of Fire Arms and Ammunition Terms

To help you answer questions your hunter-customers will ask.

If a customer interested in buying a shotgun should happen to ask, "What does gauge in a shotgun mean anyway?" could you explain it to him? Or tell him what drop at the comb and heel means as applied to a gun? Or explain any other of the many terms that are used constantly in talking about guns and ammunition?

There are probably more technical terms connected with guns and ammunition than with any other line sold in the hardware store. Many salesmen will talk fluently about a gun and demonstrate its special features and yet have a somewhat vague idea of the real meaning of many of the terms that they talk about so easily.

For the benefit of the salesmen who are handling guns and ammunition this fall here is an "ask me another" on terms which are familiar enough to the ear but in many cases not very clearly understood even by men with some experience in selling arms and ammunition

BLACK POWDER—Less powerful than smokeless and producemg more smoke. Is loaded by bulk.

BULK SMOKELESS POWDER—is loaded by bulk.

CALIBER OF RIFLE—The diameter of the bore of a rifle measured by hundredths or thousandths of an inch, as .22 caliber, .44 caliber, etc. When two figures are used to describe a metallic cartridge, the first indicates the caliber and the second usually indicates the weight of the powder in grains, .25-20, .32 40, etc.

CENTER FIRE CARTRIDGE—A cartridge with the primer placed in the center of the head of the cartridge

CHAMBER—The space at the breech end of the barrel shaped to receive the shell or cartridge.

CHILLED SHOT—is hardened lead shot.

CHOKE OF SHOTGUN—The choke of a shotgun means a reduction in diameter of the barrel near the muzzle which concentrates the shot charge reducing the area of spread. Following are the principal types of boring the barrel of the shotgun: **Cylinder bore:** the diameter of the barrel is the same all the way through, a perfect cylinder. **Modified Choke;** the diameter of the barrel is reduced slightly near the muzzle, resulting in more concentration of the shot charge. **Full Choke:** the diameter is reduced to a greater degree than in modified choke, which gives greater concentration of the shot charge.

CRIMP OF SHOT SHELL—The end of the paper tube turned under to hold the load firmly in place.

DENSE SMOKELESS POWDER—is loaded by weight.

DROP AT COMB AND HEEL—The distances between the comb and heel of the stock from an imaginary line representing an extension of the line of sight.

EJECTOR—The part which throws the fired shell out of the gun.

EXTRACTOR—The part which withdraws the fired shell from the chamber.

GAUGE OF SHOTGUN—The diameter of the inside of the barrel measured by number of lead balls to the pound. For instance, the barrel of a 12 gauge shotgun is equal in diameter to the diameter of a lead ball weighing 12 to the pound. The diameter of a 20 gauge gun is the same as the diameter of a 20-to-the-pound lead ball, etc.

HAMMER GUN—Any rifle or shotgun having the hammer outside of the receiver.

HAMMERLESS GUN—Any gun with the hammer within the receiver

PISTOL GRIP—The stock shaped to provide a grip for the right hand when the finger is on the trigger.

PRIMER—A metallic cap placed in the head of the cartridge case containing the priming mixture.

PRIMING MIXTURE—Fulminate or similar material which ignites by percussion.

RECEIVER OF GUN—The part which contains the firing mechanism

RIFLING—The spiral grooves inside the barrel of a rifle which gives the bullet a rotary motion stabilizing its flight.

RIM FIRE CARTRIDGE—Cartridge having no primer, the priming mixture being placed around the rim of the head of the cartridge usually of a smaller caliber.

SHOT PATTERN—The distribution of pellets in a shot charge.

SIZES OF SHOT—The sizes of shot are designated by numbers starting with "dust" diameter, 4/100 of an inch. Numbers then run from 12 to 1, the larger numbers being the smaller sizes. No. 12 is 5/100; No. 11, 6/100; No. 1, 16/100. Sizes larger than No. 1 are designated by letters. Buck shot from .24 to .36 inch diameter is measured by numbers 4 to 000, the larger numbers being the smaller sizes.

SMOKELESS POWDER—More powerful and faster burning powder producing a minimum of smoke

TRAJECTORY—The path of a bullet from muzzle to target, a continuous curve. The mid-range height is usually given in figures for trajectory.

WADDING—Felt or fibre disks in a shot shell between powder and shot.

TOT VELOCIPEDES

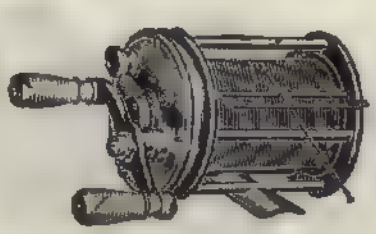
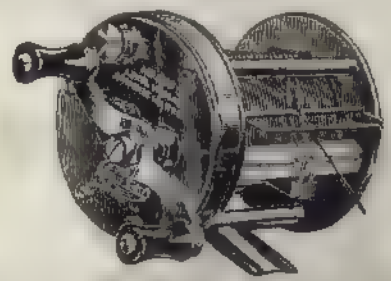
SOUTH BEND LEVEL-WINDING REELS



ORENO ANTI-BACK-LASH REEL

The Oreno Anti-Back-Lash Reel is of the same general design as the famous South Bend Anti-Back-Lash Reel. Satin finish with double grip Quadruple multiplying gear. Capacity 100 yards 16-to-20-pound test silk casting line. Spool diameter is 1½ in. and 1⅛ in wide. Packed one in a box Weight 8 ounces.

No. 16R41. (Mfg. No. 900) Each..... **4.24**

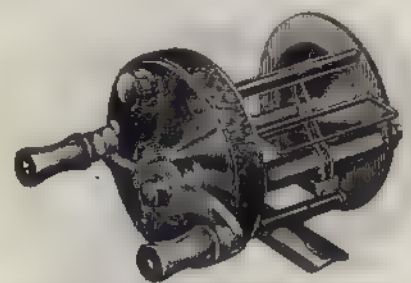


SOUTH BEND ANTI-BACK-LASH REEL

Level Winding Anti-Back-Lash Reel that cannot back-lash, snarl or tangle, and it automatically spools itself, winding the line smooth and even. Has the new patented tension grip adjustment screw which prevents the brake adjustment from working loose. A quarter turn of this adjustment relieves the anti-back-lash device and converts the reel into an ordinary level winder.

Frame is highly nickel-plated brass with double grip crank. Quadruple multiplying gears. Spool bearings run in bronze bushings. Spool cap. Capacity, 100 yards 18-pound test. Packed one in a box. Weight, 8½ ounces.

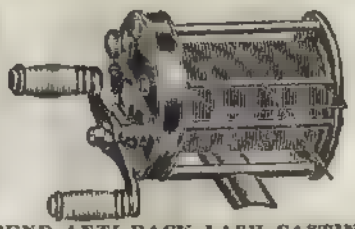
No. 16R70. (Mfg No. 550) Each..... **3.60**



LEVEL-WINDING CASTING REEL

This new South Bend is a masterpiece in mechanical fineness and beauty. Head cap is very distinctive with mottled green bakelite ring separating two nickel silver plates. Other parts are highly polished silver. Spool caps of carnelian agate Famous South Bend anti-back-lash and the new long wearing extension type level-winding carriage Each in leather bag

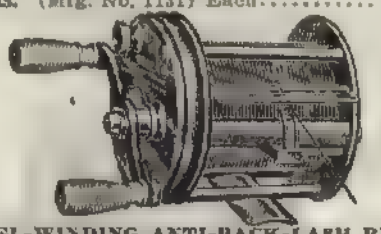
No. 16R88. (Mfg No. 1201.) Each..... **10.78**



SOUTH BEND ANTI-BACK-LASH CASTING REEL

South Bend Anti-Back-Lash Casting Reel. Solid German silver, ivoroid grip, jeweled spool caps, quadruple multiplying with slide click and drag, 100 yard capacity. Absolutely guaranteed. Strictly high-class and guaranteed indefinitely. Each in box, with full directions

No. 16R23. (Mfg. No. 1131) Each..... **6.54**



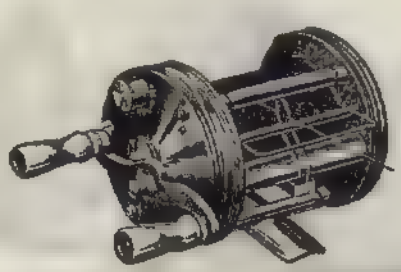
LEVEL-WINDING ANTI-BACK-LASH REEL

Oreno Level-Winding Anti-Back-Lash Reel. This reel is the same in every respect as action and operation are concerned, as the South Bend Level-Winding Anti-Back-Lash

Thumbing and spooling are entirely eliminated It cannot back-lash, snarl or tangle, and it automatically spools itself, winding the line smooth and even. By a very simple adjustment can be converted into a straight level-winding reel.

Highly silvered finish with double grip Quadruple multiplying gear. Parts receiving greatest wear are chromium plated. Capacity 100 yards 16-to-20 pound test silk casting line. Spool diameter is 1⅛ inches and 1¼ inches wide. Weight 8 ounces. Each in box.

No. 16R42. (Mfg. No. 1000) Each..... **5.56**

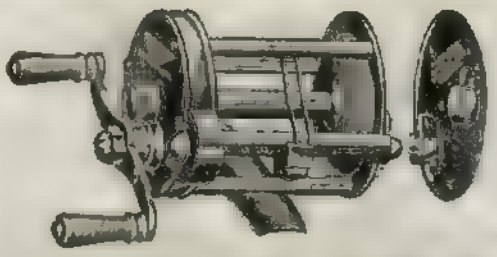


SUPER-SOUTH BEND CASTING REEL

You will find that this new Super-South Bend Casting Reel is all that the name implies. The very last word in reel precision, quality of material and elaborate finish. Head and tail caps of hard aluminum alloy finished in rich, silvery chromium. Extremely light yet durable. Famous South Bend anti-back-lash feature also the new, long wearing extension type level-winding carriage. A wonderful reel in every detail. Each in leather bag.

No. 16R89. (Mfg. No. 1800.) Each..... **17.97**

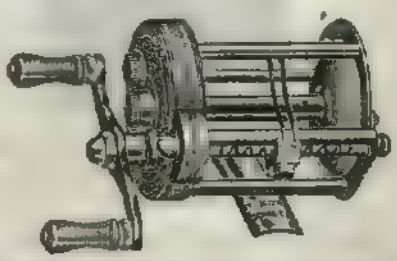
Pflueger, Blue Grass and Meek Reels



PFLUEGER-AKRON LEVEL-WINDING REEL

Level Winding. Quadruple multiplying, combination satin nickel finish. A very popular light weight level winding reel, distinctive in design, built for wear and will hold from 75 to 200 yards, according to size line used. Each in box.

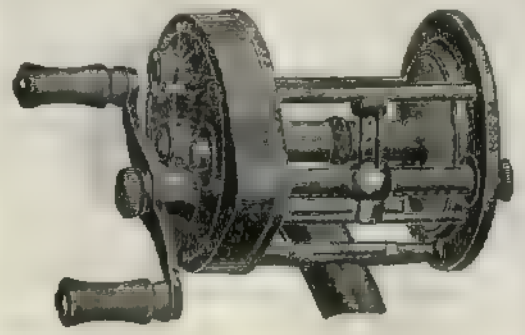
No. 16R44. Each..... **3.27**



PFLUEGER-SUMMIT LEVEL-WINDING AND ANTI-BACK LASH JEWELED REEL

Pflueger-Summit Level-Winding Anti-Back Lash Jeweled Reed. Quadruple multiplying, nickel silver finish. Mechanically well made and ornamental in design. Has 1⅝ inch pillar and 2 inch plate. Will hold from 75 to 200 yards, according to size line used.

No. 16R81. Each..... **6.54**

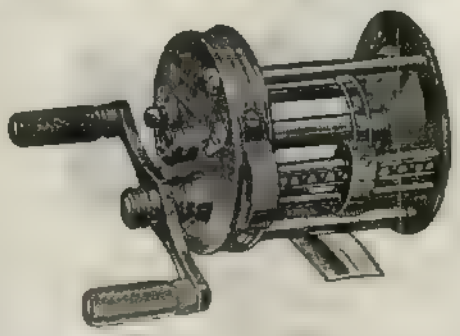


PFLUEGER SUPREME FISHING REEL

Level-Winding Anti-Back-Lash

Pflueger Supreme Fishing Reel. Level-winding anti-back-lash quadruple multiplying, generated spiral tooth gears, steel pivots, tempered and polished. Phosphor bronze bearings, adjustable back sliding click, fancy balanced double handle crank. Will hold from 75 to 200 yards according to size of line used. A booklet describing and also giving instructions how to operate reel is enclosed. Each in box.

No. 16R39. Each..... **16.34**



BLUE GRASS REEL

Blue Grass Reel, made with spiral gears throughout. The carriage is of an unique hinge construction which allows it to be removed from the traverse shaft by unscrewing the small screw. The reel is a quadruple multiplier, with click only and double hande. Pivot and gear bearings have the new improved oil caps. Capacity 120 yards Each in box.

No. 16R85. (Mfg. No. 1G) Each..... **16.34**

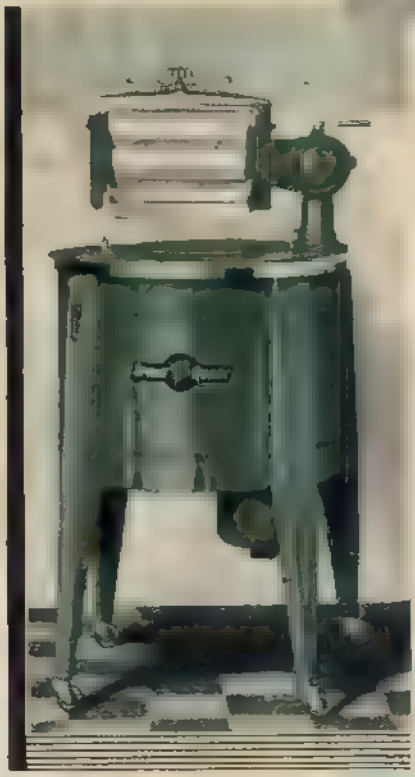
AND NOW ▲▲▲▲ comes this new, Lifetime MONEL METAL TUB ▲▲▲▲



AT NO INCREASE IN PRICE . . $99.50

Three years ago the Speed Queen was the first aluminum washer selling under $100. Two years ago it was first to offer balloon rolls under $100. Last year it was first to offer a gasoline engine model for as low as $119.50

And NOW . . . it's first to offer a genuine Monel Metal Tub washer to sell for $99.50! (East of Rockies)

You're familiar with Monel Metal—the smooth, silvery, acid-resisting metal that never tarnishes, corrodes, chips, rusts or cracks. It's 67% nickel alloyed with copper. The Speed Queen also has a new three-time "arc-cuate" transmission having only three gears—new "free-shift" clutch—new bakelite, spring-socket casters—and a new nickel plated Chamberlain wringer with 2" balloon rolls.

There's quality here, Mr. Dealer—quality like you have never seen on a washing machine before—regardless of price.

Write for franchise particulars

BARLOW & SEELIG MFG. CO.
Ripon, Wisconsin

Available with either 2 or 3-cycle gasoline engine models priced to sell as low as $119.50 and $129.50

TOOL KITS

KENNEDY ALL-STEEL

Made of steel, reinforced; has great strength with a minimum of weight. Double seamed ends, rolled edges, electrically welded connections. Brown enameled baked on. Genuine leather handles, reinforced with steel cores. Fittings are steel, brass plated; multiple change locks with loop catches, keep kits closed even when unlocked.

MACHINISTS' CASES

Open — All Steel — Closed

All steel, strong and durable, offers perfect protection to fine tools.

Bottom of drawers and till lined with good quality felt so that fine tools will not come in contact with the steel. Drawers run on rails which will not break down, no matter how heavily loaded. Rigidly reinforced, cannot warp or buckle, drawers always run smoothly.

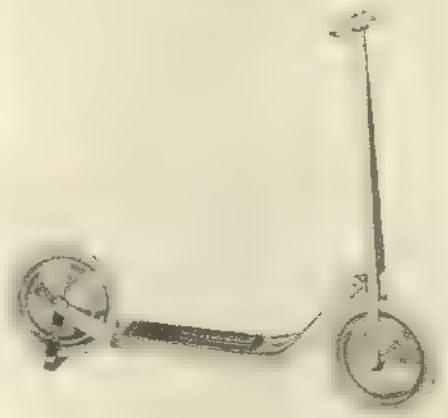
Each	$21 00	25 50	28 50

No. 530, two; Nos. 531 and 532, one in a carton.

SCOOTERS

STEELCRAFT



No. 93

One-piece heavy steel platform with rubber mat; roller bearing wheels. Equipped with brake and parking stand. Finished in orange with standard type disc wheels.

	Each
No. 93—Length 38 in., height 32 in., wheels 10 in. diameter; tires 1 in.; weight each 17 lbs.	$6.75
No. 94—Balloon type wheels; 2¼ in. tires; finished in red; otherwise same as No. 93; weight each 17 lbs.	7.50

One in a carton.

PULL TOYS

FORD COUPE

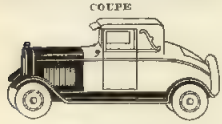
Cast iron, assorted colors red, green and blue; body stripe and head lights trimmed gold; imitation wire wheels, can be furnished with rubber tires at additional cost; rumble seat opens.

Per dozen

No. 106X—Length 6¾ in., width 2½ in.; height 3⅛ in.; wt. per dozen 21 lbs. **$12 75**

Three dozen in a case.

COUPE



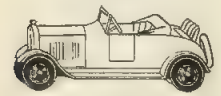
Heavy gauge steel; cabriolet type, assorted models.

Per dozen

No. 6-02—Length 3 in., wt. per dozen 2 lbs. **$2 40**

One dozen in a box.

ROADSTER



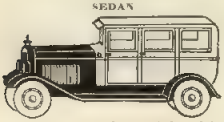
Heavy gauge steel; a smart speeder; assorted models.

Per dozen

No. 6-01—Length 3 in.; wt. per dozen 2½ lbs. **$2.40**

One dozen in a box.

SEDAN



Heavy gauge steel, assorted models

Per dozen

No. 6-04—Length 3 in.; wt. per dozen 2¼ lbs. **$2 40**

One dozen in a box

RACER

High quality cast iron; painted in green and gold, equipped with rubber tires, imitation exhaust flames and sound.

Per dozen

No. 715—Length 10½ in., wt. per dozen 38½ lbs. **$36 00**

One in a box.

RACING CAR

Cast iron; a beautiful little racer with speedy lines, red finish with nickeled disc wheels.

Per dozen

No. 138—Length 6¾ in., width 2 in., height 2⅜ in.; wt. per dozen 12 lbs **$6 75**

Three dozen in a case.

BUS

Heavy gauge steel; a big new type road coach, assorted colors, nickel radiator and lamps.

Per dozen

No. 4036—Length 3¾ in.; wt. per dozen 2½ lbs. **$2 40**

One dozen in a box

BUS

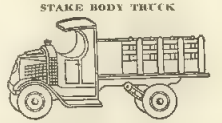
Heavy gauge automobile body steel; steel wheels; body, hood and fenders in bright green; wheels red; all baked enamel.

Per dozen

No. 102—Length 24 in., width 6 in., height 6⅝ in., wheels 3 in. dia.; wt. per dozen 64 lbs. **$24 00**

One-half dozen in a carton

STAKE BODY TRUCK



Heavy gauge steel, an exact reproduction of large truck; assorted colors.

Per dozen

No. 4038—Length 3¾ in., wt. per dozen 2¼ lbs. **$2 40**

One dozen in a carton

STAKE BODY TRUCK

Heavy gauge steel, stamped wheels, cab and chassis are black, box and wheels are orange finish, all baked enamel.

Per dozen

No. 101—Length 23⅜ in., width 6 in., wheels 3 in. diameter; wt. per dozen 60 lbs. **$24 00**

One-half dozen in a carton.

TANK TRUCK

Heavy gauge steel a popular little model, assorted colors.

Per dozen

No. 4040—Length 3¾ in., wt. per dozen 2½ lbs. **$2.40**

One dozen in a box

MACK COAL TRUCK

Heavy gauge steel; a sturdy truck, assorted colors.

Per dozen

No. 4039—Length 3¾ in., wt. per dozen 2¼ lbs. **$2.40**

One dozen in a box.

FORD DUMP TRUCK

Cast iron; red chassis with green dump body; nickeled man, cast reproduction of wire wheels with nickeled tires, gravity dump released by nickeled dump catch.

Per dozen

No. 210—Length 7¼ in., width 3⅝ in., height 3¼ in., wt per dozen 16½ lbs **$12 75**

Three dozen in a case.

DUMP TRUCK

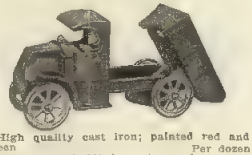
Heavy gauge automobile steel; heavy stamped steel wheels, real dumping mechanism, cab, chassis and wheels are red, box light green finish, all baked enamel.

Per dozen

No. 100—Length 23⅜ in., width 6 in.; box 13⅜x6x2⅛ in.; wheels 3 in. diameter, wt. per dozen 66 lbs. ..**$24 00**

One-half dozen in a box.

DUMP TRUCK



High quality cast iron; painted red and green.

Per dozen

No. 013—Length 5¼ in.; wt. per dozen 11½ lbs. **$6 75**

One-half dozen in a box.

DUMP TRUCK

All steel, double disc steel wheels with large rubber tires; steering and patented dumping mechanism, cab, box and wheels finished in red, chassis and fenders black.

Each

No. 701—Length 27½ in., width 8 in., height 10¼ in.; wt. each 12 lbs. **$7.80**

One in a carton.

MACK DUMP TRUCK

Cast iron, assorted colors red, green and blue, trimmed in gold. The dump body is lifted to its high position by levers; end gate opens by lever.

Per dozen

No. 250X—Bed length 8⅜ in, width 3¼ in, height 3¾ in; full length 10¾ in., full height 5½ in.; wt. per dozen 55 lbs. **$24 00**

One dozen in a case

MONOPLANES

STEELCRAFT

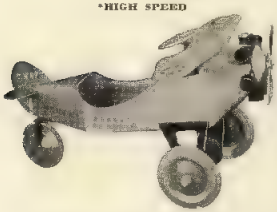
Design and lines of a large monoplane have been carried out as closely as possible in this monoplane. Built entirely of heavy gauge steel; front balloon type wheels, contained roller bearing with fancy ⅝ inch tread tires, rear double disc wheel with ⅝ inch rubber tires; propeller revolves when plane is in motion, equipped with imitation motor, chrome plated propeller, landing light and tail light, body in light green with red striping; wing, tail pieces and bulls eye on wheels in red; landing gear black enamel.

Each

No. 66—Length 53¼ in., height 27½ in., wing spread 30 in.; front wheels 10 in. diameter, rear wheel 8¾ in. diameter, shipping wt. each 72 lbs. $30 00

One in a crate.

*HIGH SPEED



Heavy gauge steel construction; front, balloon type wheels with roller bearing and 1 inch rubber tires; double disc, skid wheel with ⅝ inch rubber tires, propeller revolves when plane is in motion, body in tan baked enamel, wheels, wings and tailpieces in green baked enamel, motor and struts in black baked enamel, chrome plated propeller, lights, steering wheel and hub caps.

Each

No. 65—Length 53¼ in., height 29½ in., wing spread 30 in.; front wheels 10 in. diameter skid wheel 8½ in. diameter; shipping wt. each 81 lbs $42.00

One in a crate.

*TROT-A-WAY

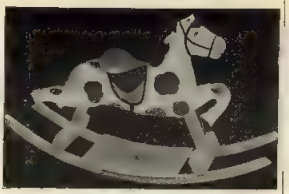
A real trotter; beautiful action, rugged and novel, can be used as a coaster or pull horse.

Each

No. 28—Length 36 in., height 27 in., body 6 in.; wt. each 45 lbs $45 00

One in a crate.

PONY ROCKERS



These horses are especially attractive; decorated in five colors, set upon bent oak rockers, spaced wide for safety.

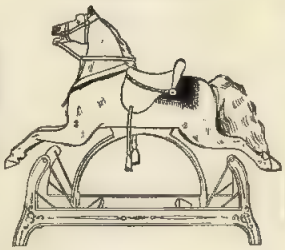
The body is constructed of heavy lumber and the legs of plywood for strength.

Each

No. 324—Length 38 in., height 22 in., width 10 in.; wt. each 13 lbs $8.10

One in a carton.

*SWINGING HORSES



Bridles are buckled and can be removed; full shaped body, plush saddle skirts with gilt fringe, leather trimmings, curb bits, glass eyes and steel shoes.

Each

No. 13—Length 39 in., height 35 in., body 7 in.; wt. each 50 lbs.....$36 00

One in a crate.

DUCK ROCKERS

A graceful and attractive duck, built of plywood for greater strength, finished in ivory and trimmed and decorated in five bright colors. It is safe and roomy for the little tot, heavy sanitary seat and toy box.

Each

No. 325—Length 32 in., height 18 in., width 12 in.; wt. each 10 lbs.....$8.40

Per dozen

No. 107—Length 22½ in., spread of wings 22¾ in., height 7½ in., wheels 3 in. dia.; wt. per dozen 46 lbs. $24 00

One-half dozen in a carton

ARMY SCOUT PLANE

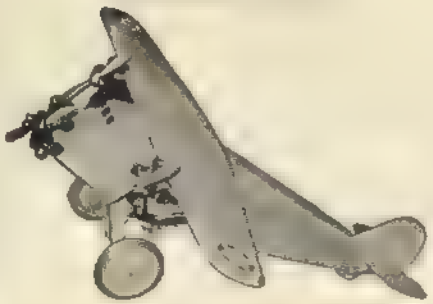
Steel body, three propellers, center propeller revolves, heavy stamped steel wheels, gray body with red wings, wheels and tailpieces.

Each

No. 110—Length 21½ in., spread of wings 22½ in., height 6 in., wheels 3 in. diameter, wt. per dozen 50 lbs. $3 30

One half dozen in a carton

TRANSPORT PLANE



Trimont

Heavy gauge steel, double disc wheels with solid rubber tires, equipped with pull cord noise makers and three revolving propellers.

Body and wings in silver aluminum, red trim, all baked enamel, chromium propellers.

Each

No. 131—Length 23½ in., width 23½ in., wt. each 8 lbs. $5 40

One in a carton

LOCKHEED PLANE

Heavy gauge steel; double disc wheels with solid rubber tires, equipped with pull cord and revolving chromium plated propeller; green body, tailpieces and wings, baked enamel.

Each

No. 137—Length 21½ in., width 21¾ in.; wt. each 7 lbs. $4 65

One in a carton.

PULL TOYS

DUMP TRUCK

Heavy gauge steel, double disc wheels with large solid rubber tires; hood, seat and chassis light green, box and wheels orange, all baked enamel

Each

No 120—Length 25 in., width 8 in., wt each 8 lbs. **$4 50**

One in a carton.

U. S. MAIL TRUCK

Heavy gauge steel double disc wheels with large solid rubber tires, equipped with pull cord, hood, chassis and body in light green baked enamel; wheels red.

Each

No. 125—Length 22½ in., width 7⅛ in., height 10¾ in.; wt. each 10 lbs. ... **$5 10**

One in a carton

CITY FIRE DEPARTMENT

Heavy gauge automobile body steel, heavy stamped steel wheels, two ladders, all brilliant red baked enameled.

Per dozen

No. 166—Length 21 in., width 6 in., wheels 3 in. diameter; wt. per dozen 18 lbs. **$24.00**

One-half dozen in a carton.

HOOK AND LADDER

Heavy gauge steel double disc steel wheels with solid rubber tires, 2 ladders, pull cord, brilliant red baked enameled.

Each

No. 121—Length 29 in., width 8 in.; wt each 11 lbs. **$6 00**

One in a carton

ICE DELIVERY TRUCK

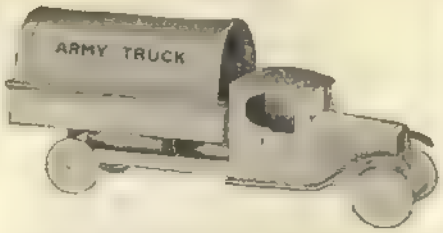
High quality steel, double disc steel wheels with rubber tires; equipped with pull cord, hood and box light green, wheels red.

Each

No. 122—Length 24¼ in., width 7⅛ in.; wt. each 9 lbs. **$5.25**

One in a carton.

ARMY TRUCK



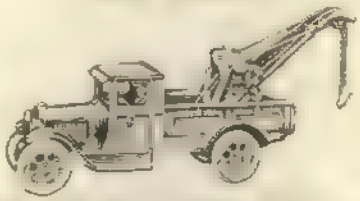
Heavy gauge automobile body steel; heavy stamped steel wheels; cab and chassis beige color, wheels green, all baked enamel, covertop

Per dozen

No. 105—Length 22½ in., width 6¾ in., wheels 3 in. diameter; wt per dozen 64 lbs. **$24 00**

One-half dozen in a carton.

FORD WRECKER



Cast iron; assorted colors; wheels, crank winds chain, held in any position by ratchet, body finished in red with green crane; man, crank, chain and catch nickeled, gold headlights.

Per dozen

No. 215—Length 12⅜ in., width 3¼ in., height 5⅝ in., wt. per dozen 11 lbs **$24 00**

One dozen in a case

TRACTOR

Heavy quality steel; assorted colors

Per dozen

No. 4034—Length 3½ in.; wt. per dozen 2⅝ lbs. **$2 40**

One dozen in a box.

McCORMICK-DEERING TRACTOR

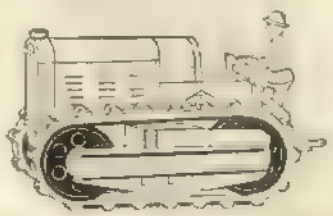
Cast iron, assorted colors red, green and blue; trimmed in gold, nickeled man, red or green lug wheels

Per dozen

No. 276X—Length 7¼ in., width 3⅜ in., height 4¼ in., wt per dozen 34 lbs **$18 00**

One dozen in a case

CATERPILLAR TRACTOR



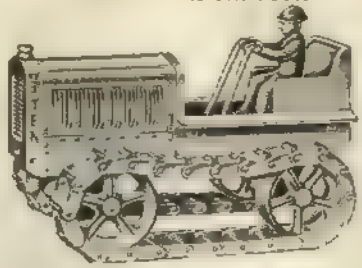
High quality steel; latest type caterpillar tractor finished in red with flexible band over black wheels.

Per dozen

No. 4046—Length 2⅝ in.; wt. per dozen 2 lbs. **$2 40**

One dozen in a box

CATERPILLAR TRACTOR



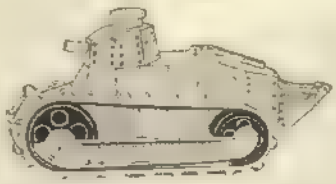
Cast iron; assorted colors red, green and blue; trimmed in gold; red or green wheels to contrast colors, nickeled man and chain; chain drive off of wheels

Per dozen

No. 208X—Length 5⅝ in., width 2⅝ in., height 4¼ in.; wt per doz. 18 lbs **$12 75**

Three dozen in a case

ARMY TANK



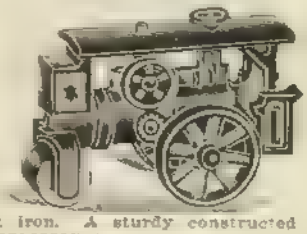
Reproduction in miniature of latest type caterpillar tank from specifications furnished by U. S. Gov't War Dept. Camouflage effect finish with flexible band over black wheels.

Per dozen

No. 4047—Length 3¼ in.; wt. per dozen 2 lbs. **$2 40**

One dozen in a box

ROAD ROLLER



Cast iron. A sturdy constructed toy of good appearance

Per dozen

No. 228—Length 3½ in., wt per dozen 5 lbs. **$4 50**

One dozen in a box.

ROAD ROLLER

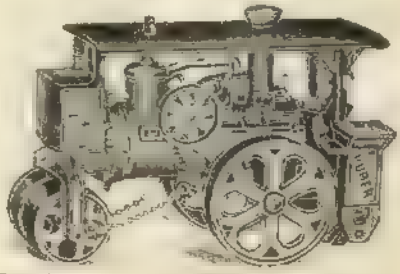
Cast iron; steering wheel guides direction of travel; rollers in nickel. A set screw controls the direction of travel when used as a pull toy, otherwise will drag

Each

No. 711—Length 15 in.; wt per dozen 122 lbs. **$7 65**

One half dozen in a carton

ROAD ROLLER



Cast iron; steering wheel guides direction of travel

Per dozen

No. 735—Length 8 in.; wt per dozen 52 lbs. **$36 00**

One dozen in a carton.

Has universal motor for use on either A.C. or D.C. current. No speed control, push button switch for stop and start in handle. Has adjustments for wear. Gives lateral and slow percussion strokes. Motor case is triple-buff and polish die mould. Outfit consists of vibrator, Applicators 1, 2, 3, 4, 5 and 7, cord and plug and 300 page library-bound book, "Health and How to Get It," packed in a black leatherette carrying case lined with satin.

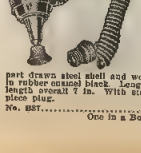
No. D . . . . . Each $13.50
One in a Box

APPLICATORS

The purpose of applicators 1, 2, 3, 4, 5 and 7, which come with Nos. C, A and D vibrators, are fully explained in the 300 page book. Applicator No. 8 is for bristle-brush scalp treatment; No. 9 is a soft rubber rectal applicator; No. 10 is for delicate facial treatment. Can be furnished extra on special orders.

No. 8.....Each $1.00
No. 9.....Each 1.50
No. 10..... .. Each .50

POLAR CUB



Has universal motor, operates on either A.C. or D.C., 110 volts. Complete with three applicators—brush, button and cup. Circular vibrating, automatic oiling system, socket rotator, spring friction release. Two part drawn steel shell and wood handle, finished in rubber enamel black. Length of handle 4¾ in. length overall 7 in. With standard cord and 2 piece plug.

No. 8ST.....Each $4.95
One in a Box

MASTER HEALTHIZER

The Healthizer is an efficiently designed machine for exercising, massaging and reducing.

Is equipped with a large, sturdy ¼ H.P. master repulsion-induction motor—a type of motor that has been used for years by manufacturers of motor-driven machines where the motor is required to stand various abnormal service conditions. It is more reliable, will stand heavier overloads and will not dim the lights when starting. It is superior to the cheaper "split phase" type used upon all similar devices.

The Length of Stroke Can Be Adjusted by the Simple Turn of a Wheel

By adjusting the length of the stroke on the oscillating arm the severity of the massage can be regulated to suit each individual taste. The Healthizer can easily be set for any length stroke between the minimum and the maximum limits—it is not confined to a limited number of stroke lengths. This feature has been very carefully worked out and is of great importance to the one using the machine. In the treatment of stiff neck, or sore muscles, for instance, you can get a fine adjustment of stroke to suit your condition.

The working parts of the Master Healthizer are not only rugged but are fully enclosed. There are no exposed gears or belts which might menace the safety of small children, or throw oil on expensive rugs, clothing, or the walls of the home.

The Healthizer can fittingly be placed in any location in the home—it is safe, clean, compact and attractive. It conforms to the safety rules and regulations of all states.

The Master Healthizer (Model 200) needs no installation. It does not need to be anchored to the floor, side wall, or radiator. It sits in the home just like any piece of furniture. When you stand on the foot plate to use the machine the base is so constructed that your weight holds it down on both ends. It is heavy enough to prevent creeping. It stays where you put it. At the same time it is light enough in weight so that it can be easily moved.

By gently pushing backward on the upright portion of the Healthizer and at the same time removing a steel pin the foot-plate can be folded back. This feature is especially desirable where floor space is limited or where it is desired to store the machine when not in use. When the base is in the folded position the machine can also be placed in the back end of an automobile and transported to your summer home.

Can Be Supplied for Any Current Specification

Master Healthizers can be supplied for 115 or 230 volts, 25, 30, 40, 50, 60, or any other cycle alternating current, or for either 115 or 230 volt direct current.

NOTE—115 and 230 volt Healthizers can also be operated satisfactorily on 110 and 220 volt circuits. In ordering it is important to specify whether your current requirements are A.C. or D.C., as the A.C. Healthizer will not operate on D.C., or vice versa.

Standard Floor Model

An exceptionally compact and attractive piece of bedroom furniture. It is finished in a beautiful antique ivory that will harmonize with most any color of furniture or room decorations. It has rubber feet so it will not mar a polished floor. It is heavy enough to practically eliminate creeping but still light enough to permit moving it as you would any other piece of furniture. This model with its foot plate of burnished aluminum is distinctive in appearance and sturdy enough to withstand either normal use or abuse.

No. 200 .....Each $135.00

A practical machine—no complicated mechanism to get out of order. No installation or anchoring necessary. Equipped with powerful Master Reduction-Induction motor—will not stall. Thoroughly enclosed—no chance for injury from moving parts. Easy stroke adjustment. No oil nor necessary.

No. 400 . . Each $70.00

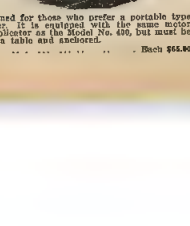
NOTE—Models 200, 300 and 400 are furnished, complete with one—2 in. applicator, one—4 in. applicator and 1 pair of hand grips—all other accessories are extra.

VIBRATONE

A scientifically designed machine which produces as closely as possible the famous Swedish massage movement—a combined rotating and reciprocating action that is smooth, soothing and penetrating. It stimulates muscular tone reduces obesity, normalizes blood pressure, soothes and tones nerves, induces rest and sleep, relieves constipation, congestion, muscular soreness, stiffness, neuritis, rheumatism, stiff joints, weakened or broken down arches, headaches, etc.

Made of the finest materials, is strong, sturdy and handsome. A ball bearing electric motor is completely housed. An aluminum cast housing protects the rotating mechanism. A bakelite knob permits adjustment of the mechanism up or down to best suit the position of the user. The cast pedestal is firmly screwed to a wood base, 14x36 in., which has a ribbed rubber mat firmly attached, providing a positive footheld during treatments. Finished in dlack, easy to keep clean. Equipped with two sets of canvas belts 2 in. and 4 in. wide, with reinforced leather ends. Can be washed with soap and water Also a 5 in. and 8 in. massage belt, made of rubber. A bakelite kneading ball for maximum massage action.

Vibratone .....Each $150.00
One in a Box



Designed for those who prefer a portable type exerciser. It is equipped with the same motor and applicator as the Model No. 400, but must be set on a table and anchored.

No. 350 . . . . . Each $65.00

ULTRA-VIOLET HEALTH LAMP

Without sunlight men would die. Without plenty of it, no one can be strong and healthy. And nowadays scarcely any of us get enough. We live and work indoors—screen our bodies with heavy clothing—lose needed sunlight because of smoky city skies and cloudy winter days.

But now everyone can have the full measure of health and vigor that would be his if he could live like Adam. Sunlight makes health in great part because it contains ultra-violet rays—an invisible radiation that is needed to stimulate vital processes. From special lamps—or from the sun, the benefit is just the same.

Rickets, the dread disease of children, vanishes entirely when their bodies are irradiated with ultra violet rays. Men of fifty feel like thirty when they take daily treatments. Sallow-skinned people take on a robust tan. Baldness is stopped and skin blemishes disappear. Clear, healthful color, flashing eyes, and bounding vitality give new charm and health to women. All this happens when their bodies get the vital, potent ultra-violet stimulation that modern living doesn't let them get in the natural way.

Ultra-violet is invisible, so it's easy to call any lamp ultra-violet. You've got to know to tell the genuine.

The Stewart gets its rays from special sunshine carbons in a double carbon arc—next to the sun itself for efficiency in generating ultra-violet. (U. S. Bureau of Standards Tests.) The rays are diffused on a broad, even bath of light from a special reflector of our new alloy, Spectrochromel, which reflects twice as much ultra-violet as any other tested. And the filter is Corex D—the costly new substance that lets health-building ultra-violet rays pass freely.

STEWART TABLE TYPE
Double Carbon Arc Health Lamp

The handy model—set it anywhere. Runs six minutes—shuts off automatically. Self-cooling wooden handle for tilting or carrying. Bowl, highly polished aluminum, base, ivory enameled iron; total height, 20½ in. Carbons enclosed; will not break. Easily removed tray for carbon ash. Complete with cord and plug, 1 set of goggles, and 6 Everready Sunshine Carbons (8 mm.) Shipping weight, 20 lbs.

No. 1.656.... ...Each $35.00
One in a Shipping Carton

STEWART FLOOR STAND TYPE

Bowl same as table type; has adjustable floor stand, with spring mechanism for easy raising or lowering. Complete with cord and plug, 1 set of goggles, and 6 Everready Sunshine Carbons (8 mm.) Shipping weight, 28 lbs.

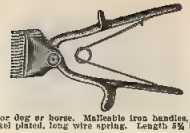
No. 1.658.....Each $45.00
One in a Shipping Carton

EXTRA CARBONS

"Everready Sunshine"—finest type for generating ultra-violet rays. 6 in. long, 8 millimeters diameter.

No. 68.. . . Per box $1.25
Ten in a Box
(We do not break boxes)

FETLOCK CLIPPERS



For dog or horse. Malleable iron handles, full nickel plated, long wire spring. Length 5½ in.

No. 1313 . . . . . Each $1.80

EXTRA PARTS

No. B10TF—Top plate . . . . . Each $0.70

CLIPPING AND SHEARING MACHINES

HORSE CLIPPING

Stewart

New model, easiest running, hand operated. Built oversize throughout. Ball bearings at every point of friction. Oversize gears. Equipped with flexible shaft and latest model No. 31 clipping head. Weight boxed 30 lbs.

No. 10. . . . . Each $15.00
One in a Box

Stewart

Ball bearing, hand operated. For clipping horses, cows and live stock other than sheep and goats. Has rigid base; tubular upright; gears all cut from solid metal and enclosed in dust-proof metal box, all wearing parts are of hardened steel. With No. B2 latest model clipping head and flexible shaft. Weight boxed 25½ lbs.

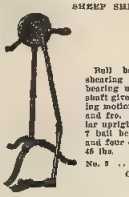
No. 1. . . . Each $14.00

With No. 77 Sheep Shearing Attachment

No. 1 clipping machine with shearing attachment and parts, making a combination machine for clipping horses, mules and cows and shearing sheep and goats. Weight boxed 35½ lbs.

No. 1-C—Combination. . . . . Each $30.00
One in a Box

SHEEP SHEARING

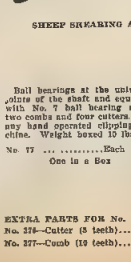


Stewart

Ball bearing, hand power shearing machine. Three ball bearing universal joints in the shaft give full freedom in shearing motion up and down and to and fro. Has rigid base, tubular upright. Equipped with No. 7 ball bearing shear, 2 combs and four cutters. Weight boxed 45 lbs.

No. 5 . . . . . Each $24.00
One in a Box

SHEEP SHEARING ATTACHMENT



Ball bearings at the universal joints of the shaft and equipped with No. 7 ball bearing shear, two combs and four cutters. Fits any hand operated clipping machine. Weight boxed 10 lbs.

No. 17 . . . . . Each $18.00
One in a Box

EXTRA PARTS FOR No. 7 SHEARING HEAD

No. 276—Cutter (5 teeth). . . . . Each $0.80
No. 277—Comb (10 teeth). . . . . Each 1.00

POWER SHEARING MACHINES

Belts to any engine and is simple to set up, ready to operate. Has a patented fast and loose pulley arrangement, which is thrown in or out of gear by a simple push or pull at the top of the jointed shaft. Has an extra long, power jointed shearing shaft.

Complete machine consists of fast and loose pulley set in strong sturdy clutch bracket, extra length jointed shaft, No. 7 narrow shearing head-piece, two combs (bottom plates) and four cutters (top plates). Weight 41 lbs.

No. OMS2S . . . . . Each $27.50
One in a Box

Same as No. OMS2S, except with Greyhound wide shearing headpiece

No. OMS2SW . . . . . Each $37.50
One in a Box

EXTRA PARTS FOR CLIPPING HEAD

B1 and C1

New Style

Parts for No. B-1 new style patented clipping head, for use on new style shafts for all clipping machines made after 1915. Has square shoulder on shank to fit square hole in 3 in. ferrule on flexible shaft.

No. B1—Stewart latest model clipping head, complete with knives . . . . . Each $4.50
No. B2—Set of knives for B. head, (without handle) . . . . . Each 3.50
No. B3—Handle only for B1 head, (without knives) . . . . . Each 1.50
No. 81—Tension spring, (coil spring on top of head) . . . . . Each .15
No. 82—Tension bolt, (goes through both knives and head), ... Each .10
No. 84—Tension nut (screws on tension bolt above tension spring). . . . . Each .10
No. 851—Taper sleeve (forms shank of head, has square shoulder, screws into No. 854 brace) . . . . . Each .20
No. 852—Drive pin (drives cross head No. 856, length 2¾ in.). . . . . Each .15
No. 853—Drive ball (fits on end of drive pin) . . . . . Each .15
No. 854—Brace . . . . . Each .75
No. 856—Cross head (drives top plate) Each .60
No. 856—Cross head pin (goes entirely through head, length 3 in.). . . . . Each .15
No. 857—Guide pin (2 used, one in each side of head, length 1⅝ in.). . . . . Each .10
No. 858—Ball boss (fits in lower side of brace) . . . . . Each .05
No. 859—Socket boss (fits in bottom plate, forms socket for ball boss) . . . Each .10
No. 860—Top plate . . . . . Each 1.50
No. 861—Bottom plate . . . . . Each 2.00

Old Style

Parts for No. C1 old style clipping head, for use on old style shafts for all clipping machines made prior to 1915. Has round shank to fit round hole in 3 in. ferrule on old style flexible shafts.

No. C1—Stewart patent horse clipping head, complete with knives. . . . . Each $4.50
No. C2—Set of knives for C1 head (without handle) 3.50
No. C3—Handle only for C1 head (without knives) 1.50
No. 90—Top plate 1.50
No. 99—Bottom plate 2.00
No. 83—Eccentric roll (fits on end of pin and shaft; drives top plate). 25

Packed as Ordered

*COMBINATION AXE RACKS

DUNBAR ALL-PURPOSE

Dunbar display racks are sales producers, profit builders and space economizers.

Made of steel and iron all heads are malleable iron and are guaranteed against breakage

Mounted on easy-rolling casters, adjustable as to height.

The photographic reproduction above illustrates the convenience of this attractive display rack. In addition to its general utility the double feature represents a substantial saving in floor space

This rack increases sales and will appeal to every progressive dealer

Each

No. C—Capacity 48 axes and handles; height 7 ft.; shipping weight each 65 lbs. $60 00

*STEEL GOODS RACKS

DUNBAR ALL-PURPOSE

Steel and iron; all heads are malleable iron and guaranteed against breakage

Mounted on easy-rolling casters, adjustable as to height.

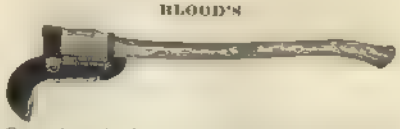
This rack has been designed and constructed from the practical viewpoint It shows to the best possible advantage a line of forks shovels, hoes and rakes

Each

No. H—Capacity 48 pieces of steel goods floor space required 32 in height 5½ ft.; shipping weight each 75 lbs $54 00

BUSH HOOKS

BLOOD'S



One piece tool steel, hand forged and tempered. Blade is painted red with polished cutting edge. Wood axe handle

Per dozen

No. 25—3 ft blade; 36 in. handle, weight per dozen 30 lbs. $43.50

One dozen in a crate

BUSH HOOK HANDLES

CHEROKEE

Turned hickory

Per dozen

Cherokee—36 in. long weight per dozen 14 lbs. $12 00

Two dozen in a bundle.

WEED CUTTERS

LIVELY LAD

Cuts the toughest weeds and the tender grass within 1 inch of the ground.

Blade is made of best saw steel; second growth ash legs and handle.

No more bending the back to cut weeds.

Per dozen

Lively Lad—3 ft. high, blade 2½ in. wide 12 in. long, weight per dozen lbs. $24 00

One-half dozen in a crate

GRASS HOOKS

PERFECT, LONG HANDLE

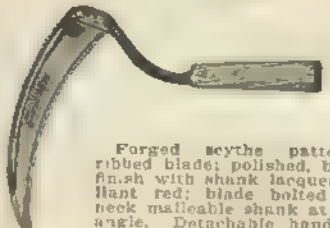
Forged, scythe pattern, steel ribbed blade, polished blue enamel finish with shank and tip of handle lacquered brilliant red. Detachable blade bolted to gooseneck malleable shank, at proper angle for easy cutting from natural upright position

Per dozen

No. 5—12 in. blade 44 in. handle, weight per doz. 26 lbs. $24 00

One dozen in a carton

PERFECT



Forged scythe pattern; steel, ribbed blade; polished, blue enamel finish with shank lacquered in brilliant red; blade bolted to gooseneck malleable shank at the proper angle. Detachable handle is of full grip, shaped to fit the hand

Per dozen

No. 4—12 in. blade; weight per dozen 10 lbs $15 00

One dozen in a carton

(*) Not in stock at time of shipping from factory

GRASS HOOKS

LITTLE GIANT

Sheet steel blade, turned up back and stiffened with bead in the web. Polished on upper side

Hardened and tempered, painted red drop forge steel shank attached with two screws

Corrugated black enameled handle with steel ferrule

Per dozen

Little Giant—12½ in. blade; weight per dozen 10¾ lbs. $18 00

One dozen in a carton, K. D

BOKER

Tempered steel blade, green enamel finish polished bevel; malleable shanks, hardwood handle

Per dozen

No. 130—12 in. cut; 2 in. width of blade; weight per dozen 10½ lbs. $9 00

One dozen in a box

KANAWHA

Natural finished steel blade, welded to offset shank oval hickory handle.

Per dozen

No. 9—12 in. cut weight per dozen 10 lbs. $7 50

One dozen in a carton

CRANBERRY

Silver steel blade, wood handle being offset so as to save knuckles coming in contact with ground. Blade bolted on shank.

Per dozen

Cranberry—11 in. across from point to handle, blade ⅞ in. wide, weight per dozen 9 lbs. $11.25

One-half dozen in a box

HAND MADE

Blade and tang forged from one piece of steel, tang firmly riveted through the handle; offset handle protects the hand; black forged finish polished cutting edge, stained walnut hickory handle

Per dozen

No. 1—12 in. cut; 8 in. handle; weight per dozen 9 lbs $9 00

One dozen in a carton.

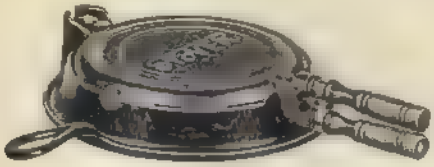
WAFFLE IRONS

STOVER

Cast iron bases, black enameled. Plates are finished very smooth but otherwise unfinished, the smoothness of the iron makes it easy to remove the waffles from the plates. Ball and socket joints allowing easy turning of the plates in the bases and the removal of either plate without disturbing the other. The form of the two plates which shape the waffles is such that quicker and more even baking is assured.



Low Base

For use on coal or wood stoves, cherry stained wood grips on waffle plates; cast handle on base.

Metal Ring for Bumper. Ea. 3.00

No. H663.
Mauls. Each 3.75

No. H664.
Metal Slide.
Each . . 3.00

The upright of this machine is made in two 12-foot sections of best seasoned lumber and is well braced the entire length and cross braces every 18 inches. These braces keep the upright perfectly straight under any weather conditions. It is painted in red with yellow figures and is given a coat of good varnish. Sections are fastened securely with angle irons and are easily put together. The chaser travels up a finished steel guide way at the top of which is a 10-inch plated gong. The base is oak covered with boiler plate 14 inches wide and 44 in long. The beam is of best hickory and is 6 inches wide, 43 inches long and 8 inches thick, with spring on chaser end. The spring not only protects the beam from being worn out by the chaser but is also an adjustment and machine can be made to work hard or easy by a few turns of the adjustment nuts. All castings used on this base are of highest grade steel and impossible to break. The rubber cushion is made of a special grade rubber and will stand very hard pounding, size of this rubber at the base is 5½ inches tapering up to 4 inches and is securely held to the beam by our split pronged ring which makes it impossible to jump out.

The most important feature of any striking machine is its base and we therefore ask you to compare this base with those made by others. With two mauls

Doll Racks

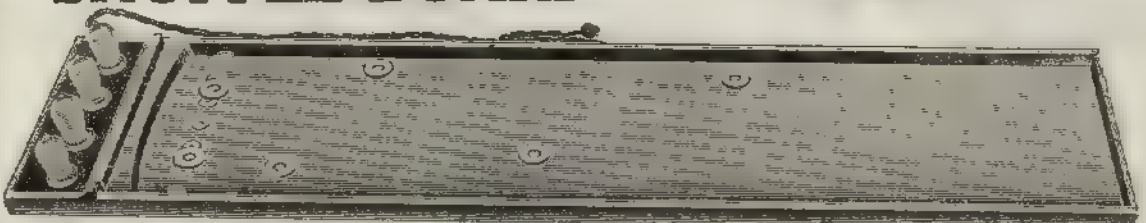
Baby Doll Rack. After a test of several seasons, during which we sold a great number of doll racks we are pleased to state that from the point of construction and durability we think there is no other doll rack quoted at this low price that will give as much satisfaction. Besides being durable, it is also sightly, well constructed and readily put together. All standards and cross bars are made of select lumber, bolted together and well braced. The dolls are clad in colored dresses, three rows of six dolls in each row, eighteen dolls in all. The bodies are select wood hinged to the cross bars. Comical painted faces, genuine fur trimmed heads. The dolls are reset from counter by pulling cord. Size of rack is 7 by 7 feet, with canvas back stop 7 by 7 feet. We challenge any one to equal this doll rack in quality or construction or price

No. H591. Each..... 30.00

"Chicago Special" Doll Rack. The construction of this is the result of considerable scientific figuring. The doll must be hit in one certain spot before it can be knocked over. The illustration showing back view also shows the spot which is above the light line and the head on the wood part of the doll. If hit at that point the doll will go over; if hit anywhere else it will not. The faces of the dolls are made of rubber, 9 inches diameter, nicely painted and dressed. The dolls are clad in ludicrous gowns each doll has a different face. The whole assemblage presents a very comical appearance. [illegible] row is equipped with lifts which reset dolls when knocked down by pulling rope at counter. This outfit is especially substantial and made purposely for a man on the road traveling around. Can be readily and easily taken down or set up in half an hour. The sides are arranged so as to make a carrying case when traveling, holding the complete equipment. It is fully guaranteed and indestructible. Size 7 ft. high, 7 ft. wide

No. H592. Price, Rack only, complete, each.... 42.50

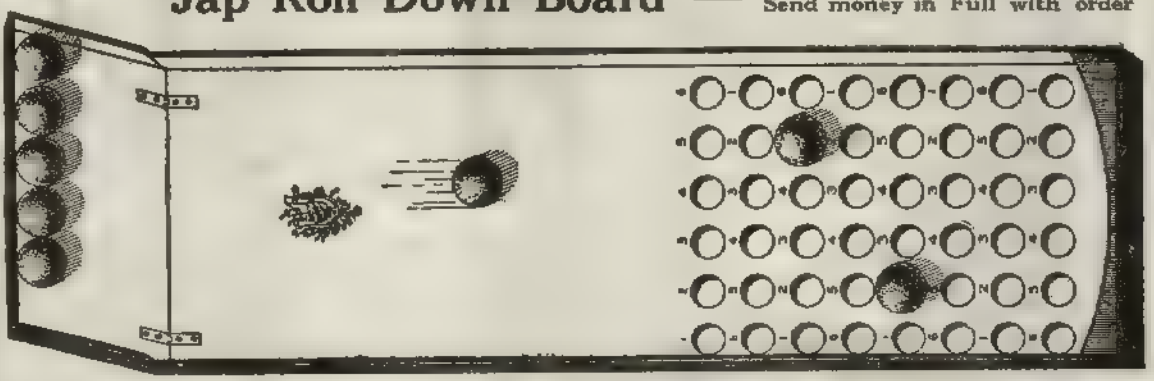
SHUFFLE BOARD — A New Game that is Fascinating and Profitable



Shuffle Board, regulation size 16 inches wide 6 feet long, made of seasoned hard wood, well made and finished with painted edges and trimmings. Wired for four electric lamps complete with cord and plug. Can be operated on any circuit. The player receives six metal discs, and the object of the game is to slide these discs on the board and light the lamps. Lamps are wired in multiples there being seven connections on the board, and to light a lamp the metal disc must cover two of these connections It is purely a game of skill. Two or three boards in a booth with prizes such as dolls, aluminum goods, silverware, blankets and candy is sure to be a big winner, and will prove very profitable, because there is a fascination in attempting to light all of the lamps that cannot be resisted. For lighting one light a very cheap prize should be used, such as slum jewelry, post cards, chewing gum, etc. For lighting two lights, a prize can be used costing from 50 to 75 cents, such as dolls, small aluminum articles, etc. For lighting three and four lamps, a prize can be used, costing the operator as high as 3 00, which would cover the cost of the larger aluminum articles, dolls, electric lamps, silverware, blankets, etc. This game is something new and the man who opens up with this game is sure to get the crowd and hold their interest.

No. H571. Price for board only, without lamps or prizes 17.50

Jap Roll Down Board — A Game that Makes Big Profits. Send money in Full with order



Jap Roll Down Board, regulation size board, 15½ inches wide and 5 ft. 6 inches long. Made of hardwood in cherry or mahogany finish. Well made, presenting a nice appearance.

Each hole is numbered and the principle of the game is to roll the balls into the numbered pockets adding up the score. This game is popular and realizes handsome returns as the line of prizes that can be used in connection with this game are practically without limit. The game is fascinating yet very simple and is attractive to men, women and children as anyone can play. Fitted with hinge end to prevent balls from jumping over when they are returned to the player. One person can operate several of these tables. An attractive and popular game at all fairs, carnivals, amusement parks, etc. Complete with board and 6 wooden balls

No. H566. Each..... 6.00

Dutch Kid, a Prize Throw, consists of a one-piece panel of semi hardwood, reinforced on back by two strong hardwood cross-cleats well nailed on, cut in outline of and painted in colors characteristic of a big Dutch Kid, 13 inches wide by 27½ inches high, bloomer pants, red hair, open mouth 3x2½ inches, behind which is a colored muslin pocket and in stomach is another opening 3½x6 inches, behind which is colored muslin pocket for receiving balls when thrown at openings, the thrower to receive a prize for each ball pocketed in this way, a large prize usually being given for throwing through the smaller opening. Hard rubber-balls about 1½ in. diameter being used.

No. H581. Price..... 2.75

Aunt Sally. An old Virginian Darkey who smokes a corn cob pipe which the player endeavors to ring with cane rings. 30 inches high, 12 inches wide. Made of one piece of semi-hardwood thoroughly reinforced. Wears a yellow dress with red dots, white apron and red bonnet. The idea is very appealing and represents vividly an oldtime Virginian darkey. She will attract attention anywhere and is bound to get the money.

No. H584. Each..... 2.75

Little Orphan Annie

Character Doll

Every Child Will Want To Adopt Her

Little Orphan Annie appears in over 320 newspapers throughout the United States, and is broadcast daily over the radio. This lovable character is known to almost every child and appeals to boys and girls. The doll is 14½ inches high, has stuffed body and legs. The arms and head are made of unbreakable composition. Nicely painted features, has red cloth dress with white trimming. Full knitted stockings that extend above the knees. Leatherette slippers. On each doll there is a tag showing the picture of Little Orphan Annie and her favorite dog Sandy. Each doll comes packed in a handsome lithographed box with pictures of Orphan Annie on all sides.

We honestly believe that this doll will prove to be the outstanding hit of the year. Be the first one in your town to show these dolls, as they will not only prove to be a big seller with you, but by making a good display of them they will attract the attention of the children as well as the parents and bring new customers to your store.

Sunbeam

THE BEST ELECTRIC APPLIANCES MADE

Red Hot for 11,167 Hours

Expert engineers tested the Sunbeam Master Automatic under constant current for 11,167 hours—equal to 30 years' home use—and then found it not half worn out! Its "all-over" unit heats uniformly to the very edges as well as the point and center.

6 lb. Sunbeam MASTER AUTOMATIC

Does the Ironing Faster, Easier, Better

The Sunbeam Master Automatic saves work, saves time, saves money. Now, *you don't have to watch the heat*, you don't have to be forever pulling and inserting the plug. Just set the Sunbeam Master Automatic at the heat you want—*high* for flat or heavy damp pieces, *medium* for dresses, *low* for silks and lingerie—and it *stays there*, without variation, as long as you want it! Can't overheat—can't cool; no waiting, no scorching. Does the job 28% quicker. Saves money on current. And with just the right heat always, you'll be surprised how much *better work* it does! 30 year, all-over heating unit. Scientific point for fancy ironing. Air cooled handle protects your hands from heat. Handy heel rest, 6 lb. weight. *Guaranteed to give more years of good service than any other iron made.*

No. A-870, nickel plated $11.10
No. C-890, chromium plated $12.25

6 lb. Sunbeam STANDARD

With the exception of the automatic control, the Sunbeam Standard has all the superior features of the Sunbeam Master Automatic. Same 30-year all-over heating unit. Same scientific point. Has heavily plated, double-deck stand.

Supplied if desired in patented Art-steel Fire-Proof Case:

No. C-850—6 lb. Standard Sunbeam in case **$11.90**
No. CB-60—3 lb. Little Sunbeam, in case **$7.70**

All Sunbeam Products come packed in handsome black, red and gold Gift Boxes

WET PROOF ELECTRIC HEATING PAD

Every home should have the Sunbeam WET-PROOF Electric Heating Pad handy for use in ailments that require hot compresses. It's the first and *only* electric heating pad that can be used for both dry and WET applications. It's the *only* pad that will keep wet dressings hot for any length of time without the slightest possibility of a short circuit.

If you've ever fussed with continually changing and wringing out hot dressings, you can realize what a *relief* the Sunbeam WET-PROOF Pad must be! The soft, euderdown cover, which fits any part of the body, has a wet-proof inner surface to protect heating element from dampness. The cover may be removed and washed or sterilized. Three heat controls, high, medium and low, give temperature desired in any treatment. State choice of three colors—lavender, buff or tan. Comes with extra muslin cover.

No. H-581, 12 x 15 in. **$13.35**
No. H-590, 12 x 22 in. **$15.40**

Sunbeam Infra-Red Heater and Dryer

The penetrating rays of this Infra-Red Heater are warmer, fully effective for relieving head pain and inflammation. Small compact stand, ing only 9 inches high and weighing only 1½ pounds, it can be set anywhere. Women also use it for drying the hair and setting a water wave. Rigid polished nickel bowl, black lacquered metal base. Tilts to any angle desired.

No. D-70 . . . . . **$9.10**

Sunbeam Smoker's Set

Here you are, men—the first and only electric lighter that will light a pipe! Heating element is shaped to fit inside a pipe bowl. Of course, it works perfectly for cigars and cigarettes, too. Just lift it from its pocket on the ash tray, press a button and there's your light *instantly*—every time! Handsome gun metal, bronze finish ash tray. Three models in attractive designs.

LA 350; LB 360; LC 370; each **$4.90**

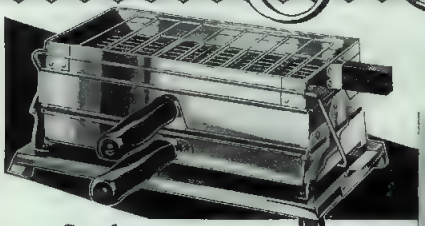
Sunbeam

THE BEST ELECTRIC APPLIANCES MADE



Sunbeam Patented GRILL

Broils, Bakes, Fries, Stews, Toasts—*Right at the Table*

If you are looking for a gift suggestion, here it is! The Sunbeam Electric Grill and Toaster is both useful and attractive and will be most welcome as a gift in any home. It cooks a whole meal right at the table—broils, bakes, fries, stews, toasts. For breakfast, luncheon or afternoon tea; for dinner and after-the-theatre supper, for light refreshment at any time, it is a remarkable time-saver. Makes delicious toast in a jiffy, scrambled eggs, crab meat au gratin, toasted sandwiches—scores of different dishes, a meal for any occasion. Has patented turn-over rack. Compact design. Handsome nickel finish. *Packed in a black, gold and red gift carton.*

No. A 170 $14.80

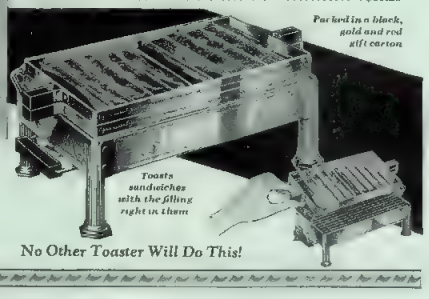
Sunbeam Patented TOASTER

Built FLAT for Greater Speed and Better Toast

Better toast in half the time! Why? Because in the Sunbeam, the bread lies FLAT directly over the rising heat—no heat is wasted as in upright toasters. The Sunbeam makes the best toast you ever ate and this *speed* is the secret. Sunbeam toast is crisp and golden brown outside, tender and tasty inside. Toasts two large slices or two sandwiches at once.

The Sunbeam is the only toaster that will toast complete sandwiches, two at a time, with the filling right IN them. The Patented Turn-Over Rack opens wide to admit bread of any thickness, halved rolls, crackers, hors d'oeuvres, etc. Snap-open Tray catches all crumbs, easy to clean. Handsome design and extra heavy nickel plate finish.

No. B 340 . . . . . $11.20



No Other Toaster Will Do This!

SUNBEAM ELECTRIC PERCOLATOR *for Better Coffee*

With the Sunbeam Electric Percolator, you can be an expert at making coffee, even without any special skill. It is scientifically constructed to make good coffee every time. It percolates *fast*. Thus all the fine flavor and delicate aroma of the coffee bean is retained in the coffee and does not evaporate in steam. This is an exclusive feature of the Sunbeam. You'll like its quick action, too. If you and your family appreciate good coffee, make it in the Sunbeam and you'll have it as you like it all the time.

RATCHET LEVER JACKS

JOYCE

These new Joyce models represent the latest improvements on lever jacks. On account of the increase in strength of the certified malleable iron used, the weight of each jack has been reduced approximately 10%. At the same time changes in design and construction have increased the lifting capacity approximately 25%. The interior working parts are extremely simple. There is no clock work or trigger mechanism. The jack is built entirely without machine screws or expanding rivets. Parts cannot work loose and become lost. The working parts are enclosed and protected from dirt. For the compounding overall height these jacks have a 1 in. greater lift than any other lever jack. The foot lift or toe on the bar has been lengthened and the end forged up at a slight angle to insure a good firm grip on low cams. The reversing lever is placed near the top of the jack where it is handy for the operator to reverse it with either hand or foot. The capacity of the foot lift at the bottom of the lifting bar is one-half the rated capacity.

A steel lever is furnished with every jack. These jacks have been thoroughly tested and are guaranteed for their rated tonnage.

SINGLE ACTING AUTOMATIC LOWERING TYPE

5 Tons

Especially recommended for use in connection with mining machines, electric locomotives, agriculture and industrial machinery. Capacity 5 tons. Height 16 in., raise 18 in., wt. 28 lbs.

BALL BEARING GEARED SCREW JACKS

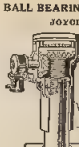
JOYCE STANDARD SPEED



Plain bail bearing, used for heavy contracting work, bridge building, etc. Are of the bridge or footlift type with a large rectangular base. The screw runs in a bronze nut which reduces friction to a minimum. They are recommended for outside work, as they are not affected by weather conditions or rough handling. Round base can be furnished at special orders.

AIR MOTOR DRIVEN JACK HOISTS

JOYCE

Operated in pairs controlled by one man at a Y valve. Compressed air replaces man power for jacking, and saves approximately nine-tenths of the time required for jacking a load by hand. They are powered with a heavy duty locomotive Hand motor and also Boldt safe. Automatic shutoffs at both upper and lower limits of rise. Prices on hose, Y valve, couplings and other accessories furnished on application.

Warmth Means Health and Comfort

BIG VALUE HEATER

An electric heater is great for a chilly morning. It chases the chill and provides that extra touch of heat in nooks and corners. This big value heater has a special cone heating element centered in a 12-inch adjustable copper reflector. It is mounted on a sturdy pedestal 8 inches wide at base. Finished a beautiful antique verdi green.

9K56088 PRICE **$7.00**

ELECTRIC HEATING PAD

An extremely well made electric heating pad is presented here at a new low price. Attractively covered in elderdown and equipped with muslin slip cover. Pad is extra strong, yet flexible enough to use comfortably as a poultice, etc. Equipped with 10-foot cord with 3-heat switch. Size, 11x14 inches. Made by Manning-Bowman & Co.

2K56079 PRICE..... **$9.30**

DELUXE "UNIVERSAL" HEATING PAD

The "Universal" Deluxe Heating Pad is light and fleecy, pliable as flannel, soft as elderdown. It can be wrapped around any part of the body. It gives three different heats 125, 140 and 195 degrees of heat. Four thermostats automatically distribute the heat evenly over the entire pad and maintain it at the desired temperature. Doctors will tell you that the application of heat is one of the best means of relieving pain caused by congestion, rheumatism, lumbago, neuralgia, etc. There is no better way of applying heat than by using this positive heat control deluxe pad. In your choice of two sizes, complete with 8-ft. cord and heat control switch

2K56082 Size 12x15 inches. PRICE..... **$13.85**

2K56083 Size 12x24 inches PRICE..... **20.50**

"UNIVERSAL" HEATER

A new and attractive "Universal" electric heater, with classic Empire design on border and base. Statuary bronze finish highly polished pure copper reflector with detachable wire guard. Extra large ornamental base, tilting reflector and cool handle on back. Complete with 8-ft. cord and attachment plug. Radiator 14 inches in diameter.

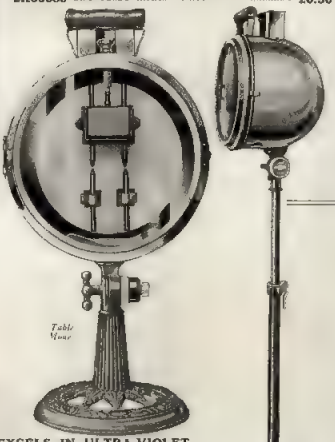
2K56071 PRICE..... **$11.00**

M-B ELECTRIC HEATING PAD

The Manning-Bowman pad is a soft flexible pad covered with elderdown and can be used in any position. Very light weight. Gives even heat, has 3-heat control switch, equipped with thermostats, which give any heat desired.

2K56077 PRICE..... **$12.40**

In the privacy of your own room take your daily sunbath of health-giving Ultra-Violet Rays



THE SUNBEAM HEALTH LAMP EXCELS IN ULTRA-VIOLET

Except for the stand, both the Sunbeam Health Lamp models illustrated are exactly alike. The table model may be set anywhere, for the lamp is made with a strong and easily set adjustment, so that the rays may be pointed in any direction. The floor model is advisable where there is no table available or where a great deal of use is expected. The Sunbeam Health Lamp is built strong and substantial, with heavy tip-proof base. It has a glass door of special ultra-violet glass which protects the double carbons, yet does not interfere with the precious ultra-violet rays.

The Sunbeam Health Lamp runs for six minutes and then shuts off automatically, giving you the correct exposure each time. The advantage of the automatic shut-off is that should you fall asleep, there is no danger of over-exposure or excessive sunburn. It has a self-adjusting double arc device so that both carbons burn perfectly. Each Sunbeam Lamp comes complete with six 8-mm. carbons, pair of goggles, and complete set of instructions, cord and attachment plug.

SUNBEAM HEALTH LAMP

Floor or Table Model

Sunshine means health. Medical authorities agree that most of us need more sunshine than we receive. Since we go about heavily clothed and since we spend most of our time indoors, it is almost impossible to get enough sunshine for really vigorous health. In winter especially, the deficiency is apparent. Science has solved the problem of adding sunshine with the Ultra-Violet Health Lamp. The beauty of the Sunbeam Health Lamp is that you can take daily exposures in the privacy of your own room and get as much benefit as a day at the beach. You acquire a natural suntan from the Health Lamp just as you do from natural sunshine.

BUTLER BROTHERS
. . . CHICAGO

Funny . . . Running . . . Barking . . .

Mrs. Quack Duck

AN APPEALING, smiling lady of the duck family. Give her a baby to pull her around and she's happy without her watery home. Her quack isn't musical but it's real.

No. 276 $12.00 per Doz.

Humpty Hump

A HUMPTY, mild eyed dromedary dressed in gay colors. Pull him and he paces along with you slowly and with the dignity befitting his ancient lineage.

No. 281 $12.00 per Doz.

ALL-FAIR TOYS

Growly Grouch

GROWLY has developed an honest-to-goodness bark. He's still a bit banged up, but even more lovable. Pushing out his funny jaw, barking he follows along.

No. 230 $12.00 per Doz.

Mr. Quack Duck

NOISY but nice. He stretches his neck—he opens his bill and how he squawks. His quacker is concealed but pull him and you'll sure hear it.

No. 275 $12.00 per Doz.

. . . Kicking . . . Quacking . . . Toys

Funny . . . Running . . . Barking . . .

Gabby Goose

GABBY Goose is the most hifalutin' old goosy gander anyone ever did see. Her neck comes out to terrific length and she squawks gleefully to her destination.

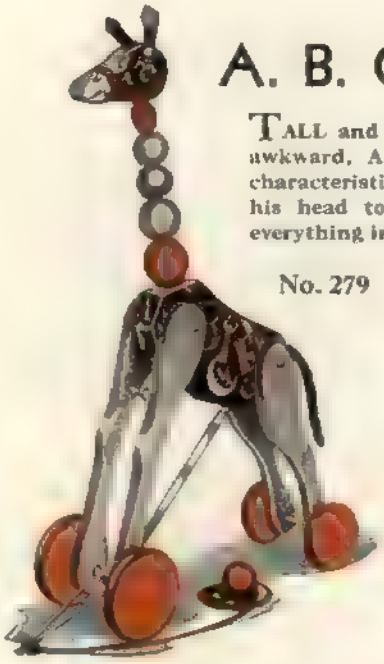
No. 282 $12.00 per Doz.

Billy Goat

CHILDREN all love Billy—an utterly ridiculous animal. Pull him and he'll come with you but don't push, for like all goats his hind legs are very active!

No. 280 $12.00 per Doz.

ALL-FAIR TOYS



A. B. C. Giraffe

TALL and gawky and terribly awkward, A. B. C. with all his characteristic curiosity twists his head to right and left everything interests him.

No. 279 $12.00 per Doz.

Maude and Sammy

THERE'S action and realism enough for the most mischievous kiddie in this sturdy, funny pull toy. Sammy thuds along while Maude balks true to style.

No. 201 $12.00 per Doz.

. . . Kicking . . . Quacking . . . Toys

"RIDE 'EM" TOYS HAVE HANDLE BARS AND SEATS

EDW. K. TRYON COMPANY 817 ARCH STREET, PHILADELPHIA, PA.

KEYSTONE "RIDE 'EM" NEW HEAVY STEEL TOYS

NEW!!

KEYSTONE TOYS ARE NO LONGER PULL TOYS

KEYSTONE "RIDE 'EM" TOYS open up a new field in steel toys. Detachable seat and the handle bar on the new Keystone line of "RIDE 'EM" toys are revolutionary. The seat is comfortable for the boy to sit on and the handle bar enables the boy to lean over on the toy and steer it more comfortably. With these features it will sell to a wider range of children. Toys that the children can ride and steer in front of them will outsell pull toys they pull behind them. Keystone "RIDE 'EM" toys will develop a child's arms and legs.

KEYSTONE "RIDE 'EM" toys may now be displayed with wheel goods as well as on the counter.

CHEMICAL OUTFITS

Manufactured by
THE PORTER CHEMICAL CO., Hagerstown, Md.

THE CHEMCRAFT line for 1931 is illustrated and described on the following pages. This new line consists of eight (8) different sizes; an outfit for every purse, that will please every purchaser.

Bigger and Better than Ever for 1931!

CHEMCRAFT is the Original, and always has been the leading Chemistry Outfit on the market. And now, in this 1931 line, refinements and improvements have been effected which make CHEMCRAFT more than ever the outstanding value in this type of merchandise. New wooden cabinets of greater eye-appeal; more attractive assortments of chemicals and apparatus; brighter and snappier trimmings . . . all these add saleability far in excess of anything ever offered before.

New Wood Cabinet Outfits -- More for the Money!

The CHEMCRAFT SURPRISE . . . an entirely new type of chemistry set that will sell to those now owning outfits, as well as to new purchasers. A set based on an entirely practical idea that no one ever thought of before! Be sure and see it!

This will be a CHEMCRAFT year! Stores which concentrate on CHEMCRAFT will make more money in the end, because CHEMCRAFT is standard merchandise in every toy department. These outfits sell without question because everybody knows and prefers CHEMCRAFT. Profits are sure and safe . . . there is no such thing as depreciation in value at the end of the season on CHEMCRAFT!

Look over the line shown on the following pages and place your requirements on order early in the year.

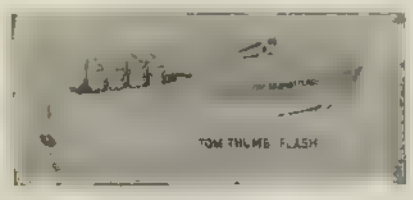
BOATS

MOTOR BOATS

No. 54—"Tom Thumb" Speedster. Size 10 x 2 x 3¾ in. This type of boat is something that has never been tried before. It will run with surprising speed when rubber motor is wound by hand at propeller same as you would wind a toy flying aeroplane. It is a good toy and will run in the bathtub, seashore or pond. Natural color body varnished with green underbody, wood steering wheel, colored pennant on mast. Each.....$0 50



No. 55—"Tom Thumb" Coast Guard. Size 11¾ x 3⅛ x 4½ in. Same as No. 56 but with gun that will turn, motor boat cabin with brass portholes. Color, black cabin, black gun. Colors, gray and red body and finished in varnish. Packed each in box. Each $1.00

A perfect reproduction of a costly modern speed boat, made of California Redwood, perfectly matched and constructed so that it will endure hard usage. The hull is finished in natural mahogany topsides and sea green underbody. The interior of the hull is finished with as much care as the exterior. Equipped with a guaranteed motor that winds up as you would crank a real marine engine. The deck is fitted with searchlights, coamings, pennants, etc. Special mechanical motor. The Flying Yankee Speed Boats are propelled by special spring motor designed and built for these models and is far superior to the usual toy spring unit. It is designed to give a thousand revolutions to a two-inch propeller. The motor is enclosed in a steel case which is finished to appear like a real marine engine. Will run about 300 feet in still water.

No. 65—Flying Yankee, 19 inches long. Finished in natural topsides and red underbody. Equipped with guaranteed motor. Each $3.25
No. 68. Size, 22 inches.....Each 4.50
No. 73. Size, 27 inches..... Each 7.50

No. 575—Miss America. Built along the lines of a real speed boat, fitted with bright brass spray-hood, capstan, propeller, steering wheel and positive-acting rudder. Driven by a powerful, encased motor. The boat is guaranteed non-sinkable. 14½ in. in length. Each $5.00

SAIL BOATS

No. 144—"Shark," 18 in. Sloop. Size 18 in long x 23½ in high. As illustrated above. Red or green underbody. Natural topsides and deck. Leaded steel keel. Sails made from good quality cloth. Brass fittings. Packed each in box with wood stand. Each $2.50

No. 163—"Defender," 30 in. Hollow Thin Shell. Full hollowed hull of large size. 30 in long. Stands 48 in high. Natural deck, black topsides, with sheer stripe, green underbody. Varnished spars. Rigged with cross tree and side stays, Marconi fashion. Fitted with automatic rudder. Packed each in a Mullin Test Shipping Carton complete with stand. Each..... $7.50

No. 125—"Challenger," 18-inch Sloop. Size 18 in long x 22 in high. Unusual value. Leaded keel. Blue underbody. Natural topsides and deck. Mast lashed on boom. Packed each in a box with wood stand. Each...$1.00

No. 123—"Commander," 16-inch Sloop. Size 16 in long by 13½ in. high. Guaranteed to sail. Red underbody with natural deck and topsides. Brass deck fittings. Good quality cloth. Will stand by itself on any flat surface. Steel keel. Each.....$0.50

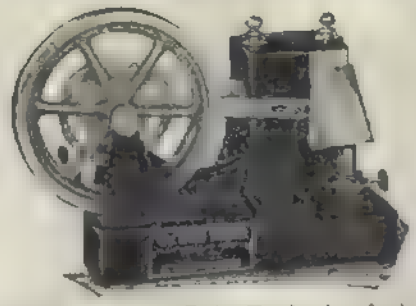
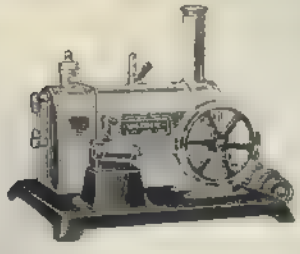
ENGINES AND ACCESSORIES

The ROTOR
Successor to the Motor



No. 1½—Vacuum Rotor Engine is a device for producing power from the pressure of the atmosphere. It acts just like a gasoline engine, but without any of the accompanying dangers. Its power is not produced through high pressure or explosion and there is no danger of either fire or shock. It is much safer than a steam engine, a gasoline engine or even an electric motor; the safest power toy that has ever been hitherto manufactured. The power is produced by the air that you breathe into your lungs, when acted upon by a tiny flame from a small alcohol burner such as is used for melting sealing wax. Size, height, 6½ inches; width, 4½ inches; length, 9¼ inches. Weight, 7¼ pounds. Horse-power, 160; ½ oz. alcohol lasts 1 hour. Each $6.00



No. 666—Engine. Electrically heated reversible. Height 3½ inches. Base 9 x 7½ inches. Wheel diameter 3½ inches. Boiler, firebox, balance wheel, uprights, pulley steam pipe and boiler fittings finished in highly polished nickel. Base is steel finished in bright red enamel. A lever on the steam chest allows the cylinder to be thrown in neutral, forward or reverse motions. The cylinder is of the double action type. All engines are thoroughly tested and securely packed. All the parts are interchangeable and full directions for running will be found in each box. Each..... $6.00

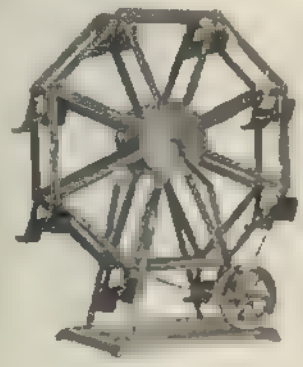
No. B-36—Windmill Pump. This interesting and attractive accessory toy, for use with Empire Engines, not only looks and runs like a windmill, but it actually pumps water—lots of it—and in a continuous stream. Fill the trough with water—hook the Windmill up to any Empire Engine, either direct or through the variable speed unit—prime the pump as is done on the farm—and the windmill will pump continuously, if desired, from morning till night. Highly fascinating in operation and appearance. Heavy base and wheel finished in bright red duco. Tower and all running parts nickel plated. Size, 7 x 8 x 24. Unit weight, 4½ lbs. Standard package, 3. Weight, 16 lbs. Each $5.00

SHAFTING

No. 1. Base 6⅜ x 3⅛ inches, height 2⅛ inches. Adapted to four changes of speed. Finished in enamel and colors. Each $0.25

No. 2. Base 10¼ x 3 inches, height 3 inches. Five speeds. Largest pulley of five, 2½ inches in diameter. Finished in enamel and colors. Each $0.50

No. B-34—Variable Speed Unit. The variable speed unit adds a big, new thrill to operating engines. For with this unit any model Empire Engine has sufficient power to drive a ten or twelve inch wheel from a separate driving pulley. Any desired speed, large or small, is instantly obtainable. Boys will have interest in such a set up when practically all of the parts are furnished in the things which they can do long after the novelty of the ferris wheel itself has diminished. The Empire Variable Speed Unit is sturdily constructed with a heavy red duco base. All running parts are nickel plated. Size, 5½ x 3 x 4. Unit weight, 2½ lbs. Standard package, 8. Weight, 17 lbs. Each $2.50



Ferris Wheel—B-37. One of the most fascinating rides in an amusement park for most boys is the ferris wheel, which carries them high above the laughing, jostling crowds below. It's a big thrill and a real test of nerve. Now these boys can have the power in little model, which looks and runs just like a big ferris wheel. And it's a beauty to look at, with its bright red duco base, carriages and wheel. Nickel plated running parts. Size 6 x 14 x 15. Unit weight 4½ lbs. Standard package 4. Shipping weight 21 lbs. Each $3.75

No. 80. Windmill Attachment is 6½ inches high; base, 3¾ inches in diameter, spread of arms, 6 inches. Each $0.75

ARKITOY WOOD CONSTRUCTION SETS

"HUNDREDS OF TOYS IN ONE"

This is an instructive model-building toy. Materials finished in red and green lacquer.

No. 5—Arkitoy Set. This big, de luxe set, put up in a strong wooden box attractively finished, with five-color label. Has great construction range. Truly a "magic box filled with toys without number." One of the finest packages ever offered the toy trade. Packed 2 to the case, shipping weight, 30 lbs. Each, $7.50

No. 4—Arkitoy Set. The ideal set for older children or where there is more than one child in the family. Contains more material than the No. 2 and No. 3 sets combined. Builds all sorts of practical, realistic models. Packed 4 to the case. Shipping weight, 50 lbs. Each $5.00

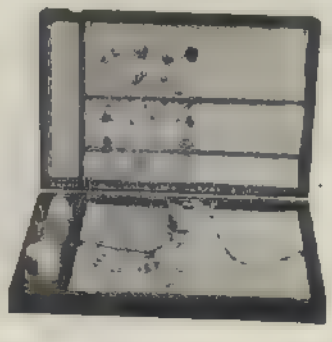
No. 3—Arkitoy Set. Contains almost twice as much material as the No. 2 set, with 2 nickel-plated wrench screw-drivers and a large Plan Book illustrating great variety of models that may be built. Packed 6 to the case. Shipping weight, 26 lbs. Each $3.50

No. 2—Arkitoy Set. Contains twice as much material as the No. 1 set. Packed 12 to the case. Shipping weight, 44 lbs. Each $2.00

No. 1—Arkitoy Set. Contains liberal supply of cut-to-size, lacquered materials, with rustproof bolts, nickel-plated tool, and illustrated Plan Book for building many models. Each $1.00

KNAPP TOYS AND ESKIMO MOTORS

ELECTRIC QUESTIONER

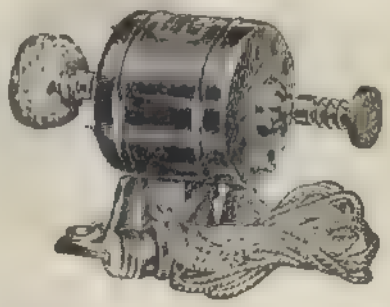


No. 325—Knapp Electric Questioner. The 1931 Electric Questioner contains a new set of cards in full colors, 8 in all, containing such subjects as Life of the Eskimo, History of Aviation, Wonders of the World, etc. Place a terminal on any contact point representing a question. Move the other terminal up and down through the answers. When you strike the proper contact there is a loud buzz—and your answer. Conundrums, jokes, quotations, wise sayings, geographic and historical information—and blank cards, too, on which you can prepare special answers for any occasion. The Questioner contains a telegraph key and a complete set of codes is furnished free. Complete with battery. Each.... $3.50

Tell Bell

No. 399—The Tell Bell. No game like the Tell Bell has ever been even imagined before. It is utterly unique and different. By sliding three rods back and forth the Tell Bell can do unbelievable things. It tells Fortunes, teaches addition, subtraction, multiplication and division, does problems, teaches reading, spelling and sentence building. For younger children than those at the Questioner age, it provides a fascinating and stimulating means of teaching and training the mind. Operates on battery, no electric connections. Complete with set of 12 cards in full color, battery and bell. Each $3.50

Eskimo Utility Motor

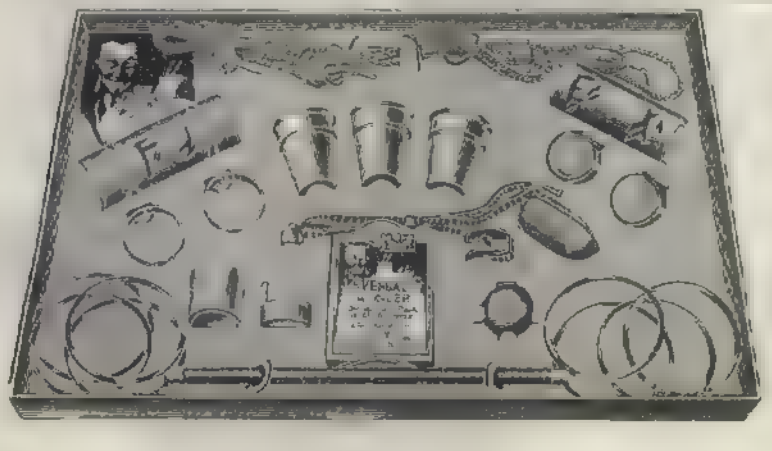


Equipped with the high class Eskimo Motor, this device enables the boy or girl to polish, sharpen, grind, or by attaching pulleys, operate any of the many mechanical toys which are designed to run by either steam or electricity. It comes equipped with polisher, grinding wheel and belt, and grooves to take care of several pulleys. The motor is mounted on a sturdy, solid foundation and is 5 inches high and 3 inches wide, including pulleys. The toy is equipped with 7 feet of cord and light socket plug with on and off switch located in the base. It operates on 110 volts A. C. or D. C. Complete with attachments. Each $7.00

MASTER MAGIC SETS

No. 1—This set contains tricks which form the basis of the magician's art—optical illusions, mechanical and sleight of hand. Many of these tricks have never before been included in popular priced sets. Contents as follows: Guess-Where, Magic Pencils, Aladdin's Matches, The Disappearing Coin, Card to Match Box, Chinese Safety Pin, Changing Card, The Vanisher and Secrets of Master Magic (Instruction Book). Each set..... $0.50

No. 2—This set is more advanced than No. 1 and besides containing the Master Deck of Cards and truly a Master Deck with which it is possible to do 30 different tricks; it also includes many tricks of famous stage magicians, never before exposed. Each $1.75



No. 3—A still more advanced set, balanced in illusions—but no more skill required than with the smaller sets. The finest collection of tricks ever assembled in a popular priced set, including the world's famous Svengali Deck of Cards, the dream of all magicians. Each .. $2.50

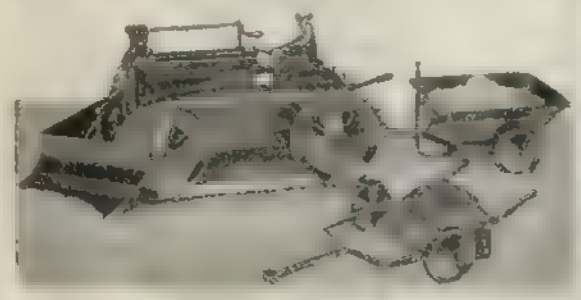
Krazy-Ikes No. 2 is purely a constructional toy. Soldiers, acrobats, humpty-dumpties, giraffes, monkeys, donkeys, boxers, etc.—all these can be made easily with Krazy-Ikes. The set consists of 88 pieces of polished birch, painted in bright colors—red, yellow and blue. These pieces fit together like clothes-pins in making any desired figure. Each..$1.00

Krazy-Ikes No. 1. New small size. Each $0.50

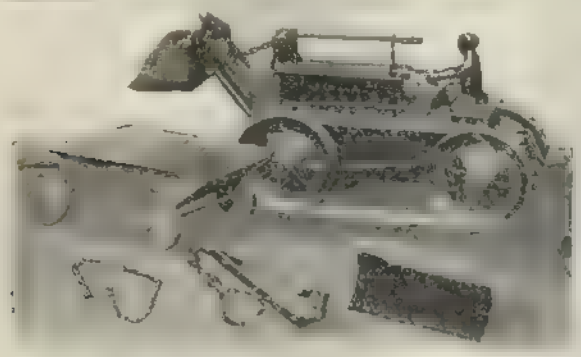
No. 3—Krazy-Ikes Circus. Contains 136 parts—plus full color circus background for the child to cut out and set up. Each $2.50

ANIMATE TOYS

Sweeper Set—To the **Animate Climbing Tractor** is attached a beautiful whirling brush. Driven by the powerful Tractor, the brush spins rapidly and sweeps all before it. Made of genuine bristle and easily attached or detached. A **Roller** or a **Dump Cart** may be used with this outfit. In wooden box. Weight [illegible] lbs. Each $2.00



Snow Plow Set—The **Animate Climbing Tractor** with a big **Snow Plow** attached, will clear a smooth path through drifts of snow, sand or saw-dust. The plow can be raised lowered or detached in a jiffy. A cute **Scoop**, scoops up the snow and heaps it in a pile. A **Dump Cart** carries the load away. Weight, 2¾ lbs. Each $2.00



Loader Set — The **Animate Climbing Tractor** is equipped with elevating arms. To a plate on the front of the arms, three different tools may be fastened by a simple slide. There are no bolts or nuts to lose. A **Bulldozer-Scraper** pushes dirt or sand into a pile. The scraper is then removed and a shovel inserted. The Shovel is raised or lowered and automatically dumps. A **Derrick** with a **chain, grab-hook** and **tongs** will lift all sorts of things. A big **Dump Cart Trailer** is included. Each.. $2.00

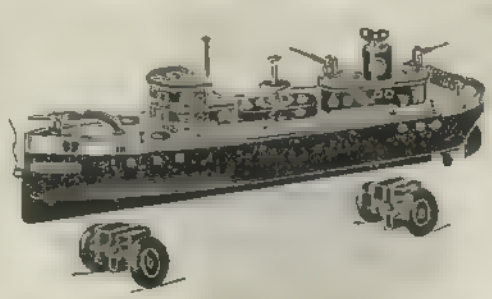
LIBERTY MECHANICAL TOY BOATS AND SEAPLANES

AMERICA'S FASTEST-SELLING BOAT LINE — AND WHY

1. Solid Wood Hull. Non-crushable, unsinkable, sturdy and substantial.
2. Powerful Motor. Steel and brass construction; guaranteed against defects.
3. Detachable Wheels. Make boats quickly convertible into a land or water toy.
4. Snappy Colors. New bright color combinations, contrasting water lines.
5. Novel Play Features. Action devices make them more than boats—they're real playthings.
6. Faithful Realism. True-to-life miniatures in appearance and performance.
7. Modern Appeal. Liberty Playboats capitalize the present-day interest in boat and aircraft development.
8. High Quality. Fairy Prince finish—find this out of the most attractive features of Liberty Playboats.
9. Well Advertised. Nationally featured. Liberty Playboats—are the pride. Things well known are easily sold.
10. Year Round Sales. Equally adaptable for indoor and outdoor play. Liberty Playboats assure all-season sales through all-season usefulness.

No. 60—LIBERTY Airplane Carrier. Modelled after the Navy Airplane Carriers. This husky boat has a catapult device on the forward deck that throws vari-colored balsa wood planes into the air to a distance of 40 to 50 feet. Four planes held ready on the deck. A remarkably faithful model of the ocean-going plane carriers, with two powerful motors and twin propellers to give it range and speed. Battleship grey, green waterline. 27 inches long. Each **$12.00**



No. 70—LIBERTY Fireboat. This business looking fire-boat has a pumping device which throws a big stream of water for 30 feet or more. Length 32 inches. Each..... **$7.50**

No. 24—LIBERTY Junior Seaplane. A real hydroplane craft powered with a motor which drives it through the water by its big air propeller. Navy factor rudder, tail and rudder, new brass decorations to trim. Length, 15 inches. Each **$3.50**

No. 22—LIBERTY Twin-Motored Seaplane. Same general description as No. 24 with twin motor, extra trim, and 2 men. Length, 20 inches. Each **$5.00**

No. 80—LIBERTY Destroyer. A perfect replica of Uncle Sam's Destroyers. 25 inches long. This miniature "watch dog of the seas" has long, low rakish lines, revolving gun turrets, three funnels, vibrating great speed. Clever action device shoots water torpedoes 20 feet through tube in bow. Battleship grey with red waterline. Each **$10.00**

No. 30—LIBERTY Cabin Cruiser. A modern design of cabin cruisers. Solid redwood hull 16 inches long, natural finish with real brass trim and bright colored canopy. Each..... **$3.50**

No. 40—LIBERTY Motor Tug and Scow. This sturdy little tug will haul its load of sand or stone. Tug has regular Liberty motor. Each piece 12 inches long. Each..... **$4.00**

No. 02—Liberty Pull Tug and Scow. Pulls easily across floor or sands beach. Will also float on water. Each piece 9 inches long. Each **$1.25**

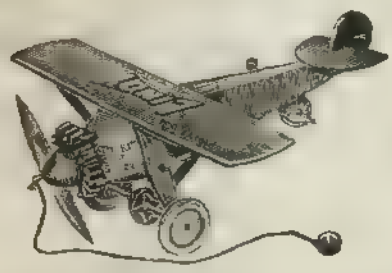
No. N126—Educational Letters. Lacquered. Complete alphabet. Letters, ⅝ x 1⅞ inches. Box 9⅝ x 5¾ x 7⁄16 inches. Each $0.50

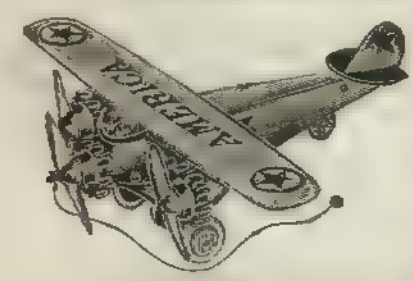
No. 26—Educational Letters. Plain. Complete alphabet. Letters, ½ x 2½ inches. Box 13⅛ x 7⅞ x ⅝ inches. Each $0.50

AEROPLANE TOYS

PULL TOY AEROPLANES



No. 7—Lindy Aeroplane. An exact copy of the single-motor Ryan plane that "Lindy" used. The propeller revolves and the exhaust coughs. Made of aluminum and cast iron, fitted with rubber tires and pulled by a string. It is 12 inches long, 13½ inches wide, 4½ inches high. Each $2.50



No. 8—The "America." A duplicate of Byrd's Tri-motor Fokker plane with its three revolving propellers Rubber tires—coughing exhaust—attractively colored, pulled by a string. Size, 14 inches long, 17 inches wide, 5½ inches high. Each..... $5.00

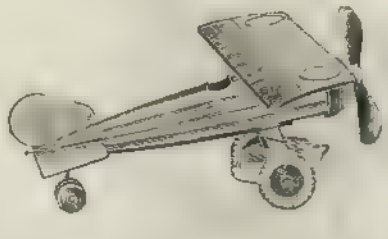
No. 803—Whirling Monoplane. A mammoth monoplane with 4 blade colored propeller which revolves and rings bell as it "taxis" along. Length 20½ inches. Each.....$2.50

No. 675—Flying Boat. A model with special speed lines, patterned after those now in use on many air transportation lines. This plane is of cabin type with overhead pusher type "motor" quite in keeping with the most up-to-date air travelers now in use. Plane rides on three wheels and presents a neat appearance when "taking off" your toy counter or the playroom floor. The windows in the bow and along the hull, the wings and rudder all are very similar in outline to the large flying boat after which this Kenton-Toy is modeled. Propeller turns in convincing fashion. Model 675 is of cast iron attractively finished in assorted colors. Length, 9½ in.; width, 9¼ in. Each..... $1.00

MECHANICAL AEROPLANES AND ZEPPELINS

No. 766—Taxiplane. A Biplane very similar in design to the planes in the Mail Service. The government is urging more frequent use of the air mail. This is a constant reminder in the home of this wonderful new service. Length, 15 inches with wing spread of 12 inches. Equipped with motor and rubber tires. Each $1.00

MONOPLANE



No. 710—Monoplane. With standard clock spring motor. Plane runs in circles "banking" realistically, with propeller spinning. Wheels may also be set to taxi straight along the floor. Each $0.50

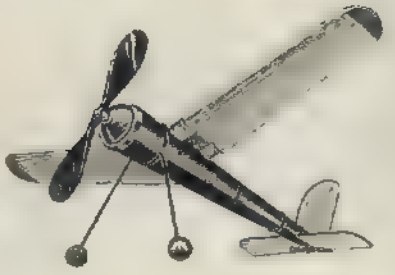
No. 125—Los Angeles Zeppelin, with realistic action, spinning propellers and a mechanical motor. A wonderful floor toy. Put out spiral rod and let go. 25 inches long, 5½ in diameter. Each $1.25

No. 870—Zeppelin. A life-like model 21 inches long with smooth gold finish. Four propellers spin as powerful motor drives it along the floor, straight or in circles. A twist of the front lug converts it into a pull toy. Each.....$2.00

AEROPLANES THAT WILL FLY

No. 600—Liberty Airport. A true-to-life hangar, mounted on a substantial metal base, size 8½ x 11½ inches. On the roof is an ingeniously devised catapult, which projects the gaily colored gliders into space for a distance of 30 to 50 feet. Weight per doz. 33 lbs.
Each $1.00

No. 605—Glider Assortment. To be used as extra gliders for Liberty Airport or Liberty Airplane. Five Gliders to box. Per box....$0.50



No. 185—Rocket Glider. A new and sensational model with automatic folding wings which open at about 150 feet in the air. Propelled vertically with rubber sling. Wing spread 27 inches
Each $0.25

KINGSBURY "SILVER ARROW"

All Model SILVER ARROW Planes will take off under their own power and fly 150 to 300 feet.

Lockheed Vega Flying Model. An assembled all Balsa wood Flying Airplane resembling the famous Lockheed-Vega with a molded stream line balsa fuselage, special non breakable celluloid propeller

No. 700. Wing spread 13 inches, length 9½ inches. Power thread rubber.
Each $0.25

No. 710. Wing spread 18 inches, length 9½ inches. Power thread rubber.
Each $0.50

No. 720. Same specifications as shown for No. 710 with added reinforced nose piece. Each $1.00

No. 21

No. 21 — Silver Arrow. (Cabin Model.) A beautiful model plane with all metal body and propeller, and wings of selected Balsa. Wings are bright gold with attractive red decorations. Body is gleaming silver. Patented features enable us to pack this plane completely assembled ready to fly the minute it is taken from the box. Length, 17 inches. Wing spread, 22 inches. Approximate weight, 2½ oz. Each $2.00

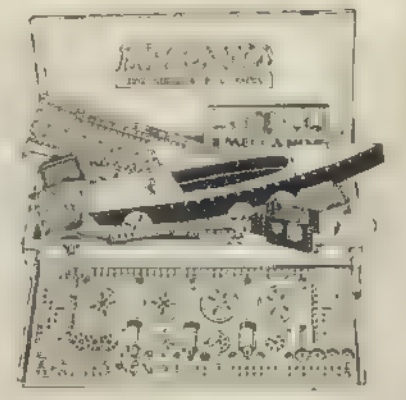
No. 1

No. 1—Silver Arrow. (Racing Type.) Made of selected Grade A Balsa Wood and braced throughout with aluminum. Propeller is of aluminum. The Plane is finished in bright silver bronze and decorated. Packed one in a box and completely assembled except for slipping the wings into place. Length, 18 inches. Wing spread, 18 inches. Approximate weight, 1½ oz. Each $1.00

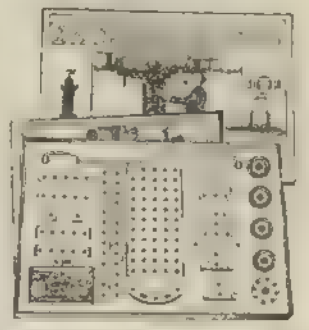
No. 2—Silver Arrow. Same general description as above but larger size Length, 25 inches. Wing spread, 24 inches. Approximate weight, 2½ oz. Each $1.50

CONSTRUCTION OUTFITS MECCANO BUILDING BLOCKS

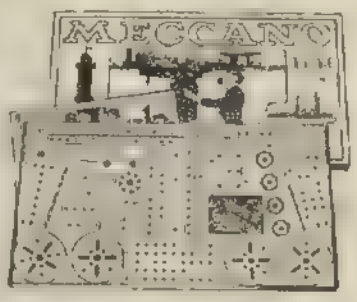
No. 110—Big Motor Car Outfit. Builds large trucks, Speedy Racing Cars, Snappy Roadsters and hundreds of other fascinating models. Packed in an attractive wooden box with model building tray. Size 8¾ in. x 4½ in. x 2¾ in. 4 to carton, 46 lbs. Each.....$9.95



No. 115—Ship Building Outfit that builds the boats that float and run under their own power. This is the outstanding construction outfit of them all. Unique and different, a leader that everyone should buy. Has hull, deck, mast, rudder, in fact, all the necessary ship building parts. Packed in beautiful green chest with model building tray. Size 10⅝ in. x 5½ in. x 25½ in. Individually packed, 17 lbs. Each $14.95

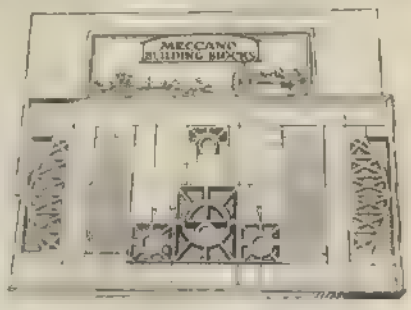


No. 1—Apprentice Outfit. There has been a genuine demand for an outfit to retail for $1.00 and here it is. Size 13⅝ in. x 8¾ in. x ⅝ in. 12 to carton, 30 lbs. Each $0.95



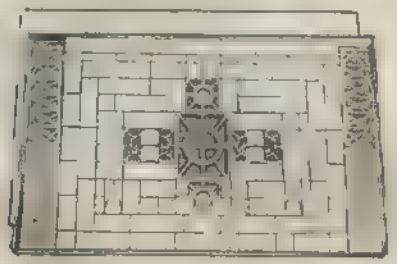
No. 3—Junior Engineer's Outfit. Contains Steel Wheels, Patented Meccano Braced Beams, Perforated Plates and Trunnions. Size 18 in. x 10 in. x 11/16 in. 12 to carton, 40 lbs. Each.....$2.75

No. 5—Meccano Super Power Outfit. Builds over 300 models with the new Meccano patented super Power Unit (combination powerful electric 6-8 volt Battery Motor and gear box attached). This new Electric Battery Motor in this Outfit can be used as contained in the No. 5 Meccano or you may remove the side plates and use the Motor alone for models which require less space for the motor. Contains large gears, pinions and worm gear. Many colored parts, baked enamel with a very hard surface, make very fine attractive motorized models. For the more advanced Model Builder, but not complicated for "You just count the holes." Packed with complete large Manual of Instructions. Size 18 in. x 10 in. x 2½ in. 6 in carton, 28 lbs. Each $4.95



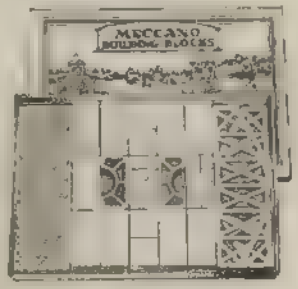
No. 205—Packed 6 to carton. Carton weight 32 lbs. Size 10 in. x 18 in. x 1¼ in. Each $4.95

MECCANO BUILDING BLOCKS—Made of a special composition, molded under tremendous hydraulic pressure. Although they have the appearance of stone they are very much lighter in weight, waterproof, brilliant non-fading colors. Very hard. Practically unbreakable. Genuine architectural building and designs such as houses, churches, schools, monuments and bridges can be built quickly. Realistic and scientifically planned to give the shapes needed to build the interesting buildings pictured in the Instruction Book. Many others can be invented. It is simplicity itself. No intricate connections necessary.



No. 203—Packed 12 to carton. Carton weight 38 lbs. Size 8⅝ in. x 12⅝ in. x 1 in. Each $2.95

No. 210—Packed 6 to carton. Carton weight 58 lbs. Size 13⅛ in. x 20⅛ in. x 1⅝ in. Each.....$9.95



No. 201—Packed 12 to carton. Carton weight 23 lbs. Size 6⅝ in. x 9⅛ in. x 1 in. Each $1.25

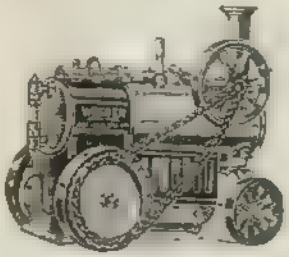
WEEDEN STEAM ENGINES

OSCILLATING TYPE

Guaranteed by the Manufacturer as to workmanship. Each engine is carefully tested before it leaves the factory with live steam and adjusted to run. All are Doubly Safe. The safety valve on each engine is fool proof and the valve parts are so arranged that they act as an emergency outlet should the safety valve fail to work. The lamps are all constructed without solder and cannot be filled without removing the wick. The fuel is denatured alcohol. So simple anyone can set up and run. Full directions with each engine.



Steam Tractor

No. 645—Steam Tractor, polished brass boiler of gun metal finish; a balance wheel with nickel face; well-fitted water glass; nickel-plated whistle and brass safety valve. Chain drive of brass and cylinder of the oscillating type. Size, 7½ x 3¾ x 7¼ inches. Price, each.....$6.00

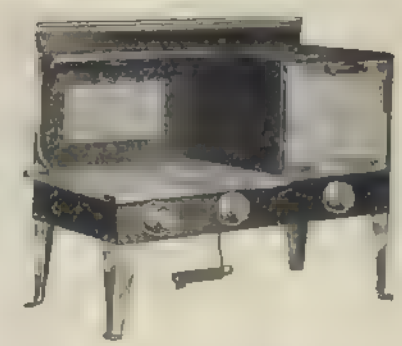
EMPIRE ELECTRIC STOVES AND ENGINES

No. B24—Miniature Electric Range. A low-priced range that cooks and bakes in a satisfactory manner. Bright colors give the stove an attractive, up-to-date appearance. The legs, door frame and rounded strip across the top are nickel plated. Equipped with three aluminum cooking utensils. Finished in black with colored panels. Size 6¾ x 10¾ x 14 inches. Each $5.00

No. B22. Steel Body Range attractively finished in grey, green and cream, with polished top plate, door and legs. Same size as B24. Cord, plug and 3 utensils. Each $3.75



B25. A miniature Electric Range for practical kitchenette use. Cooks as efficiently as any large range. Two surface units and oven, each controlled by a separate switch. Thermometer in oven door. Four aluminum utensils included with each range. Standard package 1. Size 21½ x 16¾ x 9¾. Each $20.00

B26. Here is a miniature Electric Range which will make any girl happy. It comes complete with four miniature aluminum cooking utensils and connects to any lighting socket or wall plug. Can be used for actual cooking. Finely finished and highly instructive. Size 10¾ x 6¾ x 16¼. Standard package 3. Each $7.50

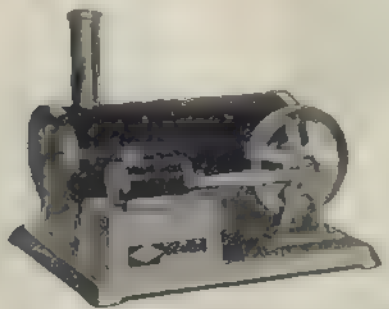
No. B23—Miniature Electric Range. This is one of the newest additions to the famous Empire line—and one of the most attractive ranges ever built. It cooks as efficiently as a large stove. Has two heavily constructed side ovens for baking and two separately controlled heating elements. Entire front, trimmings and stove top, heavily nickel plated. Three cooking utensils. Furnished in colors or black with colored panels. Size, 15 x 7⅛ x 15. Each $15.00

No. B21—Miniature Electric Range. This smallest Empire Miniature Electric Range has an oven for baking and a shelf for cooking. Provides plenty of heat to boil water and do many types of cooking. The stove is sturdily constructed and attractively finished—in colors—with curved legs. Furnished with three cooking utensils. Size, 9 x 7¾ x 4½. Each $2.50

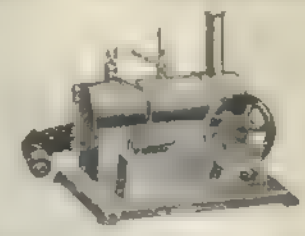
No. B20—Miniature Electric Range. 9 x 8 x 5 inches. Sturdily constructed, finished in black lacquer with nickel trim. 3 cooking utensils. Each $1.75

No. B18. Same size as B20. Green and ivory finish. 3 cooking utensils. Each $1.50

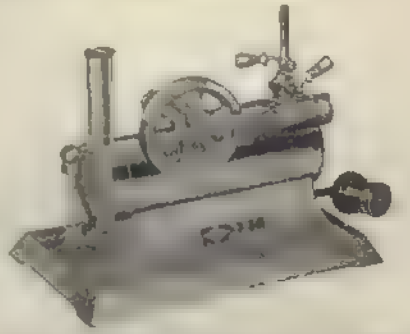
No. B27—Miniature Electric Range. Cooks and bakes like a big stove. This range has two heavily constructed side ovens, with a specially designed heating element, to give an even temperature in both. Highly nickel plated cooking top, shelf, legs and door frames. Three aluminum cooking utensils. Furnished in colors or black with colored panels. Connects to lighting socket or wall plug. 15 x 7¼ x 15. Standard package 3. Each $10.00



B32. Something entirely new in model engine design. Looks and runs like a steam engine, but operates entirely from one ordinary dry cell battery which fits inside the boiler. Finished in red and black with nickel-plated trimmings. A safe and instructive toy which will make any boy's heart fairly dance with joy. Standard package 6. Each $4.50



Double Action Engine—B43. This Empire is designed for the boy who wants a steam engine that can develop unusual power. With the special cylinder design power is applied on both the outward and return stroke of the piston. Even at slow speeds, the engine runs smoothly and powerfully. Equipped with electric heating unit, throttle, steam whistle, water gauge, seamless drawn copper boiler, brass running parts and steel connections. Watts, 300; size, 8 x 6¾ x 7; unit of weight, 3¾ lbs.; standard package, 6; shipping weight, 25½ lbs. Each $7.50



B30. A real steam engine with whistle, safety valve, water gauge and with throttle. Electric heating element creates the steam and eliminates the fire hazard entirely. Finished in bright red with nickel trimmings. Operates from the lighting socket or wall plug. Standard package 3. Each $10.00

B31. This model is exactly like the horizontal in the power developed and in the equipment. The only difference is found in the vertical construction. The miniature model of the high-powered vertical steam engine for the boy who prefers this type. Standard package 3. Each $10.00

NOTE—In ordering spring for sizes 10 to 24 in., specify whether front or back spring.

RIGID SUPER WRENCHES

Works in close quarters where regular wrench cannot—on concealed piping, close under floors, against walls, or in narrow trenches. Short handle and short turning movement allow this.

The Super-Six wrench with ⅛ to 6 in. pipe capacity consists of a trunnion with teeth and chain grip, and a housing connected to a special handle no longer than a regular 36 in. pipe wrench. Trunnions and wrench are separate. Trunnion fastens on pipe, jaw of wrench is placed on fitting or pipe, and hole in handle slips on trunnion, and wrench is ready to go to work. The Super-Six uses standard rigid 48 in. wrench parts.

SUPER-FOUR

Same construction as the Super-Six, except a smaller size. Has a pipe capacity of ¼ to 4½ in. Uses standard rigid 36 in. wrench parts.

No. S-4 ..... Each $27.00

SUPER-SIX

Gives ten times the leverage of a 48 in. pipe wrench and is much easier to handle. One man can tighten 6 in. pipe without help. He can loosen rusted joints that defy 3 or 4 men with a 48 in. wrench and 8 ft. of pipe on the handle.

No. S-6 ..... Each $25.00

Packed as Ordered

RIGID PIPE

Only three working parts. Malleable one piece I beam handle and jaw housing, hardened tool steel jaws, adjusting nut rides free in open housing, allowing an easy and quick adjustment.

P. Fontaine (Paris) Clarinets

Can't Check! Can't Crack! A Life-Time of Service!

Keen Intonation
Super Tone

Built in Low Pitch
(A-440) Only

Here is the Metal Clarinet, developed to its highest point of tonal and mechanical excellence. In addition to the practical advantages of the almost indestructible metal construction, you find here also a richness of tone and accuracy of intonation that stamp these clarinets as fit for exacting professional use. Fontaine Clarinets are built in standard Albert and Boehm systems. The bodies are hard, toughened nickel-silver, polished finish. The keys are also nickel silver forged and polished. Fontaine Clarinets have always been famous for their dependable action, and these new Metal Clarinets continue the Fontaine standard of faultless workmanship. These clarinets are offered in either plain polished or in quadruple silver plate with burnished key work. The price of each instrument includes a de luxe case.

The P. Fontaine Ebonite Clarinet is made of a tested hard rubber composition that looks like polished ebony and which we guarantee not to split, crack or check. This ebonite clarinet is faultless in intonation throughout its scale and the tone is notably rich and mellow. Keys of forged nickel silver, carefully fitted, complete with mouthpiece, reed, reed holder and cap, in neat case.

USALITE Registered Electric Clocks

Usalite clocks always tell the exact time, never require winding and while in operation no sound of ticking is audible. Their beauty is permanent with durability and satisfying performance assured for a lifetime. All clocks when sold are registered and a guarantee certificate is issued by the dealer which protects the purchaser for one year against motor trouble or defects in material. The manufacturer assumes full responsibility for these clocks during the guarantee period and will make all replacements and repairs needed to restore the clock to perfect running order, the customer being required to pay the transportation charges only. Cases are made from Duralloy metal, a new composition now being used in the construction of fine metal art objects. This material is chip and crack resisting, will endure for years, retaining unaffected its fine, firm texture and lustre. Clocks are equipped with extension cord and plug. Arranged for alternating current of 105 to 125 volts, 60 cycles.

USALITE — The Registered Electric Clock

Made of Heavy Duralloy Metal

The Hampton Model with Alarm

Made from heavy sculptor's Duralloy metal having smooth dignified symmetrical lines. A touch of the modern is introduced in the steps at the base, and in the geometrical forms with which the surface is relieved. It stands 5¾ in. high, 6⅜ in. wide and 2¾ in. deep Finished in old gold and old ivory. Equipped with alarm.

No. 705. Usalite Electric Clock. List price, $4.95. Each, 2.97, less 2%. Net . **2.91**

The Atlas Model

An artistically rendered replica of the original classic statue of Atlas, made of heavy sculptor's Duralloy-Metal. Appropriate in any room, particularly suited to the den or library. Height 9⅜ in., width 4¾ in. and depth of 4¼ in. Finished in bronze jade

No. 700. Usalite Electric Clock. List price, $7.95. Each, 4.77, less 2%. Net... **4.67**

Modernistic Model

Strikingly effective in its modernistic tendencies and representing the artistic traffic towers now in current use in metropolitan centers of the country. Made of heavy sculptor's Duralloy metal. Stands 9 in. high, is 5 in. wide and 3½ in. deep. Get your profits now selling this fine clock. Finished in silver and ebony.

No. 704. Usalite Electric Clock. List price, $6.75. Each, 4.05, less 2%. Net... **3.96**

Made in the Modernistic Designs

USALITE — The Registered Electric Clock

Sunsprite Mantel Model

A particularly desirable model, combining those artistic qualities with utility, that meets a universal demand. The clock is made from heavy sculptor's Duralloy metal and measures 8⅜ in. high, 15⅜ in. wide and a depth of 4½ in. Operates on 110-120 volts alternating current of 60 cycles. Finished in moss bronze.

UNIVERSAL

The Electric Ware Beautiful

Chromium Plate
Blue Diamond Finish

The graceful dignity of these UNIVERSAL Urn Sets is enhanced by their unexcelled electrical efficiency which places them among the most cherished table appointments.

Safety fuse
Cold Water Pump
Pure Tin lined.
Push button switch in
art silk connecting cord.

Chromium Plate furnishes a hard surface that will not tarnish or corrode; it requires no polishing and an occasional wiping with a soft cloth will keep it bright and attractive indefinitely. The distinction of these Chromium Plate Patterns lies not only in the beautiful designs but in the brilliant Blue Diamond Finish

FONTAINE PATTERN
ELECTRIC COFFEE PERCOLATING URN SET

The stately beauty of the Set with its sweeping handles and tasteful ornamentation, the latest creation of Universal Master Metalsmiths, offers an ensemble delightful to behold.

UNIVERSAL

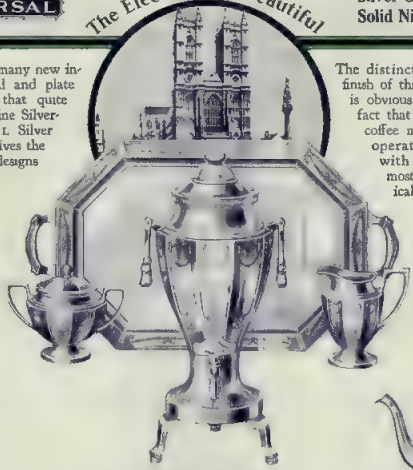
The Electric Ware Beautiful

Silver Overlaid On Solid Nickel Silver

Regardless of the many new inventions of metal and plate there is nothing that quite equals in beauty fine Silverware. UNIVERSAL Silver Overlaid plate revives the artistic chased designs of earlier days.

The distinction in design and finish of this UNIVERSAL ware is obvious. Add to that the fact that these are practical coffee makers. Quick to operate and equipped with safety fuse and most efficient mechanical construction.

Safety fuse
Cold Water Pump.
Silver Lined.



WESTMINSTER PATTERN
ELECTRIC COFFEE PERCOLATING URN SET

CINÉ-KODAK....Simplest of Home Movie Cameras

CINÉ-KODAK, MODEL BB

CINÉ-KODAK, MODEL K

ANYONE can now make splendid home movies, by using a Cine-Kodak. It is only necessary to sight the subject in the finder and press the lever. It's actually as simple as making snapshots, yet the living action before the lens is being recorded for all time on a thin strip of film. Eastman laboratories process the film without cost other than the original price of the film itself and the pictures are ready to be shown on the home screen by means of one of the dependable Eastman projectors shown on the next page

CINÉ-KODAK, MODEL BB

SMALL, light beautiful Cine-Kodak, Model BB, also has the efficiency, dependability and durability that have made Eastman photographic equipment standard throughout the world. It is fitted with the super-speed, Kodak Anastigmat lens f 1.9. The film capacity is 50 feet. A strong spring motor, easily wound, drives the camera. Other features are a built in exposure guide waist-high and eye-level finders, and a footage indicator. There is a half-speed adjustment for "trick" pictures and to help compensate for poor light. Supplied in blue, gray, brown or black genuine leather finish, with matching carrying case lined in beautiful rayon felt. *Please specify color.* This camera can be used to make not only black and white movies, but also Kodacolor -movies that reproduce all the gorgeous colors of nature.

		Retail	List
No. F99J193.	Cine-Kodak, Model BB, f.1.9, with case to match	$140.00	$238.30

CINÉ-KODAK, MODEL K

ONE of the newest Eastman cameras for home movies. Model K is the latest word in convenience, beauty and proficiency. It is supplied in black, brown, blue or gray. (Please specify color.) Fittings are in brilliant chromium. The matching cases are beautifully proportioned, and lined with rayon felt. An exposure chart is built into the face of the camera. There are two finders, for either waist-height or eye-level use. Model K is available with either the ultra fast f 1.9 lens or the standard f.3.5. Equipped with f. 9 lens and a Kodicolor Filter, Model K makes brilliant, full-color movies as easily as it can make black-and-white. The half-speed adjustment makes movies possible under difficult light conditions, or reproduces action at incredible speed, with laughable results. The camera is spring driven. A footage indicator shows the amount of film unexposed. The film capacity is either 50 or 100 feet

		Retail	List
No. F99J194.	Cine-Kodak, Model K, f.1.9, with case to match	$150.00	$255.32
No. F99J195.	Cine-Kodak, Model K, f.3.5, with case to match	110.00	187.30

CINÉ-KODAK, MODEL M

HERE is another new member of the Cine-Kodak family. It will be appreciated especially because of its simplicity and low price. Model M accommodates either 50 or 100 feet of film. It has an f 6.3 lens which does not permit the making of Kodacolor, but which yields splendid black-and-white movies under all except the most exacting light conditions. With the built in portrait attachment close-ups of subjects are possible at distances as near as two feet. Beyond five feet no focusing whatever is necessary. Like other Cine-Kodaks Model M is spring-motor driven. It has an eye-level, direct view finder tripod socket and exposure guide. It comes with a Kodak-type carrying case. Both camera and case are covered with genuine leather. Model M is supplied in black only.

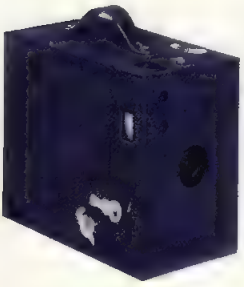
Vest Pocket Hawk-Eye comes in shimmering color combinations of orchid, marsh green, steel blue and rose, as well as black



Nos. 2 and 2A Hawk-Eyes, Model B, come in new, lively tones of blue, green, vermilion and maroon or black if you want it

VEST POCKET HAWK-EYE

No illustration can do justice to the Rainbow Vest Pocket Hawk Eye, it must be seen and handled if its beauty is to be appreciated. The key colors, carried out in shimmering diamylene lacquers, are orchid, marsh green, rose and steel blue. Harmonizing with these are bejeute tints on shutter, bellows and bed. Gleaming nickel fittings and a gold or silver sheen on the body complete an brilliant yet tasteful a color combination as has ever been offered in a camera. The black model is covered with imitation leather. The picture size is 1⅝x2½ inches.

Well made of good materials genuine horsehide cover, stitched with red and blue thread; will stay round and lively.

Per dozen

No. 7—Regulation size; weight per carton 4¾ lbs . $9.00

One in a box; one dozen in a carton.

Cock of the Walk

Constructed of durable materials, strong horsehide cover well stitched with red and green thread; an excellent ball for amateur use.

Per dozen

No. 8—Regulation size, weight per carton 4¾ lbs.....$9.00

One in a box, one dozen in a carton.

Junior League

Constructed of durable materials, genuine horsehide cover, stitched with green and red thread; an excellent lively ball The boys' favorite.

Per dozen

No. 9—Junior size and weight, weight per carton 3½ lbs $6 00

One in a box, one dozen in a carton.

Amateur League

Made of good materials to stand rough use, genuine horsehide leather cover, well stitched with strong red thread.

Per dozen

No. 8A—Full size, weight per carton 3½ lbs. $5.00

One in a box; one dozen in a carton

BASE BALLS

REACH

Scout League

A sturdy constructed ball made to stand hard knocks. Stout genuine horsehide leather cover, well stitched with strong thread.

Per dozen

No. 9B—Boy's size, weight per carton ½ lbs $3.00

One in a box, one dozen in a carton

Bounder

Strong waterproof imitation leather cover, well stitched with heavy thread.

Best boy's ball on the market.

Per dozen

No. 12—Boy's size, weight per carton 3¼ lbs $1.20

One in a box, two dozen in a carton.

PLAYGROUND BALLS

REACH

Official Outdoor

Highest quality kapok center, wound with yarn

Good quality cowhide cover, stitched with white linen thread.

Per dozen

No. P12—12 in. circumference; weight each boxed 9 oz $16.20

One in a box.

FOOT BALL BLADDERS

REACH

Special para rubber with latest improved valve easy to inflate.

Each

No. 15B—For Nos. 4HSF and 5FV $1.25

No. 5SV—For Nos. 5SV and 5SR, weight each 5 oz 1.00

Six in a box

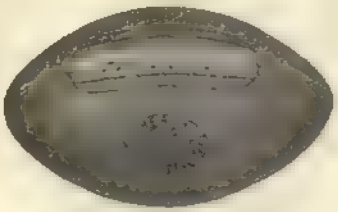
Each

No. 5S—Pure rubber, medium with rubber stem, for Nos. 5SR and 4SR foot balls, weight each 2 oz. $0.50

Twelve in a box.

FOOT BALLS

REACH



Official, Valve Type

Scientifically treated Reach pebble grained tufide leather, each section in every ball is selected.

Especially double woven lining is used which prevents stretching or bulging. With improved type of valve bladder and double laced at factory. Official in every way and conforms exactly with the rules of the game Complete with valve tool, pump connection and lacing needle

Each

No. 05—Weight boxed 1¾ lbs $14.00

High School Tournament

Regulation size, shape and weight; Reach tufide leather, double lined with specially woven fabric which prevents stretching or bulging, and insures permanent shape; with latest type valve bladder and double laced; complete with rawhide lace; lacing needle and valve tools.

Each

No. HSF—Weight boxed 1¾ lbs $10.00

Scholastic

Selected pebble-grained cowhide leather; regulation in weight and measurements. Constructed to stand rough usage, fitted with valve bladder; complete with valve attaching tools, rawhide lace and steel lacing needle

Each

No. 5FV—Weight boxed 1¾ lbs $8.00

School Special

A real full size genuine cowhide ball with double fabric lining which holds ball in shape and prevents stretching. Fitted with valve bladder, no lacing or unlacing necessary. Complete with valve tools, rawhide lace and steel lacing needle

Each

No. 7S—Weight boxed 1¼ lbs $6.00

All above, one in a box.

FOOT BALLS

REACH

Regulation

A full size ball of genuine pebble-grained cowhide leather; canvas lined; with stemless valve type bladder and laced ready for inflation Complete with valve attachment tools, rawhide lacing and steel lacing needle.

Each

No. FGS—Weight boxed 1¾ lbs.. ..... $4.00

Amateur

Regulation size and weight Made of cowhide leather with special pebble finish. Fitted with valve bladder. Complete with valve attachment tools, leather lace and steel lacing needle

Each

No. 5SV—Weight boxed 15 oz... ..... $3.00

Favorite

A regulation ball, made of cowhide leather with special pebble finish; full size extremely durable Complete with pure rubber bladder and lace.

Each

No. 5SR—Weight boxed 11 oz $1.50

Special Youths' Size

Made of cowhide leather with special pebble finish; canvas lined, with pure rubber bladder and thong lace.

Each

No. 4SR—Weight boxed 9 oz..... $1.25

All above, one in a box.

Note—All inflated balls have been inflated, inspected and thoroughly tested before leaving factory. They are of perfect workmanship, free from defects and will not be replaced after being put into play.

ELECTRIC FANS

WAGNER DESK OR WALL

Non-Oscillating Alternating Current, 110 Volts, 60 Cycles, with Switch.

Strong, rigid guards; rust-proof, machine formed steel blades; adjustable hinge permits tilting forward or backward in desk or wall position; square shaped cast iron pedestal; base padded with felt; four blades.

Equipped with 8 ft. cord and unbreakable soft rubber plug; induction type motor

Satin black duco finish.

Each	$15 50	25 50

One in a box.

***Special Finishes**

Special finishes can be furnished, when specified on special orders and are not carried in stock by us or factory.

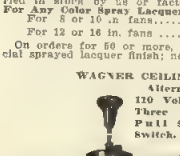
For Any Color Spray Lacquer Finish—

For 8 or 10 in. fans.....Add $3 00 List

For 12 or 16 in. fans ....Add 3.00 List

On orders for 50 or more, fans with special sprayed lacquer finish; no extra charge

WAGNER CEILING



Alternating Current, 110 Volts, 60 Cycles; Three Speeds, with Pull Socket Type Switch.

Exceptionally quiet, dependable and economical in service; carefully designed induction type motor, finished in satin black duco; four wood blades mahogany colored

Ceiling hook, insulated hunger and canopy furnished with each fan

Each

No. 1900—52 in. sweep; weight each 46 lbs. $50 00

One fan, motor hook, hanger and canopy in a box, blades in a separate box.

***Ceiling Fans Arranged for Lights**

Special parts for attaching a lighting unit will be supplied on orders for shipment direct from factory. These special parts consist of globe holder equipped with medium base light socket.

Globe Holder—To hold 4 or 8 in. standard glassware .....Addto List, $1.00

Note—We recommend that the ceiling fan blades be hung at least 9 ft. from floor to secure most effective air distribution.

For ceiling fan hanger pipe, use ¾ in. black japanned iron pipe.

***Direct Current**—The above fans for other voltages and for direct current can be furnished on special order.

ELECTRIC FANS

*WAGNER FURNACE

Alternating Current, 110 Volts, 60 Cycles

Specially mounted for installation in warm air furnaces.

A spiral springs prevent the transmission of vibrations from motor and fan blades to furnace metal sheeting

Stabilizers protruding through center of each spring hold them in proper position and prevent tilting when being sold in position. If a spring should break while fan is in service, stabilizer will support frame work

Guard of heavy steel protects fan blades during handling.

Supporting frame of angle iron, welded together, exceptionally light, yet strong and durable

Standard high quality motor bolted to frame.

One in a carton.

*HUMIDIFIERS

Universal Motor, 110 Volts, A.C. or D.C.

A patented electric motor-driven humidifier; replaces moisture in overheated air.

For use in residences, offices and any artificially heated room when air is dry.

After assembling according to directions, fill with water until float rod is even with handle, plug into electric light socket, turn on switch, then the inverted cone submerged in water and revolving rapidly, draws the water up onto a disc above it which also revolving rapidly and synchronizing with the cone, throws the water outward by centrifugal force against shutter-like vanes by which it is broken up into tiny particles or spray that are propelled by the revolving disc and rising as a fog it is absorbed by the atmosphere.

Beautifully finished in a rich green

Equipped with cord switch, plug cap and automatic speed control. Operated from any ordinary lamp socket.

Takes care of 7500 cu. ft. of air

Each

No. B185—De Luxe pedestal model, with humidity control, automatically measures moisture content of room at all times and switches humidifier on and off without attention, height 37¾ in.; weight each 35¾ lbs. ..$75 00

No. B184—De Luxe pedestal model, without humidity control, otherwise the same as No. B185, weight each 34¾ lbs. 49.50

No. B182—Standard table model; similar to No. B184, but has no pedestal; height 23¾ in.; weight each 11 lbs. $4.95

One in a carton.

ELECTRIC FANS

AUTOMOBILE JACKS

No. 625—PRESSED STEEL

Made entirely of pressed steel with broad skid base. Substantial, well reinforced throughout. Just the jack for used car equipment. Black enamel finish. 16 inch crank handle clears bumper.

No. 625—Capacity ¾ ton, height 8¼ inches; raise 6 inches, weight each 3¼ pounds Each $1.00

One in a carton

No. 640—WALKER STEEL

Double Lift

A sensational development in jack design. Rack bar folds around in base, straightening out as lift is made. This produces a remarkably high lift from a very low standard. Rack bar is supported by a telescoping sleeve giving absolute rigidity and extra strength The folding rack bar principle is an exclusive Walker design

No. 640—Capacity 1 ton; 7 inches high, 8½ inch raise; 30 inch folding handle; weight each 6¼ pounds..... .....Each $2.85

One in a carton

No. 520—WALKER SCREW

Double Extension

Telescoping screw and ball bearings makes an easy job of lifting cars having balloon tires or low axles; 53 inch crank handle makes axles easy to reach, and eliminates interference

No. 520—Capacity 1 ton; 7½ inch high; 8½ inch raise; ¾ and 1⅛ inch diameter screws weight 6 pounds... Each $4 50

One in a carton

GARAGE JACKS

No. 716—WALKER LIFT-A-CAR

Cantilever Type

Especially adapted for tire changing, curb work, adjusting brakes, etc.; 52 pounds pressure on handle lifts a ton long handle gives instant positioning under car; lever on handle raises cap to axle height.

Malleable cap with hardened steel lining; malleable chassis; lifting segment is hardened drop forging; lever on handle reverses jack; mounted on four wheels

No. 716 Capacity 1½ tons; low starting point 4 inches, raise under power 13 inches, maximum height 17 inches; 52 inch offset handle; weight 60 pounds..... ....Net, Each $17.50

AUTOMOBILE JACKS

No. 126—WALKER LONG HANDLE

For Balloon Tires, with 30 inch Steel Handle

This is a real jack for the modern car; the adjustable foot lift gets down to within 3½ inches of the ground. Ratchet type malleable iron

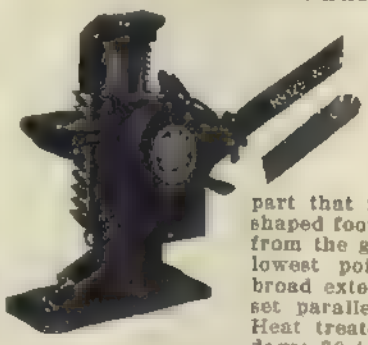
No. 126—Capacity 1 ton; 10⅝ inches high; 7 inch raise; foot lift 3¾ to 9⅝ inches; weight 14 lbs .....Each $5.35

One in a carton

GARAGE JACKS

No. 123—WALKER BLUE BOY, SERVICE

Ratchet Malleable Type



Built expressly for service work — for aligning wheels, adjusting brakes, replacing springs and axles — for anything in the busy repair shop.

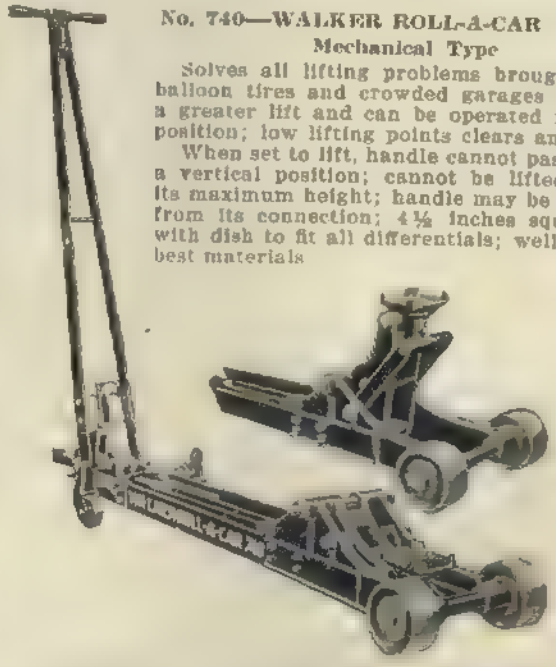
Its large surface, corrugated cap bites into the part that it supports; the broad V-shaped foot lift gets down to 4 inches from the ground; will get under the lowest point, and, because of the broad extension on each side can be set parallel with spring or frames Heat treated rack bar; drop forged dogs; 30 inch wood grip handle.

No. 123—Capacity 3 tons; 10⅝ inches high; foot 4 to 9⅝ inches; raise 7 inches; weight 17 pounds Each $10.00

One in a carton

No. 740—WALKER ROLL-A-CAR

Mechanical Type



Solves all lifting problems brought on by balloon tires and crowded garages as it has a greater lift and can be operated from any position; low lifting points clears any axle.

When set to lift, handle cannot pass beyond a vertical position; cannot be lifted beyond its maximum height; handle may be unlocked from its connection; 4½ inches square cap, with dish to fit all differentials; well made of best materials

Handle can be operated in 3 positions, clearing all interferences with bumpers, fenders or running boards and can be folded flat when not in use, ground clearance of ¾ inch under all parts

43 to 1 lifting ratio makes it easy to operate; foot operated reverse; cap adjustment to axle height, roller bearing large wheels.

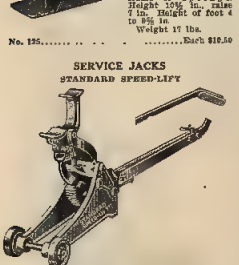
No. 740—Capacity 2½ tons; low lifting point 5 inches; raise under power 12 inches; maximum height 17 inches; frame height 44 inches; handle length 43 inches; weight 130 pounds.....Net, Each $36.00

AUTO JACKS
WALKER BLUE BOY

Ratchet malleable type with foot lift for service work. Handles anything up to 3 tons. Has 26 in. wood grip handle with 12 in. stroke, clearing bumper, etc., easily. Can be operated parallel to frame or driving. Height 10¾ in., raise 7 in. Height of foot 4 to 9½ in.
Weight 17 lbs.

No. 125..... Each $10.50

SERVICE JACKS
STANDARD SPEED-LIFT



A jack for the lowest axles and largest balloon tires. It serves tire change stations, gasoline service stations and garages where quick results are desired in changing tires, brake adjustments and wheel washing. An all-around, handy jack which can be operated with short strokes of the handle under the lowest hung car with deep overhanging tank, tire carrier and bumper, even when one or two tires are flat. It has the widest range of lift, making it more adaptable for balloon tires. Can be used under the rear differential of a car, lifting the entire axle. The efficient low foot lift permits the front or rear of the car to be lifted without danger of the jack tipping forward. The pawls, in operation, are distinctive in sound as they engage and disengage, indicating a positive lifting and lowering mechanism, thus insuring against dropping the load. Length overall 66 in., width 8 in., length of handle 48 in., lifting, lowered 8¾ in. and 7 in., raised 18½ in. and 17 in., weight 57 lbs.

No. 81 ..... Each $16.50

Manley 2½ Ton Mechanical Jack

Handles operate in two positions, a normal position and a low position for overhanging bodies, where handle must be operated near the floor. A return spring on handle keeps it up out of the way at all times. Wheels are roller bearing and casters have ball bearings and turn on roller bearings. Minimum height 6¾ in., maximum height 19½ in., lift 14¾ in. Length of handle 33 in., length of jack 59 in. Weight 186 lbs.

No. 848..... Each $32.50

GARAGE JACKS
REED JACK

Easy Lift—Curb Jack

A speedy easy lift, 8,500 lb. curb jack, built for severe service. 40 lbs. pressure on the handle lifts a ton. Unequalled for changing tires, adjusting brakes and all quick service jobs.

The combined push and pull lifting action divides the load strain, making easy operation—

Lifts from 4¼ to 16½ in. without cap adjustment. Long offset spring steel handle clears bumpers and other obstructions. Quick lifting lever on handle raises saddle to any height—a few easy strokes raises the load. Gripping the reverse lever on handle lowers the load.

Two wheels and wide roller permit easy rolling over floor and curbing. Safety self-locking dogs prevent injury to operator. The load cannot drop. A sturdy dependable Jack made of reduced malleable iron and steel—practically unbreakable.

Specifications: Low 4¼ in., high 16½ in., capacity 8,500 lbs., weight 60 lbs.

No. 80..... Each $17.50

MANLEY QUICK LIFT

Light weight, powerful in operation, quick positioned and fast lifting. The minimum height of the lifting pad is 4 in. with a working range of 13¼ in., making it suitable for any type of car. Two pawls and one sector gear accomplish the lifting movement, while a single cam operates the lowering feature. The ratchet action of handle permits operation of handle in any position. The quick raising feature eliminates tiresome pumping to position the lifting pad under the axle. Control of jack is accomplished by a small lever located on the handle in a convenient position. Raising and lowering or quick positioning is quickly accomplished by a slight movement of this lever. Length overall 72 in., length of handle 56 in. Weight 50 lbs.

No. 504A. Each $47.50

WALKER LIFT-A-CAR

Fast and sturdy. Especially adapted for tire changing, all curb work, adjusting brakes, etc. The 82 in. long offset handle gives instant positioning under car. Pull a little lever on the handle, and the cap goes up to axle height. The range of 4 to 17 in. without cap adjustment takes care of any car. The long handle has a 12 in. stroke and clears all interferences. The cap is a malleable iron casting with hardened steel linings and hole in center to take drain plug. Chassis is powerfully built of malleable iron and the lifting segment is a hardened drop forging with milled teeth and is supported by a very long bearing. A lever on handle reverses jack, and the reverse mechanism positively prevents whipping. Extended prongs at the front of jack permit it to stand up against the wall, when not in use. Low starting point 4 in., raise under power 15 in., maximum height 17 in. Capacity 3000 lbs. Weight 82 lbs.

No. 748..... Each $17.50

GARAGE JACKS
WALKER ROLL-A-CAR

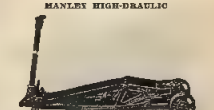
The answer to all of the new lifting problems which balloon tires brought, which crowded garages made, and those presented through the necessity of lifting from any position under a car, front, rear or side. Every conceivable lift that is required can be made in the smallest operating space with the least manual effort. When set to lift, the handle cannot pass beyond a vertical position. This eliminates the danger of a man being thrown against the car or the handle lifting the car. There are no control rods on the handle to work with the fingers, which means that the operator has a firm grip on the handle with no other duties for his fingers while operating the jack. There is no possibility of breaking the jack by attempting to lift beyond its maximum height. On the last up strokes an automatic reverse operates and another handle stroke starts the jack down. When a man is working under a car, after a lift is made, the handle can be unlocked from its connection with the lift members so that any contact with the handle by a passing car or another mechanic will not raise or drop the load.

Specifications

Low lifting point	5 in.
Raise under power	13 in.
Maximum height	17 in.
Frame length	44 in.
Handle length	43 in.
Capacity	6000 lbs.
Weight	132 lbs.

No. 749..... Each $36.00

MANLEY HIGH-DRAULIC



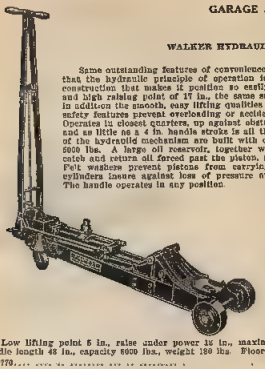
Capacity 2½ Tons

Operated from levers on the handle grips. Lowering the jack is accomplished by gripping the lever on the right handle grip. Positioning lock is operated by the lever on the left handle grip. A safety pin is provided in the releasing mechanism making it impossible for an unauthorized person to accidentally lower the jack.

Minimum height 5¼ in., maximum height 19¾ in., screw adjustment 2¾ in., total lift 14½ in. Weight 160 lbs.

No. 885-A—With steel wheels..... Each $52.50
No. 886-A—With rubber tires..... Each 65.50

GARAGE JACKS



WALKER HYDRAULIC ROLL-A-CAR

Same outstanding features of convenience and utility as No. 740. Differs only in that the hydraulic principle of operation is used. Has the same counterbalanced construction that makes it position so easily, the same low starting point of 5 in. and high raising point of 17 in., the same sturdy, non-tipping cap construction, and in addition the smooth, easy lifting qualities that hydraulic operation gives. Positive safety features prevent overloading or accidental release of jack while under a load. Operates in closest quarters, up against obstructions, under running board or fender, and as little as a 4 in. handle stroke is all that is required to make a lift. All parts of the hydraulic mechanism are built with over-capacity to guarantee a full load of 6000 lbs. A large oil reservoir, together with special recesses in the cylinders to catch and return all forced past the piston, makes one filling of oil last indefinitely. Felt washers prevent pistons from carrying dirt into cylinders. Precision honed cylinders insures against loss of pressure and insure long life and easy operation. The handle operates in any position.

Low lifting point 5 in., raise under power 16 in., maximum height 17 in., frame length 48 in., handle length 48 in., capacity 6000 lbs., weight 180 lbs. Floor clearance 1½ in.

No. 770.... Each $52.50

HYDRAULIC JACKS

MANLEY

Capacity 7½ Tons

For trucks and buses. A safety device prevents lowering of load accidentally. Easy convenient operation is secured by using the handle to operate the pump plunger with either long or short strokes, while lowering is done by simply squeezing the release lever. Is suitable for heavy dual tired vehicles.

Minimum height 6 in., max. height 20½ in., total width 17 in., length of handle 43 in., length of jack 37 in., weight 287 lbs.

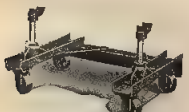
No. 525.... Each $125.00

Same as above, except jack is extra long. Length of jack 72 in.

No. 560.... Each $135.00

AUTO DOLLY

MANLEY



Steel frame, mounted on four ball bearing swivel casters with pads to support the car, whether under the axle or frame, and is adjustable for various heights. There is no possibility of car tipping or falling. Fits front or rear axle. Invaluable for car uncoupling. Cars supported by this dolly are quickly and easily moved. By mounting car on a pair of dollies it can be turned in any position in a space not larger than the car itself. The ball bearing wheels are 4 in. diam. with broad face, making it easy to handle heavy loads. Wheels may be locked to hold car stationary when desired. Floor space required 24x29 in. Maximum height of pads 19 in. Weight 87 lbs.

No. 528.... Each $37.50

WALKER RIGID AUTO RACKS

Adjustable auto support, locks rigid under any load and at any extended height. Rack head is shaped to fit under any frame or axle. Ruggedly built to carry loads in excess of rated capacity. Has no pins to shear, no wobbly parts, no springs, and absolute rigidity of the rack bar from the highest to the lowest point. Simple trigger under convenient carrying handle unlocks rack for lowering. Base is powerfully built and perfectly balanced to give solid foundation. For every car, truck or bus service requirement, adjusting brakes, supporting frame while replacing springs, removing axles, replacing shackle bolts and bushings, raising front or rear axle 12 to 14 in. higher to give room for creepers and wrenches, on bench for supporting axles or various parts of chassis for welding, straightening and other repair work, for storage and for all situations where an adjustable horse is needed. Every mechanic should have a pair.

Made in three sizes and capacities.

For work under axles and frames of the modern low built passenger cars. Capacity 2 tons. Height 11 in., extended height 17⅝ in., weight 16 lbs.

No. 732.... Per pair $6.50

For general garage use under axles and frames of all models of cars and of sufficient capacity to be used under dresses and trucks. Capacity 5 tons. Height 14½ in., extended height 24⅜ in., weight 26 lbs.

No. 732.... Per pair $11.00

Built extra heavy for use under the largest trucks, and with sufficient extended range to support axles or frames of trucks built with high axle clearance. Capacity 7 tons. Height 18 in., extended height 30 in., weight 40 lbs.

No. 733.... Per pair $13.50

AUTO TRESTLES

MANLEY

Require no tedious adjustments. Car is simply jacked up to desired height, trestles placed under point to be supported and release of jack leaves car supported on automatically locked trestles. Removal of trestles is effected by taking the weight off trestles with a jack. Pulling trestle handles automatically releases holding mechanism as trestles are removed. Accidental release is impossible as head on trestle locks handles.

Nos.	304	305	306

Cuckoo Clocks

CUCKOO AND QUAIL AND CUCKOO CLOCKS. These imported clocks are of the better class and are fully guaranteed. They are the product of the best factories in Europe. Each clock is carefully examined, is thoroughly tested, and tuned by expert mechanics before it is shipped. In addition to this the clock cases are subject to a most rigid examination to see that they are in the best possible condition. After the clocks have been carefully tested to see that they are in perfect running order they are carefully packed by expert packers, each clock in a separate box. This insures the article reaching you in first-class condition, and these high grade imported clocks can be depended on to give you satisfactory and lasting service. Our prices are no higher than you have to pay for a much inferior clock that has not undergone the rigid requirements of our clock department.

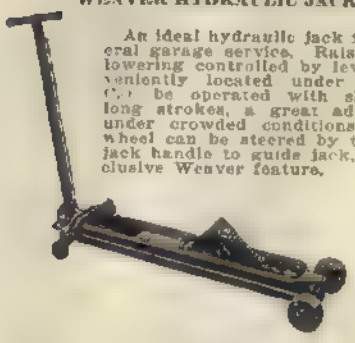
GARAGE JACKS

WEAVER HYDRAULIC JACK



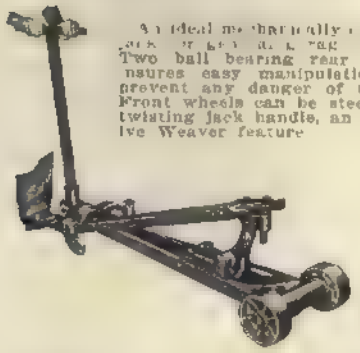
An ideal hydraulic jack for general garage service. Raising and lowering controlled by lever conveniently located under handle. Can be operated with short or long strokes, a great advantage under crowded conditions. Front wheel can be steered by twisting jack handle to guide jack, an exclusive Weaver feature.

Safety port in cylinder prevents overpumping. Handle upright when not in use. Frame of heavy channel steel, electrically welded.

Range of lift, 5 to 18 in. Capacity, 6,000 pounds.

	Each
No. WA24—Steel wheels; wt. 170 lbs.	$52.50
No. WA25—Cushion wheels; wt. 185 lbs.	64.50

WEAVER LO-WAY JACK



An ideal mechanically operated jack for garage service. Two ball bearing rear casters insures easy manipulation and prevent any danger of tipping. Front wheels can be steered by twisting jack handle, an exclusive Weaver feature.

Standard can be run up to load by pressing down lower foot pedal and load lifted on first stroke of lever. Load lowered by pressing upper foot pedal and continuing pumping handle.

Range of lift 6 to 14 in., with extension to 17 in. Capacity, 5,000 pounds.

	Each
No. WA20—Steel wheels, wt. 23[illegible] lbs.	$36.00
No. WA21—Cushion wheel; wt. 117 lbs.	48.00

WEAVER CURB JACK

Extremely speedy and efficient for changing tires on the curb, etc., because both raising and lowering are controlled from handle. Is short. Saddle drops to lowest position when released from load.

Range of lift, 4¾ to 17 in. Long curved handle and short stroke make jack easy to operate under overhanging bumpers, spare tires, etc.

Capacity 2,500 pounds.

	Each
No. WA23—Shipping wt. 53 lbs.	$17.50

GARAGE JACKS

YELLOW JACK-IT

High-Low Bloonjack

Built low for use under cars having balloon tires. Is also built long to reach under cars with a long overhang.

Ratchet mechanism is simple and in close quarters permits raising the load by short strokes with the handle at any desired angle. Roller bearings throughout.

Body 43½ in. long, handle 42 in. long, diameter of wheels 6 in., with 2½ in. face, 3⅜ in. casters.

	Each
No. 4—Capacity 5000 lbs.; minimum height 6 in., lift 8¼ in.; height adjustment 2¼ in., maximum height 16½ in.; wt. each 134 lbs.	$36.00
No. 4RT—With rubber tired wheels for use on tile or show room floors	48.00

WHEEL ALIGNERS

BEAR

Measures "pitch" as well as "toe-in" in 10th of an inch. All readings taken under actual driving conditions.

Cold rolled steel, heavily copper plated and rust proof. Fits all cars.

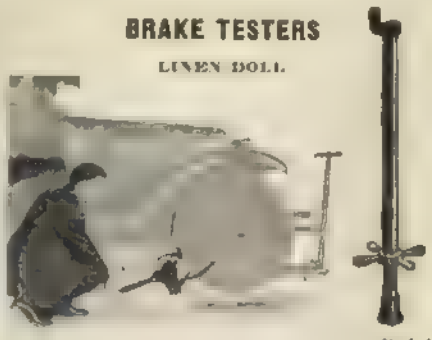
Complete with templet which serves as a continual check on the accuracy of the [illegible].

	Each
No. 10—Weight each 45 lbs.	$35.00

One in a carton.

BRAKE TESTERS

LUNEN DOLL



Pedal Depressor

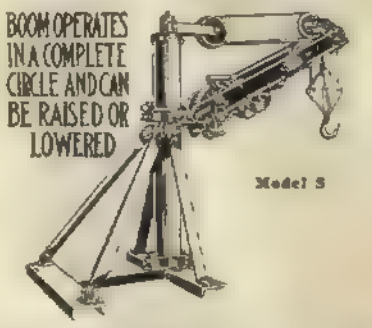
Accurately registers the braking effort at each braked wheel of a motor vehicle. Comprises a device for holding the brake pedal in fixed position and a testing device for measuring the relative torque necessary to turn the several wheels with the brake pedal depressed position, so the brakes can be readily adjusted to give the relative proportion desired on the several wheels. Simple in construction, easy and quick to operate. Tongs are adjustable to fit various size wheels and are provided with [illegible] to prevent damage to rim or tire. Tire shoes [illegible] with anti-slip facing to prevent slipping on a wet tire. Readings recorded on both sides of tester. Instructions furnished.

High grade steel and malleable iron.

	Each
Model A—Tester complete with tongs fitting balloon tires up to 7 in., and pedal depressor, shipping weight 75 lbs. One in a carton.	$35.00
No. 6—Pedal depressor only; locking type	$3.25

SERVICE TRUCK DERRICKS

AMMCO MODEL S



Model S

Flexibility, ease and speed of handling, economy, rugged strength, and compact design take the Ammco Derrick completely out of the ordinary crane class.

The Ammco Derrick occupies such small space that the car also makes an ideal pick-up and delivery car. When not in outdoor service it can be used to raise cars for under chassis work, lift engines out of cars, etc.

The adjustable circle swing boom handles any job from the sides or back of the truck. Interference with traffic is eliminated.

The gearing of the Ammco-Derrick is high on the mast enabling the mechanic to stand in the car while operating the derrick.

Two independent winches operate the boom and the cable and hook. Gear ratios of 20 to 1 and 50 to 1 for each winch make it easy for one man to lift any car. Ratchet pawls automatically hold the boom and lifting winches in any position.

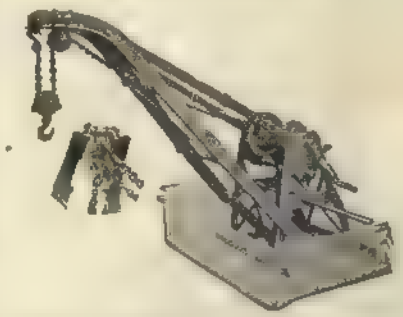
No auxiliary winch is needed for long pulls. The boom is lowered and pointed toward the car being pulled in. The derrick thus combines the action of a perfect winch and does the job in a hurry.

Provides great strength without excessive weight or bulk. Ruggedly constructed of steel and malleable iron, it has a generous factor for overloads and normal strains.

	Each
No. S—Capacity 3 tons 36x27 in. base, length of boom 4 ft. 3 in., height over car frame 5 ft., lift over truck frame 5 ft. 5 in.; complete with 65 ft. of cable and attachments; weight 465 lbs.	$165.00

AUTO CRANES

WEAVER MODEL "G"



Compact and rigid, without unnecessary weight or bulkiness. Structural features of the Weaver Auto Crane, Model G. Recommended capacity 3 tons. The boom is pivoted at the bottom. One man can easily raise or lower the boom, after unlocking tension bars.

Compound gears afford two distinct leverages and speeds and enable mechanic to operate the crane conveniently from the ground or service car.

Extreme leverage ratio of 114 to 1.

The sheave wheel at the end of the boom is swiveled, permitting a direct side pull without the chain binding. Large diameter of the drum prevents excessive wear and kinking of chain or cable. Drum is mounted on roller bearings. 35 ft. best quality ⅜ in. chain regularly supplied. 50 ft. ½ in. cable supplied in place of chain at same price. Base, 38 in. wide by 29½ in. long.

	Each
No. WG-12—Ship. wt. 498 lbs.	$110.00

WRECKING CRANES

MANLEY

This crane has a 2½ ton capacity which makes it adaptable to a heavier class of work.

The beam is of heavy steel channels double trussed and pivoted in middle on heavy knuckle pin thus affording tremendous strength to the crane. Tilting beam makes it possible to adjust for height and overhang. Sufficient overhang allows a complete car to be swung under the beam. Swivel nose permits the chain to adjust itself to the angle of the pull.

Ease of operation on heavy loads is accomplished by use of triple chains and high ratio gearing. Gear mechanism can easily be disengaged, allowing chain or cable to be quickly pulled out from the drum. Drum may also be used as a winch.

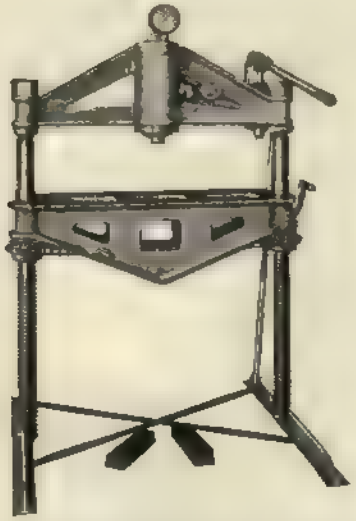
To make ground or platform operation possible, a high and low pinion shaft has been provided, with the lower one at the back of crane, so it will easily clear the rear fenders of the wrecking car.

Overhanging beam, 60 in., length of beam over all, 78 in., length of saddle, 34 in., holes, center to center, 20½ in., width 36 in., holes, center to center, 32 in.

	Each
No. 107—Crane complete; capacity 3½ tons, wt. each 615 lbs.	$135.00

HYDRAULIC PRESSES

WEAVER



80 Tons, 42 Inch; 50 Tons, 36 Inch

Speed, convenience and extreme power are outstanding features of Weaver hydraulic presses. Hand operated bolster matches smallest to largest jobs to be handled easily, without time-wasting adjustments. Precision work performed with accuracy, due to accurate control of ram and extreme rigidity of press.

Adjustable bolster and unobstructed space inside frame make it easy to handle bulky work. Work quickly raised to ram by convenient crank and screw. Extreme adjustment between bolster and ram 4 ft. 6 in. on 80 ton press and 4 ft. 3 in. on 50 ton press. Center opening in bolster for work and pocket on each side for parts, etc.

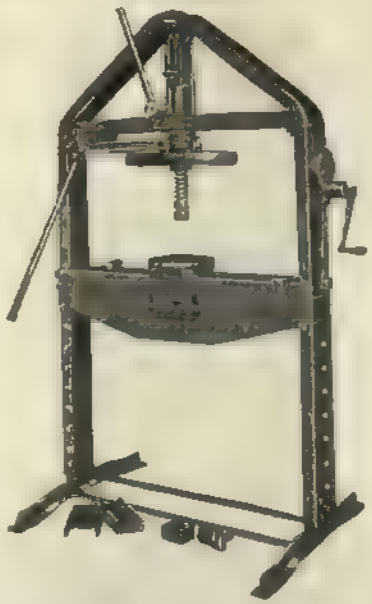
Four adjustments in leverage and length of stroke by turning lever handle.

Ram provided with hardened steel thrust block and packed with highest grade leather packing, which can be expanded by turning plunger. Undercut near lower end of plunger prevents any leakage past packing from running down on ram and work, draining oil into drip ring from which oil is drawn back into pump reservoir when pump is operated.

	Each
No. WD47—50 ton, 36 in. press	$295 00
No. WD48—80 ton, 42 in. press	395 00

HI-SPEED PRESSES

WEAVER



60 Ton, 42 Inch; 28 Ton, 32 and 42 Inch

A mechanically operated press with ample power to handle any work.

The ball bearing construction and pitch of screw insure greater leverage and speed with less effort. Three adjustments in the heavy duty leverage (lever on left above) enable operator to exert required pressure with maximum speed. For lighter work requiring pressure to 2,000 lbs., the high speed lever (center above) is preferable on account of its greater speed. Either leverage can be used without moving work.

Bolster on 60 ton presses adjusted by means of crank shown at right above; on 28 ton presses it is easily raised and lowered by hand. Adjustable bolster brings work in direct contact with screw.

Pressure released immediately by 2 or 3 reverse strokes of lever. Wheel and screw supported by ball bearings for quick operation.

Two pressure blocks, two vise blocks and two sections of 6 in. channel steel furnished.

Specifications

	60 Ton, 42 In. Press	28 Ton, 32 In. Press
One piece steel frame	6 in. 13 lb. channel	5 in. 9 lb. channel
Height over all	6 ft. 9 in.	5 ft. 7½ in.

TOW BARS

MARQUETTE SPACER

Improved Type, Universal in Every Direction

Keeps both cars properly spaced and under absolute control at all times. Makes two cars travel as a unit. Unbreakable design. Quick swivel connection. Easily removed for carrying in service cars.

Heavy compression spring in each bar absorbs all shocks. Chain grip locks provide quick, tight fastenings to the disabled car. Universal forks permit a wide latitude of fastenings.

Extended length of arms 50 in., contracted length of arms 36 in., range of adjustment 14 in.

	Each
Spacer Tow Bar—Shipping weight each 52 lbs.	$20 80

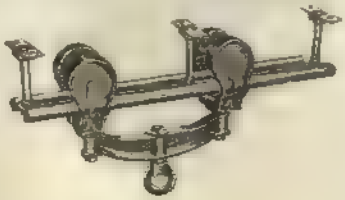
OVERHEAD CARRIER EQUIPMENT

RELIABLE, ROUND TRACK

Built to meet the test of rigid service. Its varied adaptability is permitted by a range of track and carrier sizes. The simplest, strongest and easiest running carriers made.

Built of certified malleable iron. Wheels have hardened steel axles, washers and roller bearings. All connecting bars are fitted with double swivels, allowing the carriers to run freely around curves and also permitting loads to be turned in any direction.

Reliable tubular steel track assembled on double brackets. Construction of these brackets when assembled make a very strong, rigid and durable tread track. Track may be curved to any radius not less than 3 feet.



Nos. 110, 120 or 130 carrier recommended for light service.

Nos. 210, 220 or 230 carriers for heavy work and continual service.

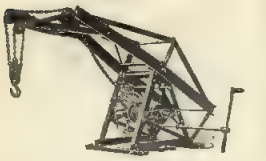
No. WG-15—Ship. wt. 498 lbs. $110.00

WRECKING CRANES

MANLEY



This crane has a 2½ ton capacity which makes it admirable to a heavier class of work.

The beam is of heavy steel channels, double trussed and pivoted in middle on heavy king pin, thus affording tremendous strength to the crane. Tilting beam makes it possible to adjust for height and overhang. Sufficient overhang allows a complete car to be swung under the beam. Swivel nose permits the chain to adjust itself to the angle of the pull.

Ease of operation on heavy loads is accomplished by use of triple chains and high ratio gearing. Gear mechanism can easily be disengaged, allowing chain or cable to be quickly pulled out from the drum. Drum may also be used as a winch.

To make ground or platform operation possible, a high and low pinion shaft has been provided, with the lower one at the back of crane, so it will easily clear the rear fenders of the wrecking car.

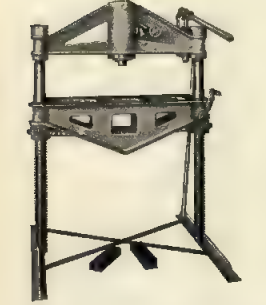
Overhanging beam, 60 in., length of beam over all, 78 in., length of saddle, 24 in., holes, center to center, 30½ in.; width 36 in., holes center to center, 32 in.

Each

No. 107—Crane complete; capacity 3½ tons, wt. each 615 lbs. $135 00

HYDRAULIC PRESSES

WEAVER



80 Tons, 42 Inch; 50 Tons, 36 Inch

Speed, convenience and extreme power are outstanding features of Weaver hydraulic presses. Hand operated bolster enables smallest to largest jobs to be handled easily, without time-wasting adjustments. Precision work performed with accuracy, due to accurate control of ram and extreme rigidity of press.

Adjustable bolster and unobstructed space inside frame make it easy to handle bulky work. Work quickly raised to ram by convenient crank and screw. Extreme adjustment between bolster and ram 4 ft. 6 in. on 80 ton press and 4 ft. 3 in. on 50 ton press. Center opening in bolster for work and pocket on each side for parts, etc.

Four adjustments in leverage and length of stroke by turning lever handle.

Ram provided with hardened steel thrust block and packed with highest grade leather packing, which can be expanded by turning plunger. Undercut near lower end of plunger prevents any leakage past packing from running down on ram and work, draining oil into drip ring from which oil is drawn back into pump reservoir when pump is operated.

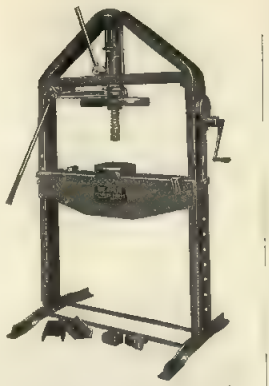
Each

No. WD47—50 ton, 30 in. press.....$235 00

No. WD48—80 ton, 42 in. press.. 395 00

HI-SPEED PRESSES

WEAVER



60 Ton, 42 Inch; 28 Ton, 32 and 42 Inch

A mechanically operated press with ample power to handle any work.

The ball bearing construction and pitch of screw insure greater leverage and speed with less effort. Three adjustments in the heavy duty leverage (lever on left above) enable operator to exert required pressure with maximum speed. For lighter work, requiring pressure to 2,000 lbs., the high speed lever (center above) is preferable on account of its greater speed. Either leverage can be used without moving work.

Bolster on 60 ton presses adjusted by means of crank shown at right above; on 28 ton presses it is easily raised and lowered by hand. Adjustable bolster brings work in direct contact with screw.

Pressure released immediately by 2 or 3 reverse strokes of lever. Wheel and screw supported by ball bearings for quick operation.

Two pressure blocks, two vise blocks and two sections of 5 in. channel steel furnished.

Specifications

TOW BARS

MARQUETTE SPACER

Improved Type, Universal in Every Direction

Keeps both cars properly spaced and under absolute control at all times. Makes two cars travel as a unit. Unbreakable design. Quick swivel connection. Easily removed for carrying in service cars.

Heavy compression spring in each bar absorbs all shocks. Chain grip locks provide quick, tight fastenings to the disabled car. Universal forks permit a wide latitude of fastenings.

Extended length of arms 50 in., contracted length of arms 36 in., range of adjustment 14 in.

Each

Spacer Tow Bar—Shipping weight each 52 lbs. $20.00

OVERHEAD CARRIER EQUIPMENT

RELIABLE, ROUND TRACK

Built to meet the test of rigid service. Its varied adaptability is permitted by a range of track and carrier sizes. The simplest, strongest and easiest running carriers made.

Built of certified malleable iron. Wheels have hardened steel axles, washers and roller bearings. All connecting bars are fitted with double swivels, allowing the carriers to run freely around curves and also permitting loads to be turned in any direction.

Reliable tubular steel track assembled on double brackets. Construction of these brackets when assembled make a very strong, rigid and durable tread track. Track may be curved to any radius not less than 3 feet.

Nos. 110, 120 or 130 carrier recommended for light service.

Nos. 210, 220 or 230 carriers for heavy work and continual service.

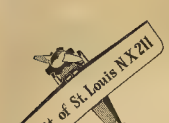
Third Dozen in a Box

Air Plane Pull Toys



N15181—SPIRIT OF ST. LOUIS—This metal airplane runs along the floor when it is wound. The propeller revolves too, and the motor makes a noise like a real plane. The name is painted in red across the top of the wing and the wheels are painted to match. Length of plane, 16 inches.....Per doz. 4.00

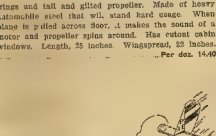
N16537—MAIL PLANE—Pea Green plane with red wings and tail and gilted propeller. Made of heavy automobile steel that will stand hard usage. When plane is pulled across floor, it makes the sound of a motor and propeller spins around. Has cutout cabin windows. Length, 25 inches. Wingspread, 23 inches. .....Per doz. 14.40

N15183—U. S. MARINES PLANE—This plane is made of light weight aluminum. It has a wind-up motor that makes it run when you pull it along the floor. Propeller revolves. The name is painted in red letters across the top of the wing and the propeller goes around when the plane is running. Length, 17 inches.....Per doz. 9.00

N16535—METAL TRI-MOTOR AIRPLANE—A lifelike reproduction of the huge tri-motor passenger planes used by the National Transport Company. Constructed from heavy gauge steel with green, red and gold finish, baked on. Steel propellers are mounted behind rotary type aeroplane motor cylinders. Equipped with ratchet wheel that makes gasoline motor noises when plane is pulled along the ground. Has windows on both sides and metal landing wheel. Steel landing gear wheels have imitation rubber tires. All three propellers revolve as aeroplane rolls along. Size, 23x3x7½ inches. Packed each in a carton.....Per doz. 18.00

N16525—AEROPLANE—An exceptional value that is beautifully designed and constructed out of heavy steel. It can be used as a metal and still yield a good profit. Finished in green and red. Equipped with three revolving propellers. Length, 20¼ inches. Height, 7 inches. Wingspread, 18 inches.....Per doz. 8.36

N15620—AEROPLANE—The aluminum propeller revolves and a crank is made to imitate the motor. The body is entirely of wood, unbreakable, and finished in the bright colors of yellow, red, silver and aluminum and highly polished. Size, 12x4½ inches. Packed one in a box. .....Per doz. 18.00



N15186—TRI-MOTOR PLANE—A new low-winged model mail airplane made of metal and attractively painted in bright colors. When the toy is pulled along the floor the three propellers revolve and the ratchet wheels make a noise like the exhaust of a real plane. Length, 25½ inches. Wing spread, 25¼ inches .....Per doz. 18.00

N15167—ARMY BOMBER—An airplane made entirely of metal and colored in gray, blue and red. Machine guns are projected along the sides, and aviators and pilot are can be seen through the windows. As the toy is pulled along the floor a ratchet arrangement in the motor causes the motor to make a chugging sound. Has three propellers revolves. Length, 24 inches .....Per doz. 16.00

Flying Zepps

N15147—FLYING ZEPPELIN—Aluminum finish has cord attached and actually flies when suspended in the air from a string. After being wound up, flies for several minutes. The spring motor moves the propeller at a good rate of speed. Flies in a circle. Length, 9¼ inches. Height, 2¼ inches. Width, 2½ inches.....Per doz. 9.70

Pull Toy Zepps

N15149—ZEPPELIN. A wind up motor makes this Zeppelin run along the floor by itself. The body is made of silvered metal with tail and wheels to match. It is an extremely sturdy toy. Length, 17 inches.....Per doz. 7.00

N15148—FLYING ZEPPELIN—Aluminum finish, has cord attached and actually flies when suspended in the air. After being wound up, flies for several minutes. The motor moves the propeller at high speed. Flies in a circle. Length, 13 inches. Width, 4¼ inches.....Per doz. 7.00

N16535 LITTLE GIANT ZEPPELIN—A toy of exceptional strength Made of extra heavy gauge stock. Designed that it can be used for coasting as well as a pull toy Finish in silver color, beautifully decorated. Packed in individual boxes. Height, 7¼ inches. Width, 2¾ inches. Length 26 inches.....Per doz. 18.00

Pull Toy Zepp

N16473—ZEPPELIN—A smooth gold finish life-like model of the Graf Zeppelin. Four screw propellers and powerful motor drives it along the floor straight or in circles. A twist of the front lugs converts it into a pull toy. An added feature is the floor as it runs gives to the appearance of floating through air. Length, 21 inches.....Each 3.00

SPEED UP

A foaming engine delays train movement. Prevent foaming and speed up traffic by using "B-A Anti-Foam."

"B-A Anti-Foam" increases the tonnage hauled, reduces terminal delays, improves lubrication and cuts fuel and water consumption. Moreover it gives the engine man the advantage of a better engine to work with.

Consult Bird-Archer. Their water treatment experts are worth while calling upon.

THE KERITE INSULATED WIRE & CABLE COMPANY INC
NEW YORK CHICAGO SAN FRANCISCO

One of the cities among the Santa Fe's city and agricultural markets — Phoenix, Ariz.

The Men Who Can Tell You About Southwestern and Pacific Coast Markets and Conditions Existing There

From the corner of your desk you have a wire to the men who have Southwestern market information. It is their business to know, and the best way to ship there—the quickest, the safest, and the most economical.

They are Santa Fe men but when you call them in they are working for you. If there is a better way to a certain market than Santa Fe they will tell you. These Santa Fe Freight men are as near to you as your telephone—one at least in every shipping center in the United States (See list below). Located in 23 states and Mexico.

Please remember though that the Santa Fe has a reputation for careful, fast and dependably punctual freight and passenger service. It operates over its own rails—double track most of the way—to twelve states in the West, Southwest and Pacific Coast territory.

● *There is a Santa Fe man in each city listed below, call him in*

Between East-Southwest and Pacific ONE LINE-ON TIME

Santa Fe

Twin Wheel Tracks in the '70's
Twin pairs of rails in '31

THERE is romance and history in every mile of the Santa Fe but it is more than romance that sends the "Chief" out day after day in two or three sections, and brings in the G. F. X. and P. G. X. on schedules as exact as many passenger lines.

It takes several millions of dollars each year and what you might call the spirit of the Santa Fe in a good many men to keep up equipment, road, and schedules for the kind of handling shippers want for their freight. Where the wagons traveled for months a little more than fifty years ago, your freight travels to the South West and Pacific Coast in a few days, over one of the finest railway systems in the world—double track almost the entire way. Via the Santa Fe—One Line—On Time.

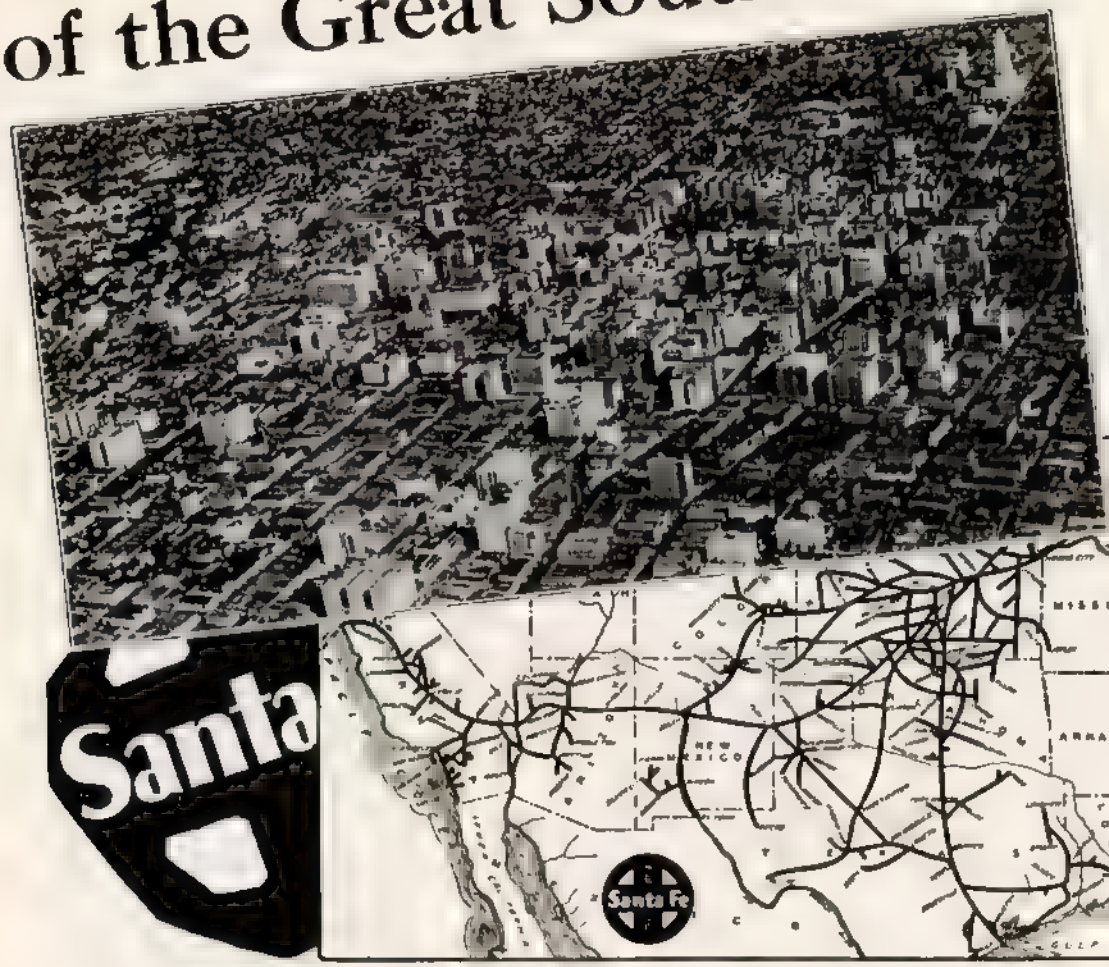
Between East, Southwest and Pacific ONE LINE—ON TIME

Santa Fe

Direct to the Vast Markets of the Great Southwest . . . . . .



The business district of Los Angeles

Reviving industry looks eagerly toward the ever increasing populations of the vast rural areas and teeming cities of the great Southwest for new and widening markets. And as distribution of goods and materials over this great area increases, shippers come more and more to appreciate the splendid facilities of the Santa Fe—one line—on time—all the way—for fast, reliable, direct deliveries to all principal distribution centers in the Southwest. Route your next consignment via Santa Fe.

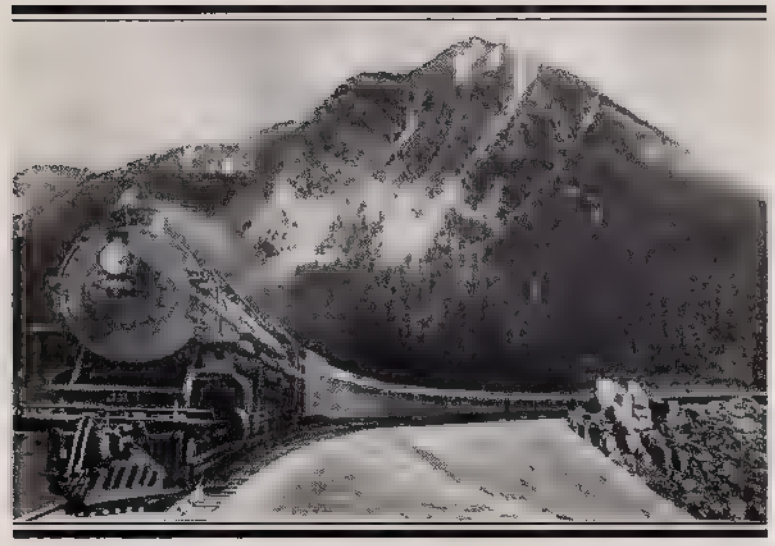
Between East, Southwest and Pacific ONE LINE—ON TIME

Santa Fe

260,000 miles in a year*

on the new North Coast Limited of the Northern Pacific



There's 62 million miles of roller bearing experience here, if you care to figure it that way. 240 bearings, 260,000 miles each.

TWENTY PULLMANS of this newest of trans continental trains ride on Shafer Roller Bearings. The Shafer Bearings that started out with this famous train last May have rolled up a remarkable record of satisfactory service and have already turned the quarter-million mark. They are now rolling up more mileage, on an already enviable performance record.

This consistent, continuous performance in a long hard run is typical of Shafer Roller Bearing service. It further demonstrates that the exclusive self-aligning design is fundamentally correct for railroad service.

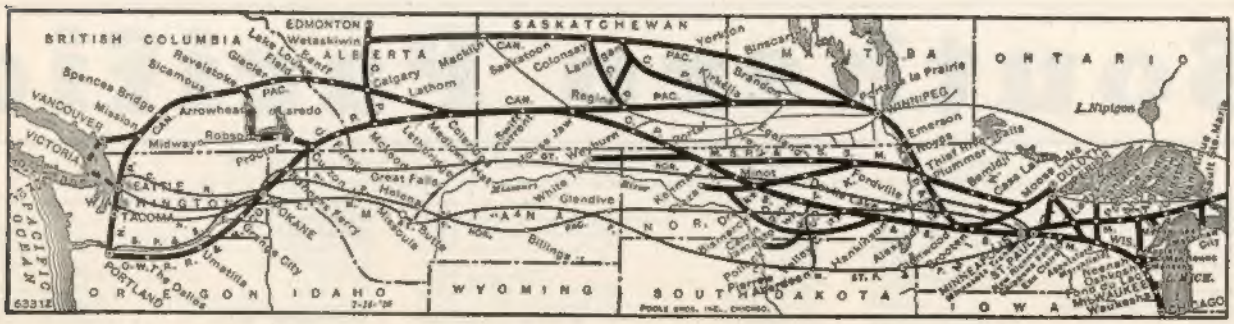
SOO LINE

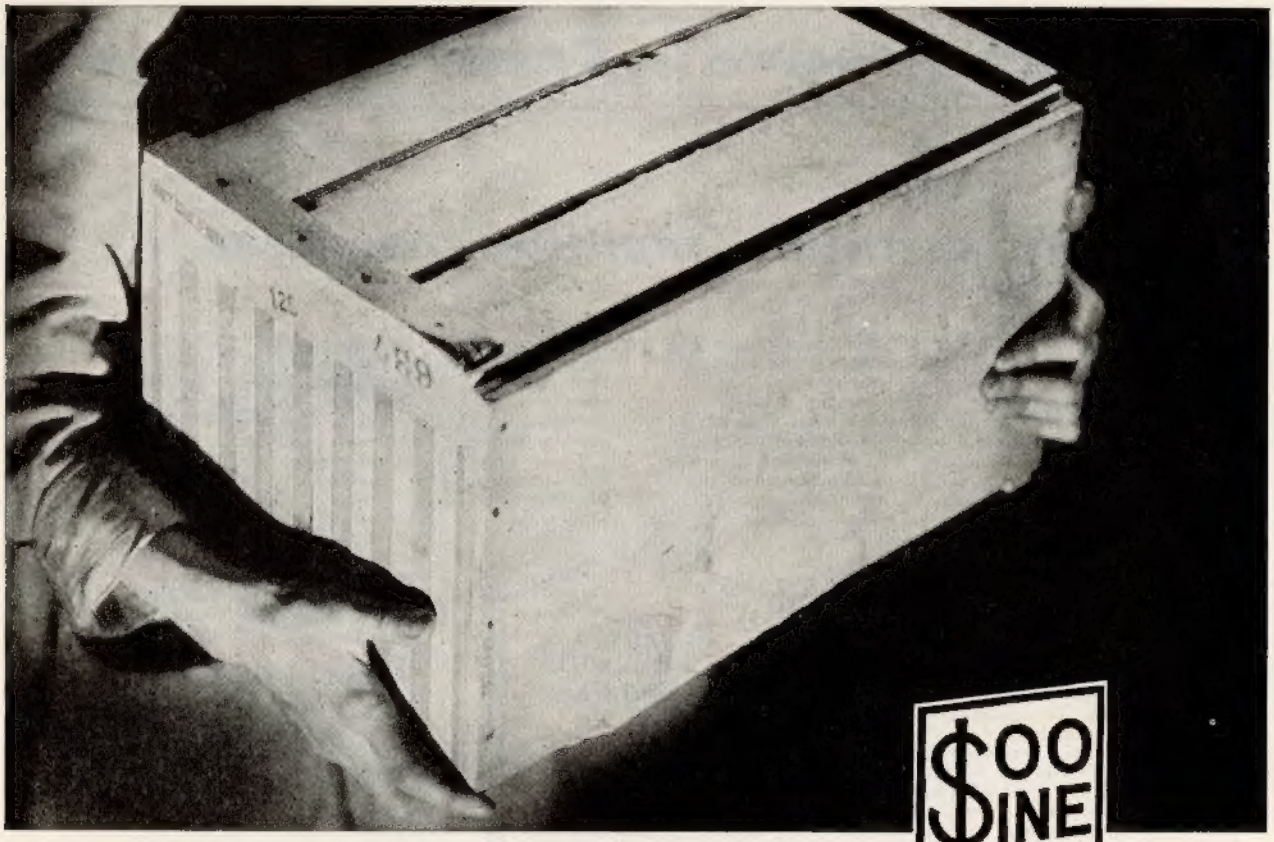
thousands of hands

AT your service: thousands of hands! That's what the Soo Line means to hundreds of shippers who are making daily use of its ample facilities. Once you become acquainted with Soo Line freight service you, too, will realize that it is made up of thousands of helping hands—as well as miles of rails and hundreds of tireless engines.

Our army of courteous employees is trained to handle every type of shipment with skill and care. Efficient, up-to-date methods and equipment make it possible for us to guarantee that your freight will go through with the utmost possible speed. Ship via the Soo Line and let these thousands of hands serve you.



ROUTE YOUR FREIGHT CARE OF SOO LINE

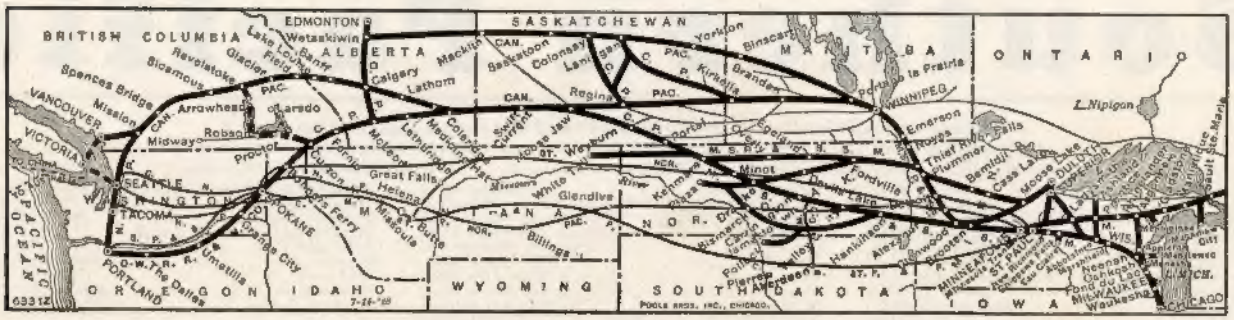


handle with care

How many times have you said, "Give this shipment special handling?" How many times did you get it? When you route your freight "Care of Soo Line," you have our positive guarantee that your shipment will receive the care it requires.

Whether you ship a crate or a carload, you may be sure that we will make it a personal obligation to see that it reaches its destination in perfect condition.

"Handle With Care" means what it says via the Soo Line.



ROUTE YOUR FREIGHT CARE OF SOO LINE

Imperial Valley Cantaloupes Ready for Eastern Markets

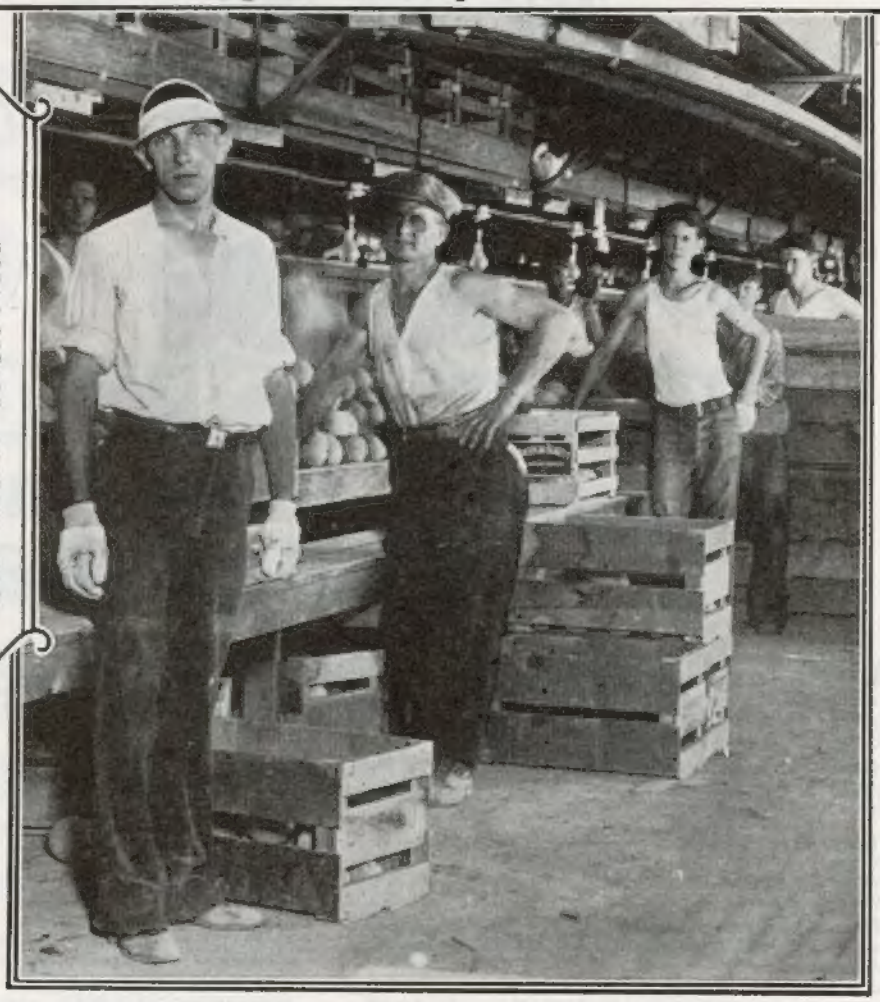
Southern Pacific is getting ready to handle crop

Down in the Imperial and Salt River Valleys the SOUTHERN PACIFIC is again getting ready to handle a year's cantaloupe crop.

Approximately 20,000 carloads each year are handled from the Imperial Valley. The record for a single day's loading is 647 cars, and entire movement takes place in less than three months.

In addition to getting cantaloupes loaded, iced and started from point of origin promptly, Southern Pacific maintains an "on time" performance with trains handling this crop that they are very proud of.

Their facilities are such that during the peak of this tremendous movement business on other parts of the line goes on as usual.



Crating cantaloupes for shipment.

FAST, DEPENDABLE FREIGHT SERVICE

Freight Is Handled with Unusual Care

NO other railroad serves such extensive territory in the South and West, or offers so many routes for transcontinental shipment. Fast manifest freight and through package car schedules are maintained from eastern points. Information as to these schedules or the many other fast schedules available to shippers can be obtained from any Southern Pacific freight representative listed below.

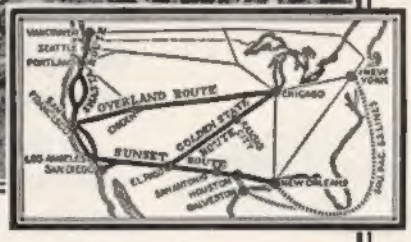
Thousands of Fertile Acres

Sorghum Corn for Silage Imperial Valley, Calif.



Southern Pacific Is One of the World's Great Transportation Systems

Operating both rail and ocean lines, it is the only complete transportation system crossing the continent. It offers four great routes for transcontinental passenger and freight service with an intimate network of feeder and scenic lines over the Far West and Southwest, and into western Mexico. The system operates 16,520 miles of rail lines and 3,825 miles of water lines, employing more than 100,000 trained employes.

—and Innumerable Industrial Sites

THOUSANDS of acres as fertile as those depicted here and innumerable sites for industrial locations are available in the territory served by the Southern Pacific Lines in Louisiana, Texas, New Mexico, Arizona, the West Coast of Mexico, California, Oregon, Nevada, and Utah.

In the Southern Pacific territory you have a choice of climate, population, production and industrial opportunity unrivaled anywhere.

Our representative will be glad to call at your home, or office to discuss the advantages of this territory with you.
